Ciclo Histórias pelo Recife Victor dos Santos

Moura,2020-08-17 Andar de bicicleta e ouvir histórias... nada tão simples, nada tão complexo. Especialmente quando numa metrópole como Recife ainda carente de estrutura, ainda carente de escuta. Se não o pior trânsito do Brasil, certamente um dos piores. E dia após dia, ao sair pedalando em busca de histórias fui reparando o quanto esse mesmo trânsito é simbólico, uma metáfora concreta da desigualdade. Em sua maioria, bicicletas e seus condutores levados às margens, quando não em situação de vulnerabilidade. Em defesa da inclusão social e proteção à vida, nesse primeiro mas jamais derradeiro ciclo pretendo unir ciclomobilidade e ciclo jornalismo. Uma sucessão de imprevistos narrados de modo subjetivo.

Perfeita Imperfeição Landerson Rodrigues,2022-02-22 Dez anos se passaram desde que Mariana deixou sua família no interior para viver o que ela acreditava ser seu conto de fadas com Robson, na cidade de Recife. Após uma ruptura devastadora, motivada pelo seu desejo de se livrar do relacionamento abusivo, ela se joga na vida noturna, em busca do que não tinha vivido antes. Mas junto com as experiências, um sentimento amargo se materializa e tenta tomar Mariana, sem que ela consiga compreender o que está acontecendo e a leva a uma decisão crucial para tentar evitar a morte iminente. *Perfeita Imperfeição* é um drama psicológico cheio de reviravoltas que nos faz refletir sobre o impacto que os traumas do passado causam em nossas vidas. Passado, presente e futuro se misturam para contar uma história emocionante sobre escolhas, relacionamentos e consequências.

Bicicletas nas cidades Victor Andrade (Org.),Letícia Quintanilha (Org.),2020-12-20 Com eixos temáticos de diversidade, tecnologia, acessibilidade e qualidade de vida, **Bicicletas nas Cidades** revela que os sistemas de bicicletas compartilhadas têm se provado eficientes na transformação global em prol de cidades mais sustentáveis. O livro reúne um time de especialistas, com análises e estudos de caso sobre metrópoles brasileiras e cidades globais, abordando o uso desses serviços, cada vez mais estratégicos. O LABMOB contribui de forma inovadora para a mobilidade sustentável, por meio de uma série de iniciativas – como esta publicação e a plataforma micromobilidadebrasil.org, que monitora sistemas de compartilhamento em todo Brasil e quantifica as emissões de CO2 evitadas. (Re)pensar o futuro considerando a bicicleta como peça-chave do transporte público tornou-se fundamental para a sustentabilidade.

Vulnerabilidade no esporte (vol. 3) Flávio Rebuschini, Afonso Antonio Machado, 2021-10-25 Nesse terceiro volume que finaliza a coleção Vulnerabilidade no Esporte, os pesquisadores se concentram em compreender as variáveis psicológicas e seu funcionamento em um ambiente de densa tessitura das relações de força e poder, de exposição, do risco e do dano físico, emocional e social que podemos ser vítimas e/ou algozes. Deve-se ter claro que não é o esporte e a atividade física em si que são os desencadeadores dessa vulnerabilidade, mas sim a fama, os encantos e a força de representação social do esporte e atividade física na busca do vencer a qualquer preço, do corpo mais belo e sarado.

Urban Playground Tim Gill,2021-03-03 What type of cities do we want our children to grow up in? Car-dominated, noisy, polluted and devoid of nature? Or walkable, welcoming, and green? As the climate crisis and urbanisation escalate, cities urgently need to become more inclusive and sustainable. This book reveals how seeing cities through the eyes of children strengthens the case for planning and transportation policies that work for people of all

ages, and for the planet. It shows how urban designers and city planners can incorporate child friendly insights and ideas into their masterplans, public spaces and streetscapes. Healthier children mean happier families, stronger communities, greener neighbourhoods, and an economy focused on the long-term. Make cities better for everyone.

If Anything Happens I Love You Will McCormack, Michael Govier, 2022-09-27 Unimaginable loss yields to the power of human connection in this simple, moving story from the filmmakers of the eponymous Oscar-winning film. An elegy on grief. Heavy pain exquisitely rendered. Kirkus Starred Review Based on the Academy Award-winning animated short by the same name, *If Anything Happens I Love You* is a young adult graphic novel that follows two parents as they reckon with the loss of their young daughter, Rose, in a school shooting. Readers follow Rose from “above” as she watches her parents slowly break down under the weight and pain of their loss. Throughout the novel, Rose’s soul seeks to help her parents reconnect. We learn who Rose was and how much life she lived in her short time. By incorporating a wide range of characters, her boyfriend, teacher, and her cat, Rose is able to introduce healing into the lives of the people she left behind. *If Anything Happens I Love You* may be a story about loss, but in it we see ourselves—in the grief, the pain, and, most importantly, in the fight toward human connection, love, and acceptance.

Integrated Transport Moshe Givoni, David Banister, 2010-07-02

Travel is an essential part of everyday life and today most journeys are multimodal. It is the total travel experience that counts and integrated transport must reduce the inconvenience of transfers between modes. Most research and many publications on transport policy advocate sustainable transport, but the priority given to integration has been negligible. Yet integration is one of the most important means to advance sustainable transport and sustainability more generally. While integrated transport systems are seen to be an ideal, there is a failure to make the transition from policy to practice. The authors argue that the achievement of sustainable transport is still a dream, as an integrated transport policy is a prerequisite for a sustainable transport system. It is only when the two concepts of sustainability and integration operate in the same direction and in a positive way that real progress can be made. In this book, transportation experts from across the world have addressed the questions about what is integration, why is it so important and why is it so hard to achieve? The book provides an in-depth analysis of these issues and it aims to provide a better

understanding of the subject, about what should be strived for, about what is realistic to expect, and about how to move forward towards a more integrated provision of transport infrastructure, services and management.

Event Management & Event Tourism Donald Getz, 2005 This book provides, both an overview of event studies and a foundation for professional event management.

Transforming Cities Through Temporary Urbanism Lauren Andres, Amy Y. Zhang, 2020-12-18 This book advances the reflexion into how temporary urbanism is shaping cities across the world. Temporary urbanism has become a core concept in urban development, and its application is increasingly crossing the borders of both the North and the Global South. There is a need to reflect upon the diverse ways of understanding and implementing the temporary in the production of space internationally and discuss what this means, for both research and practice. Divided into two sections, the book compiles and reflects upon the various attempts to reframe and reconceptualise temporary urbanism. The first section focuses on reframing and reconceptualising temporary urbanisms. It develops the argument that temporary urbanism allows a reinterrogation of the role of temporalities and non-

permanence into the place-making process and hence in the production and reproduction of cities, including the adaptability of existing spaces and production of new spaces. While drawing upon different theoretical and conceptual framings (permeability, assemblage, rhythms, waiting, ...), authors bring insights from various case studies: the Dublin Biennial (Ireland), temporary uses in Geneva (Switzerland), temporary urban settlements in sub-Saharan Africa, refugees' camp in Beirut (Lebanon) and political protests in Skopje (Republic of Macedonia). The second section looks at unwrapping the complexity and diversity of temporary urbanisms. It aims at securing a better understanding of the complexity and diversity of temporary urbanism, including a dialogue between various experiences both in the Global North and in the Global South. It looks at the implications of temporary urbanism in the delivery of planning and considers how and by whom cities are governed and transformed. Again, a range of examples are mobilised by contributors spanning from temporary uses and projects in London (UK), Santiago (Chile), Paris (France), Vancouver (Canada), Barcelona (Spain), Budapest (Hungary), Beijing (China), Sao Paulo (Brazil) and Milwaukee (USA). This book will be of interests to all researchers, practitioners, and

students who want to gain a more thorough understanding of the topic of temporary urbanism, compare its diversity and similarities across different contexts, and reflect on the wider implications of temporary urbanisms for urban transformations.
