Criminal Confections Colette London, 2022-06-15 The inaugural offering of an exciting new cozy mystery series featuring chocolate whisperer Hayden Mundy Moore, a luxury consultant who has a nose for chocolate and danger. Fans of JoAnna Carl, Diane Mott Davidson, and Cleo Coyle will eat up this luscious world of high-end chocolate and intrigue. Original. Hayden Mundy Moore is an expert on everything chocolate, helping clients develop new products and revamp recipes until they're irresistible. It's thrilling work but rarely dangerous--until a colleague turns up dead at the exclusive chocolate-themed Lemaître resort spa in San Francisco. Adrienne Dowling's heart attack is blamed on an accidental overdose of the secret ingredient used in Lemaître Chocolates' new line. Hayden can't believe that conscientious Adrienne would make that mistake. And between chocolate body scrubs, cocoa mud baths, and a non-stop frenzy of chocolate-based treats, Hayden starts to suspect that she, not Adrienne, was the intended target. Finding a killer among the rival chocolatiers and potential suspects won't just be satisfying--it might save her life... Chocoholics and food cozy fans rejoice! With prose as smooth and

delicious as its theme, this quality debut cozy by an anonymous best-selling novelist introduces a smart protagonist with an unusual and tasty profession. -Library Journal (STARRED REVIEW)

Laboring to Play Melanie Dawson, 2013-09-05 A compelling analysis of how middling Americans entertained themselves and how these entertainments changed over time. The changing styles of middle-class home entertainments, Melanie Dawson argues, point to evolving ideas of class identity in U.S. culture. Drawing from 19th- and early-20th-century fiction, guidebooks on leisure, newspaper columns, and a polemical examination of class structures, *Laboring to Play* interrogates the ways that leisure performances (such as parlor games, charades, home dramas, and tableaux vivants) encouraged participants to test out the boundaries that were beginning to define middle-class lifestyles. From 19th-century parlor games involving grotesque physical contortions to early-20th-century recitations of an idealized past, leisure employments mediated between domestic and public spheres, individuals and class-based affiliations, and ideals of egalitarian social life and visible hierarchies based on privilege. Negotiating these paradigms, home entertainments provided their participants with unique ways of performing displays of individual ambitions within a world of polite social interaction. *Laboring to Play* deals with subjects as wide ranging as social performances, social history (etiquette and gentility), literary history, representations of childhood, and the history of the book.

down when her husband becomes seriously abusive to her and her four children and she finds herself a victim of not only him, but of her own willfulness not to be proven wrong and her willingness to sacrifice even physical safety for the dream of a happy home. The pain causes her to seek salvation through God and her Savior Jesus Christ. She also finds the meaning of a mysterious prophetic dream she had when in the midst of her turmoil. Artful Grief Sharon Strouse, 2013-02-27 *Artful Grief* is a decade long study of loss by an art therapist, in the aftermath of her daughter's suicide. On October 11, 2001, Sharon received a phone call in the middle of the night from the New York City Police Department telling her that her seventeen year old daughter Kristin, had "fallen" from the roof of her college dormitory. So began her journey into the labyrinth of unspeakable grief. As the first year drew to a close she found no comfort in traditional therapy, and no solace in spoken or written words. In surrender to her inner art therapist's guidance, she began to create collages. She cut and tore images out of magazines and glued them on various size paper. The paper was a safe and sacred container, receptive to the fullness of emotion, story and paradox. Over time there was transformation and healing. *Artful Grief* A creative roadmap through violent dying and grief. A dose of "soul medicine" for survivors. A way to retrieve the pieces of a shattered life, with paper, scissors and glue. A resourceful tool for those suffering with complicated grief and/or PTSD. A place for the unspeakable to be seen and heard. A process to quiet the mind and open the heart. A visual experience of trauma images as illustrations of hope. A sample of prophetic dreams and meditations that are illuminating. A heartfelt sharing of "intimate secrets" for understanding and compassion. A surprising "grief gift" that is inspiring.

Artificial Intelligence in the Primary Classroom Gemma Clark, 2024-02-28 Artificial intelligence (AI) undoubtedly sparks debate among teachers. Questions arise about the trajectory of this new technology: where will it take us?; how will we differentiate between student-authored work and AI-generated content?; what impact will it have on the dynamics of learning and teaching within schools? These are all crucial topics for discussion, yet AI has already become an integral part of our reality, and Gemma Clark firmly believes that embracing its potential is in our best interests. In an era defined by technological advancements, *Artificial Intelligence in the Primary Classroom* stands as an indispensable resource that holds the key to transforming teaching and learning. For educators burdened by bureaucratic tasks that divert precious time from actual teaching, this book offers a lifeline. It showcases how AI-powered tools can alleviate administrative burdens, enabling teachers to focus more on crafting personalised and imaginative lessons that resonate with young minds. From automating report-writing processes to facilitating content creation, the book imparts tangible methods to streamline workflows and elevate teaching quality. Other examples include: *Spelling Lessons*: Save time when planning your spelling lessons by using AI to automatically generate a comprehensive list of phonemes or

'sounds suitable for teaching young children.' Mindfulness in the Classroom: If you are interested in incorporating mindfulness games and activities to assist children in relaxation and focus, AI can provide valuable suggestions for fostering pupil (and staff) wellbeing. PE Lessons: You don't have to be an expert in sport to teach PE. Whether it's tennis, football, rugby or running, AI can offer suggestions for activities, warm-ups and cool-downs to use in your PE lessons. Art Lessons: AI can be an excellent resource for planning art lessons, especially when seeking suggestions to emphasize one of the eight elements, such as line, shape, form, colour, value, texture, space, and value. Maths Lessons: As with spelling, AI can significantly reduce the time spent on creating maths questions and simplify the process of differentiation. Artificial Intelligence in the Primary Classroom is filled with practical strategies, engaging activities and useful tips and tricks that will save teachers time and energy as well as transferrable lesson plans with step-by-step instructions. Backed up by real-world examples throughout, this book empowers teachers to embrace AI as a tool in fostering enhanced learning experiences, while also reclaiming invaluable time for pedagogical creativity. Suitable for primary school teachers of all levels of experience.
