Nintendo Randy Nichols,2023-10-11 Originally founded in 1889 as a manufacturer of playing cards, this book examines the history and political economic status of the multinational consumer electronics and video game giant Nintendo. This book offers a deeper examination into Nintendo as a global media giant, with some of the industry’s best-selling consoles and most recognizable intellectual property including Mario, Pokémon, and Zelda. Drawing upon the theory of the political economy of communication, which seeks to understand how communication and media serve as key mechanisms of economic and political power, Randy Nichols examines how Nintendo has maintained its dominance in the global video game industry and how it has used its position to shape that industry. This book argues that while the company’s key figures and main franchises are important, Nintendo’s impact as a company – and what we can learn from its evolution – is instructive beyond the video game industry. This book is perfect for students and scholars of media and cultural industries, critical political economy of media, production studies, and games studies.

**Mortal Jigsaw Puzzle** Grieving Patriot,2012-01-16 The Mortal Jigsaw puzzle follows the struggles of a heroic urban vice principal, as he attempts to control a large high school teetering on the verge of chaos. During the course of an infamous day known as Fat Lip Friday, the ghetto principal tries valiantly to keep control of his school in the midst of a full blown gang war. Immersed in an environment replete with urban music, violence, verbiage, and dress, the reader is bombarded with shocking images of life in the modern hood. As the visceral educational conflagration unfolds, the protagonist, Jose Perez, unexpectedly catches glimpses of a diabolical conspiracy of which street gangs are just a small part. Thanks to his keen senses, Mr. Perez slowly collects the pieces to a profoundly disturbing global puzzle comprised of codes, lyrics, art, and symbols of Egyptian, Masonic, and satanic origin. While attempting to place the gratuitous carnage and depravity of the inner city into perspective, Mr. Perez accidentally stumbles upon an interdisciplinary mind control plan which draws upon religion, politics, economics, psychology, marketing, history, and the occult. Alarmed by his findings, Mr. Perez warns his community of their pending doom, only to be hunted down by the very debt cattle whom he tries to save from oblivion. In the end, both his community and his nation are condemned to fall under this nefarious plot, as this educators quixotic mission abruptly ends with an ominous knock on his front door.
