Herein is Love, Vol. 1: Genesis Nancy Ganz, 2009-10-30

Herein is Love is a series of Bible commentaries for parents to read to their children. They provide what children need most—solid truths to grow in. In these books, Nancy Ganz draws out the beautiful implications of the Old Testament narrative that are foundational for Christian faith. The beginning books of the Bible are essential to our understanding of God's redemptive story. The Herein is Love series creatively focuses our attention on the events that bring this story to life, combining the richness of literature and the depth of a commentary.

The Humane Gardener Nancy Lawson, 2017-04-18 In this eloquent plea for compassion and respect for all species, journalist and gardener Nancy Lawson describes why and how to welcome wildlife to our backyards. Through engaging anecdotes and inspired advice, profiles of home gardeners throughout the country, and interviews with scientists and horticulturalists, Lawson applies the broader lessons of ecology to our own outdoor

spaces. Detailed chapters address planting for wildlife by choosing native species; providing habitats that shelter baby animals, as well as birds, bees, and butterflies; creating safe zones in the garden; cohabiting with creatures often regarded as pests; letting nature be your garden designer; and encouraging natural processes and evolution in the garden. The Humane Gardener fills a unique niche in describing simple principles for both attracting wildlife and peacefully resolving conflicts with all the creatures that share our world.

Animal Families and where They Live ,1947

A Plague of Rats and Rubbervines Yvonne Baskin,2013-04-15

The human love of novelty and desire to make one place look like another, coupled with massive increases in global trade and transport, are creating a growing economic and ecological threat. The same forces that are rapidly McDonaldizing the world's diverse cultures are also driving us toward an era of monotonous, weedy, and uniformly impoverished landscapes. Unique plant and animal communities are slowly succumbing to the world's rats and rubbervines -- animals like zebra mussels and feral pigs, and plants like kudzu and water hyacinth -- that, once moved into new territory, can disrupt human enterprise and well-being as well as native habitats and biodiversity. From songbird-eating snakes in Guam to cheatgrass in the Great Plains, invasives are wreaking havoc around the world. In *A Plague of Rats and Rubbervines*, widely published science writer Yvonne Baskin draws on extensive research to provide an engaging and authoritative overview of the problem of harmful invasive alien species. She takes the reader on a worldwide tour of grasslands, gardens, waterways, and forests, describing the troubles caused by exotic organisms that run amok in new settings and examining how commerce and travel on an increasingly connected planet are exacerbating this oldest of human-created problems. She offers examples of potential solutions and profiles dedicated individuals worldwide who are working tirelessly to protect the places and

creatures they love. While our attention is quick to focus on purposeful attempts to disrupt our lives and economies by releasing harmful biological agents, we often ignore equally serious but much more insidious threats, those that we inadvertently cause by our own seemingly harmless actions. A Plague of Rats and Rubbervines takes a compelling look at this underappreciated problem and sets forth positive suggestions for what we as consumers, gardeners, travelers, nurserymen, fishermen, pet owners, business people -- indeed all of us who by our very local choices drive global commerce -- can do to help.

Sketching Stuff Charlie O'Shields,2018-11-22 Charlie O'Shields is the creator of Doodlewash®, founder of World Watercolor Month in July, and host of the Sketching Stuff podcast. Every single day, for over three years, he created a watercolor illustration and wrote a short essay about whatever came to mind that day and posted it on his blog. These are some of the collected favorites along with some brand new musings. With over 180 illustrations, this book is part personal memoir and sometimes just a randomly fun romp through the sillier bits of this crazy world we all inhabit. Written to take on the impossible task of inspiring creativity, unleashing your inner child, and instilling hope, it will, at the very least, make you smile and touch your heart.

The Mystery of Goat Mountain Mel Long,2016-03-24 Eli left the corporate life in San Francisco and moved with his wife, Frances Amelia, to Goat Mountain, high up on the west side of the Cascade Mountains, near the small town of Colton, Oregon. When his parents died, Eli inherited the 640 acres, the original land they homesteaded in 1896. After his wife dies, Eli lives simply in a cabin on his beloved mountain. He learns to cohabitate with many of the wild animals on the land and most especially the legendary Sasquatch. He loves sharing his land, nature, and his lifestyle with his children and ten grandchildren when they visit each summer. The kids enjoy helping with the chores, swimming in the pond, learning to hunt, and exploring the open spaces. A novel, *The Mystery of Goat Mountain* narrates Elis storythe many adventures he experiences and how he co-exists with the legendary Big Foot. Filled with descriptions of a scenic and idyllic Oregon locale, it intermingles a love story with that of intrigue and difficult decisions.
