**Proceedings of the VIIth GSCP International Conference. Speech and Corpora** Heliana

Mello, Massimo Pettorino, Tommaso Raso, 2012 The 7th International Conference of the Gruppo di Studi sulla Comunicazione Parlata, dedicated to the memory of Claire Blanche-Benveniste, chose as its main theme Speech and Corpora. The wide international origin of the 235 authors from 21 countries and 95 institutions led to papers on many different languages. The 89 papers of this volume reflect the themes of the conference: spoken corpora compilation and annotation, with the technological connected fields; the relation between prosody and pragmatics; speech pathologies; and different papers on phonetics, speech and linguistic analysis, pragmatics and sociolinguistics. Many papers are also dedicated to speech and second language studies. The online publication with FUP allows direct access to sound and video linked to papers (when downloaded).

Cultural information has been updated to make the material more relevant. Italiano Spontaneo - Livro de frases para viagem Italiano-Português Jacopo Gorini, Este livro de frases é baseado em um método de aprendizagem de línguas simples e seguro, chamado, na brincadeira com meus alunos, de “método tartaruga”. Foi batizamos assim porque é um método com um ritmo mais “lento” porém “seguro”. Baseado nas teorias do professor Stephen Krashen da

University of Southern California, que consiste basicamente em ouvir e repetir um input linguístico compreensível em um ambiente livre de estresse. Este método irá levá-lo a falar italiano espontaneamente, sem pensar em gramática e sem traduzir na sua mente, especialmente por ouvir e falar, mas sem esquecer a leitura e a escrita. Em algumas semanas, você ficará surpreso com seu progresso e com a memorização fácil de frases e palavras. Em alguns meses, quando você terminar o livro, você conhecerá perfeitamente cerca de 300 palavras italianas, além das melhores expressões para se usar nas situações mais comuns e a conjugação dos verbos mais importantes para viajar. E acima de tudo, você terá praticado diariamente a pronúncia da língua italiana, essencial para uma conversa espontânea. No final do livro, você encontra as instruções para baixar as gravações de áudio das aulas, necessárias para aprender as frases do livro com o método tartaruga. Buono studio! ItalianoSpontaneo.com

**Mediterranean Heritage in Transit** Lucia Abbamonte,2016-02-29 It is mainly within and around Mediterranean itineraries that the European Union seeks its in/tangible cultural heritage, an important component of both individual and collective identities. This volume brings together many different strands of analysis, helping to shed light on the multifaceted entities that constitute the

socio-semiotic landscape of the Mediterranean. It views this vibrant scenario from a cross-cultural perspective, and investigates the domains of national identities and stereotypes, advertising and social media, TV series, myths and festivals, landscapes, culture-bound terms, migrating words, and food. More specifically, some chapters revolve around issues of intra-/inter-group identities in the context of itineraries of recent or historical migrations, and how such variegated identities are re-shaped by and through the media, in a dynamic interplay of symbols and clichés. In the same vein, gender issues are also addressed in a dimension suspended between tradition and modernity, with a special focus on Turkish women. The multi-dimensional Turkish culture and landscape are also voiced through an example of blended American/Turkish children's literature. Other chapters explore the language of tourism in the diverse multimodal representations and textualizations of the tourist experience in Mediterranean destinations, mainly expressed through social media. The contemporary appreciation of the Mediterranean Diet as a global cultural heritage is also explored through the magnifying lens of such media. Given the variety of perspectives and methodological approaches adopted by the contributors, this volume offers useful insights to students and practitioners of discourse analysis alike. From an educational perspective, the book, which also includes practical worksheets, can be used in first- and second-level degrees in Foreign Languages, Communication, Political Sciences, Media and Cultural Studies, as well as specific courses in linguistics, multimodal studies, critical discourse analysis and corpus linguistics. The underlying rationale of the book is its concentration on the prominent role of English in representing the Mediterranean heritage, despite the fact that it is a non-Mediterranean language. At the same time, the volume bridges the gap between academic research and class practice at the university level.
