Faculty Diversity JoAnn Moody, 2013-06-17 Why do we see so little progress in diversifying faculty at America's colleges, universities, and professional schools? This book explores this important question and provides steps for hastening faculty diversity. Drawing on her extensive consultant practice and expertise as well as research and scholarship from several fields, Dr. Moody provides practical and feasible ways to improve faculty recruitment, retention, and mentorship, especially of under-represented women in science-related fields and non-immigrant minorities in all fields. The second edition of *Faculty Diversity* offers new insights, strategies, and caveats to the current state of faculty diversity. This revised edition includes: New strategies to prevent unintended cognitive bias and errors that damage faculty recruitment and retention Expanded discussion on the importance of different cultural contexts, political, and historical experiences inhabited and inherited by non-immigrant faculty and students Increased testimonials and on-the-ground reflections from faculty, administrators, and leaders in higher education, with new attention to medical and other professional schools Updated Appendix with Discussion Scenarios and Practice Exercises useful to search and evaluation committees, department chairs, deans, faculty senates, and diversity councils Expanded chapter on mentoring that dispels myths about informal mentoring and underlines essential components for formal programs. Moody provides an essential, reliable, and eye-opening guide for colleges, medical, and other professional schools that are frustrated in their efforts to diversify their faculty.

York the Great City Chris Gee, 2023-09-30 George VI observed that the history of York is the history of England and this single phrase most accurately captures the appeal of this great city. York is one of the few cities in the British Isles that has retained so much from earlier times. At its heart it remains a medieval city, but there is clear evidence too of Roman, Viking, Saxon and Norman occupation. Georgian elegance abounds. The Victorians brought change and stamped their mark on the shape and fortunes of the city. The twentieth and twenty-first centuries have introduced some significant new buildings. As a result, York has seen a constantly changing cityscape and yet at the same time remains remarkably constant. It has popular tourist appeal as well as being a great place to live and work. York-based author and photographer Chris Gee has spent years on foot, exploring every quarter of this fine city. There are the obvious attractions: York Minster; Clifford's Tower and the Shambles, but there are lots of hidden backstreets that can reveal wonderful overhanging medieval buildings, and numerous and fascinating snickets, ginnels and alleyways. There is wonder in the detail too, from old shop signs and street furniture that have somehow survived the ages, to the remains of a Norman House, the foundations of a Saxon church and old Roman Walls. Hidden gems combine with stirring spectacles, to reveal the greatness of York, in this magnificent new edition of a book that covers every aspect of this stunning city.

Not My Amish Father's Wishes Marie Black, 2011-08-09 She grew up near Kokomo, Indiana in a small Amish community. At a young age she knew she wanted to go to college because she saw how her dad struggled to make ends met and feeding a family of six on a sixty acre farm wasn't an easy task. Her first obstacle was the fact she knew no English when she started school. This was her fault, her grandmother knew no English, and therefore she felt this wasn't a necessity. She soon realized her mistake and two weeks into the school year she knew how to speak English. German is the language spoken in the Amish homes as well as all the church services. She never lost her ambition of some day graduating from college. When she reached her late teens she was finally on her way to reaching her dream. She moved to Arizona where she was introduced to a Jewish family and in exchange for room and board she worked as a maid. For school money she baby sat in the evening and on the weekends. However, when she wanted to start college she encountered another problem. She had no high school diploma. The admissions director told her no diploma no college. There is a way to beat this situation; she just had to think outside the box. Her plan worked and five years later she graduated with honors from Arizona State University. Her next goal was to obtain an MLS and work in the Library of Congress. Her situation is unique because no one has been able to explain how you can earn a BA degree without a high school diploma. This is her first book and she was encouraged by her former One Stop counselor. She rejected her religion, but this foundation has sustained her life.

Teaching Mathematics in Colleges and Universities: Case Studies for Today's Classroom Solomon Friedberg, 2001 Progress in mathematics frequently occurs first by studying particular examples and then by generalizing the patterns that have been observed into far-reaching theorems. Similarly, in teaching mathematics one often employs examples to motivate a general principle or to illustrate its use. This volume uses the same idea in the context of learning how to teach: by analyzing particular teaching situations, one can develop broadly applicable teaching skills useful for the professional mathematician. These teaching situations are the case studies of the title. Just as a good mathematician seeks both to understand the details of a particular problem and to put it in a broader context, the examples presented here are chosen to offer a serious set of detailed teaching issues and to afford analysis from a broad perspective. Each case raises a variety of pedagogical and communication issues that may be explored either individually or in a group facilitated by a faculty member. The methodology of case studies is widely used in areas such as business and law. The consideration of the mathematics cases presented here should help readers to develop teaching skills for their own classrooms.

The Development of Neolithic House Societies in Orkney Colin Richards, Richard Jones, 2016-04-30 Considering that Orkney is a group of relatively small islands lying off the northeast coast of the Scottish mainland, its wealth of Neolithic archaeology is truly extraordinary. An assortment of houses, chambered cairns, stone circles, standing stones and passage graves provides an unusually comprehensive range of archaeological and architectural contexts. Yet, in the early 1990s, there was a noticeable imbalance between 4th and 3rd millennium cal BC evidence, with house structures, and 'villages' being well represented in the latter but minimally in the former. As elsewhere in the British Isles, the archaeological visibility of the 4th millennium cal BC in Orkney tends to be dominated by the monumental presence of chambered cairns or tombs. In the 1970s Claude Lévi-Strauss conceived of a form of social organization based upon the 'house' – sociétés à maisons – in order to provide a classification for social groups that appeared not to conform to established anthropological kinship structures. In this approach, the anchor point is the 'house', understood as a conceptual resource that is a consequence of a strategy of constructing and legitimizing identities under ever shifting social conditions. Drawing on the results of an extensive program of fieldwork in the Bay of Firth, Mainland Orkney, the text explores the idea that the physical appearance of the house is a potent resource for materializing the dichotomous alliance and descent principles apparent in the archaeological evidence for the early and later Neolithic of Orkney. It argues that some of the insights made by Lévi-Strauss in his basic formulation of sociétés à maisons are extremely relevant to interpreting the archaeological evidence and providing the parameters for a 'social' narrative of the material changes occurring in Orkney between the 4th and 2nd millennia cal BC. The major excavations undertaken during the Cuween-Wideford Landscape Project provided an unprecedented depth and variety of evidence for Neolithic occupation, bridging the gap between domestic and ceremonial architecture and form, exploring the transition from

wood to stone and relationships between the living and the dead and the role of material culture. The results are described and discussed in detail here, enabling tracing of the development and fragmentation of sociétés à maisons over a 1500 year period of Northern Isles prehistory.

Living, Dying, Death, and Bereavement (Volume Two) David E. Balk, 2020-10-21 This two-volume book offers extensive interviews with persons who have made significant contributions to thanatology, the study of dying, death, loss, and grief. The book's in-depth conversations provide compelling life stories of interest to clinicians, researchers, and educated lay persons, and to specialists interested in oral history as a means of gaining rich understandings of persons' lives. Several disciplines that contribute to thanatology are represented in this book, such as psychology, religious studies, art, literature, history, social work, nursing, theology, education, psychiatry, sociology, philosophy, and anthropology. The book is unique; no other text offers such a comprehensive, insightful, and personal review of work in the thanatology field. The salience of thanatology is obvious when we consider several topics, including the aging demographics of most countries, the leading causes of death, the devastation of COVID-19, the realities of how most persons die, the growth both of hospice and of efforts within medicine to ensure that a good death becomes the norm of medical practice, and increases in the number of countries and states permitting physician-assisted suicide. This second volume includes conversations with 16 thanatologists, a rich, extensive bibliography, an index of names and subjects, and a biographical sketch of the author. The experts interviewed in this volume include Danai Papadatou, Holly Prigerson, Jack Jordan, Illene Cupit, Heather Servaty-Seib, Irwin Sandler, Simon Shimshon Rubin, Carla Sofka, Harold Ivan Smith, and Phyllis Kosminsky.

A Social History of Sheffield Boxing, Volume I Matthew Bell, Gary Armstrong, 2021-02-20 A Social History of Sheffield Boxing combines urban ethnography and anthropology, sociological theory and place and life histories to explore the global phenomenon of boxing. Raising many issues pertinent to the social sciences, such as contestations around state regulation of violence, commerce and broadcasting, pedagogy and elite sport and how sport is delivered and narrated to the masses, the book studies the history of boxing in Sheffield and the sport's impact on the cultural, political and economic development of the city since the 18th century. Interweaving urban anthropology with sports studies and historical research the text expertly examines a variety of published sources, ranging from academic papers to biographies and from newspaper reports to case studies and contemporary interviews. In Volume I, Bell and Armstrong construct a vivid history of boxing and probe its cultural acceptance in the late 1800s, examining how its rise was inextricably intertwined with the industrial and social development of Sheffield. Although Sheffield was not a national player in prize-fighting's early days, throughout the mid-1800s, many parochial scores and wagers were settled by the use of fists. By the end of the century, boxing with gloves had become the norm, and Sheffield had a valid claim to be the chief provincial focus of this new passion—largely due to the exploits of George Corfield, Sheffield's first boxer of national repute. Corfield's deeds were later surpassed by three British champions: Gus Platts, Johnny Cuthbert and Henry Hall. Concluding with the dual themes of the decline of boxing in Sheffield and the city's changing social profile from the 1950s onwards, the volume ends with a meditation on the arrival of new migrants to the city and the processes that aided or frustrated their integration into UK life and sport.

Niall and Eden Paternoster start their Sunday the same way they always do – with a long drive, a visit to a country house and a quick stop at the local supermarket on the way home. But this Sunday ends differently – because while Niall waits and waits in the car park for Eden to pick up supplies, Eden never returns. She's not waiting for him at home, and none of their family or friends have heard from her. Gone without a trace, Niall is arrested on suspicion of her murder. When DS Roy Grace is called in to investigate, it doesn't take long to realize that nothing in this case is quite as it seems . . . *Left You Dead* is the seventeenth thrilling crime novel in the Roy Grace series. Enjoy more of the Brighton detective's investigations with *Dead Simple*, *Looking Good Dead* and *Not Dead Enough*. Now a major TV series starring John Simm. You Are Dead Peter James, 2015-10-06 In Peter James' *You Are Dead*, the last words Jamie Ball hears from his fiancée, Logan Somerville, are in a terrified mobile phone call from her. She has just driven into the underground car park beneath the apartment block where they live in Brighton, and seen a man acting strangely. Then she screams and the phone goes dead. The police are on the scene within minutes, but Logan has vanished, leaving behind her neatly parked car and cell phone. That same afternoon, workmen digging up an old asphalt path in a park in another part of the city, unearth the remains of a young woman in her early twenties, who has probably been dead for 30 years. At first, to Detective Superintendent Roy Grace and his Major Crime Team, these two events seem totally unconnected. But then another young woman in Brighton goes missing and another body from the past surfaces. At the same time a strange man visits an eminent London psychiatrist, claiming to have a piece of information on the missing woman, Logan, that turns out, at first, to be wrong-or so it seems. It is only later Roy Grace makes the chilling realization that this one thing is the key to both the past and the present-and now, beyond any doubt, he knows that Brighton has its first ever serial killer.

Walking in the Pendle Witch Country and The West Pennine Moo Chris Gee, 2017-10-16 There are two sides to Pendle Hill – the gentle, pastoral landscape that rolls towards the River Ribble, embracing Downham, Whalley and Clitheroe, and Witch Country, an altogether rougher side to Pendle, sheltered below its south-eastern flanks. Pendle Hill is famous for the events that happened in the early seventeenth century. In 1612 twelve women and men from farmsteads and villages around the foot of Pendle Hill were arrested for practising witchcraft. They were marched across country to be put on trial at Lancaster where nine were sentenced to death. The news spread rapidly across the country and the Pendle Witches tale became the stuff of myth. But this has also been an inspirational landscape, where George Fox had his vision that led to his foundation of the Quaker movement. Pendle Hill is considered by many to be the inspiration for J.R.R. Tolkien's Lonely Mountain in his epic trilogy *Lord of the Rings*. To the south, the West Pennine Moors is a 90 square mile area of upland moorland, riven with valleys and wooded cloughs – steep sided ravines, often wooded, through which a stream or beck flows. The landscape is dotted with reservoirs, large and small, that feed the towns and villages that have sprung up in the valleys. There are barely any settlements on the high ground, swept as it is by the prevailing westerly winds that race in off the Irish Sea, but there are historic villages to be found in the valleys and around the edges. Today this landscape is popular walking country: there is a wealth of footpaths crisscrossing this landscape and a number of long distance paths stride out across the moors and hills, including the Witton Weaver's Way, the Rossendale Way, the West Pennine Way, the Rotary Way and the Pendle Way. This is glorious country – a landscape of moors and hills, of cotton grass and purple heather, of history and legend – which is explored by local man Chris Gee in this supremely informative and beautifully illustrated companion guide.
