Things Chinese Ronald G. Knapp, 2012-07-03 China's art objects and traditional manufactured products have long been sought by collectors—from porcelains and silk fabrics to furniture and even the lacquered chopsticks that are a distant relation to ones found in most Chinese restaurants. *Things Chinese* presents sixty distinctive items that are typical of Chinese culture and together open a special window onto the people, history, and society of the world's largest nation. Many of the objects are collectibles, and each has a story to tell. The objects relate to six major areas of cultural life: the home, the personal, arts & crafts, eating & drinking, entertainment, and religious practice. They include items both familiar and unfamiliar—from snuff bottles and calligraphy scrolls to moon cake molds and Mao memorabilia. Ronald Knapp's evocative text describes the history, cultural significance, and customs relating to each object, while Michael Freeman's superb photographs illustrate them. Together, text and photographs offer a unique look at the material culture of China and the aesthetics that inform it.

Fake Stuff Yi-Chieh Jessica Lin, 2011-03-29 The Anthropology of Stuff is part of a new Series dedicated to innovative, unconventional ways to connect undergraduate students and their lived concerns about our social world to the power of social science ideas and evidence. Our goal with the project is to help spark social science imaginations and in doing so, new avenues for meaningful thought and action. Each Stuff title is a short (100 page) mini text illuminating for students the network of people and activities that create their material world. Yi-Chieh Lin reveals how the entrepreneurial energy of emerging markets, such as China, includes the opportunity to profit from fake stuff, that is counterfeit goods that rely on our fascination with brand names. Students will discover how the names and logos embroidered and printed on their own clothes carry their own price tag above and beyond the use value of the products themselves. The book provides a wonderful introduction for students to global markets and their role in determining how they function.

Chinese Art Roger Fry, Laurence Binyon, Albert Frank Kendrick, Bernard Rackham, Walter Perceval Yetts, Osvald Sirén, W. W. Winkworth, 1925 Our object in producing this book is to supply information about Chinese art that is at once authoritative and introductory. To many it may seem curious that no previous volume of the kind exists ; but to those who know the extreme difficulty of a detailed study of even one part of Chinese art, with its enormous periods and its close relationship to Eastern ideas, it may rather seem curious that anyone should attempt such a summary. We should not have given way to the desire to make such a book had we not known how valuable it would be if properly produced, and had we not felt

that we had hit upon the right plan. -- Preface.

Being Chinese Wei Djao, 2003-09 Chinese have traveled the globe for centuries, and today people of Chinese ancestry live all over the world. They are the Huayi or Chinese overseas and can be found not only in the thriving Chinese communities of the United States, Canada, and Southeast, but also in enclaves as far-reaching as Cuba, Zimbabwe, and Peru. In this book, twenty-two Chinese living and working outside of China tell us something about their lives and about what it means to be Chinese in non-Chinese societies. In these pages we meet a surgeon raised in Singapore but westernized in London who still believes in the value of Chinese medicine, which revitalizes you in ways that Western medicine cannot understand. A member of the Chinese Canadian community who bristles at the insistence that you can't be Chinese unless you speak a Chinese dialect, because Even though I do not have the Chinese language, I think my ability to manifest many things in Chinese culture to others in English is still very important. Individuals all loyal to their countries of citizenship who continue to observe the customs of their ancestral home to varying degrees, whether performing rites in memory of ancestors, practicing fengshui, wearing jade for good luck, or giving out red packets of lucky money for New Year. What emerges from many of these accounts is a selective adherence to Chinese values. One person cites a high regard for elders, for high achievement, and for the sense of togetherness fostered by his culture. Another, the bride in an arranged marriage to a transplanted Chinese man, speaks highly of her relationship: It's the Chinese way to put in the effort and persevere. Several of the stories consider the difference between how Chinese women overseas actually live and the stereotypes of how they ought

to live. One writes: Coming from a traditional Chinese family, which placed value on sons and not on daughters, it was necessary for me to assert my own direction in life rather than to follow in the traditional paths of obedience. Bracketing the testimonies are an overview of the history of emigration from China and an assessment of the extent to which the Chinese overseas retain elements of Chinese culture in their lives. In compiling these personal accounts, Wei Djao, who was born in China and now lives near Seattle, undertook a quest that took her not only to many countries but also to the inner landscapes of the heart. Being Chinese is a highly personal book that bares the aspirations, despairs, and triumphs of real people as it makes an insightful and lasting contribution to Chinese diasporic studies.

The Chinese of Early Tucson Florence C. Lister, Robert H. Lister, 1989 Focuses on an ethnographic collection gathered from a complex of Chinese dwellings, the importance of which lies in its size, diversity, good condition, and observable continuity of materials known from earlier periods of Chinese occupation in Tucson.

I'm Not Chinese Obry Alan, 2018-12-20 This is a book about entrepreneurialism, cooking, and discovering how life takes on new meaning when you decide to work for yourself.

Language and Logic in Ancient China Chad Hansen, 2020-07-15 Guided by 20th century theories of language, Hansen's novel approach to interpretive theory launched the modern analytical study of Ancient Chinese philosophy. This 1983 publication challenged authority-based traditional religious accounts stemming from 18th and 19th century missionary dictionaries and reliance on interpretive authority. Hansen shows that one tiny grammatical question... has

profound implications for the understanding of Chinese philosophy. ...This is surely a decisive breakthrough ... a great success. His observations about Chinese thought in general are always stimulating and illuminating. A book which excites one to rethink things from the foundations. A. C. Graham An ambitious and provocative book concerning the relationship between language and thought in ancient China. ... a novel and powerful theory about the nature of classical Chinese language ... a better understanding of many issues in classical Chinese philosophy. P. J. Ivanhoe [The] importance of this book lies ... in its engaging style, novel ideas, and rigorous argumentation, which can serve as a model for future work in Chinese philosophy. Hansen takes Chinese philosophy seriously as philosophy. For anyone tired of the superficial summaries or scholastic commentaries that so often characterize this field, Hansen's book will be a memorable and welcome change. Michael Martin

Global Spaces of Chinese Culture Sylvia Van Ziegert, 2013-09-13

This book is an exploration of how Chinese communities in the United States and Germany create and disseminate a sense of diasporic Chinese identity. It not only compares the local conditions of the Chinese communities in the two locations, but also moves to a global dimension to track the Chinese transnational imaginary. Van Ziegert analyzes three strategies that overseas Chinese use to articulate their identities as diasporic subjects: being more American/German being more Chinese hybridizing and commodifying Chinese culture through trans-cultural performances. These three strategies are not mutually exclusive and they often intersect and supplement each other in unexpected ways. The author also analyzes how the

everyday lives of overseas Chinese connect with global and local factors, and how these experiences contribute to the formation of a global Chinese identity.

China Moon Cookbook Barbara Tropp, 1992-10-01 Winner of an IACP/Julia Child Cookbook Award The Julia Child of Chinese cooking (San Francisco Chronicle), Barbara Tropp was a gifted teacher and the chef/owner of one of San Francisco's most popular restaurants. She was also the inventor of Chinese bistro, a marriage of home-style Chinese tastes and techniques with Western ingredients and inspiration, an innovative cuisine that stuffs a wonton with crab and corn and flavors it with green chili sauce, that stir-fries chicken with black beans and basil, that tosses white rice into a salad with ginger-balsamic dressing. Casual yet impeccable, and as balanced as yin and yang, these 275 recipes burst with unexpected flavors and combinations: Prawn Sandpot Casserole with Red Curry and Baby Corn; Spicy Tangerine Beef with Glass Noodles; Pizzetta with Chinese Eggplant, Wild Mushrooms, and Coriander Pesto; Chili-Orange Cold Noodles; Sweet Carrot Soup with Toasted Almonds; Wok-Seared New Potatoes; Crystallized Lemon Tart; and Fresh Ginger Ice Cream.

Contributors discuss the interactive role of the cultural and religious 'other', the diasporic absorption of local beliefs and customs, and the practical business networks and operational mechanisms unique to these communities. Growing out of
