How to Watch a Movie David Thomson,2017-01-24 In his most inventive exploration of the medium yet, David Thomson—one of our most provocative authorities on all things cinema—shows us how to get more out of watching any movie. Guiding us through each element of the viewing experience, considering the significance of everything from what we see and hear on-screen—actors, shots, cuts, dialogue, music—to the specifics of how, where, and with whom we do the viewing, Thomson explicates the movie watching experience with his customary candor and wit. Delivering keen analyses of films ranging from *Citizen Kane* to *12 Years a Slave*, in *How to Watch a Movie*, Thomson shows moviegoers how to more deeply appreciate both the artistry and the manipulation of film—and in so doing enriches our viewing experience immensely.

Talking Pictures Ann Hornaday,2017-06-13 A veteran film critic offers a lively, opinionated guide to thinking and talking about movies -- from *Casablanca* to *Clueless* Whether we are trying to impress a date after an art house film screening or discussing Oscar nominations among friends, we all need ways to look at and talk about movies. But with so much variety between an Alfred Hitchcock thriller and a Nora Ephron romantic comedy, how can everyday viewers determine what makes a good movie? In *Talking Pictures*, veteran film critic Ann Hornaday walks us through the production of a typical movie -- from script and casting to final sound edit -- and explains how to evaluate each piece of the process. How do we know if a film has been well-written, above and beyond snappy dialogue? What constitutes a great screen performance? What goes into praiseworthy cinematography, editing, and sound design? And what does a director really do? In a new epilogue, Hornaday addresses important questions of representation in film and the industry and how this can, and should, effect a movie-watching experience. Full of engaging anecdotes and interviews with actors and filmmakers, *Talking Pictures* will help us see movies in a whole new light-not just as fans, but as film critics in our own right.

Infectious Greed Frank Partnoy,2014-06-03 From the bestselling author of *F.I.A.S.C.O.*, a riveting chronicle of the rise of dangerous financial instruments and the growing crisis in American business One by one, major corporations such as Enron, Global Crossing, and Worldcom imploded all around us, prey to a greed-driven culture and dubious or illegal corporate finance and accounting. In a compelling and disturbing narrative, Frank Partnoy's *Infectious Greed* brings to bear all of his skills and experience as a securities attorney, financial analyst, law professor, and bestselling author to tell the story of the rise of the trading instruments and corporate financial structures that imperil the economic health of the country. Starting in the mid-1980s with the introduction of the first proto-derivatives, and taking us through such high-profile disasters as Barings Bank and Long Term Capital Management, Partnoy traces a seamless progression to today's dangerous manipulations. He documents how each new level of financial risk and complexity obscured the sickness of the company in question, and required ever more ingenious deceptions. It's an alarming story, but Partnoy offers a clear vision of how we can step back from the precipice.

American Audiences on Movies and Moviegoing Tom Stempel,2021-12-14 A unique perspective on half a century of American cinema—from the audience's point of view. Tom Stempel goes beyond the comments of professional reviewers, concentrating on the opinions of ordinary people. He traces shifting trends in genre and taste, examining and questioning the power films have in American society. Stempel blends audience response with his own observations and analyzes box office results that identify the movies people actually went to see, not just those praised by the critics. Avoiding statistical summary, he presents the results of a survey on movies and moviegoing in the respondents' own words—words that surprise, amuse, and irritate. The moviegoers respond: Big bad plane, big bad motorcycle, and big bad Kelly McGillis.—On *Top Gun* All I can recall were the slave girls and the Golden Calf sequence and how it got me excited. My parents must have been very pleased with my enthusiasm for the Bible.—On why a seven-year-old boy stayed up to watch *The Ten Commandments* I learned the fine art of seduction by watching Faye Dunaway smolder.—A woman's reaction to seeing *Bonnie and Clyde* At age fifteen Jesus said he would be back, he just didn't say what he would look like.—On *E.T.* Quasimodo is every seventh grader.—On why *The Hunchback of Notre Dame* should play well with middle-schoolers A moronic, very 'Hollywoody' script, and a bunch of dancing teddy bears.—On *Return of the Jedi* I couldn't help but think how *Mad* magazine would lampoon this. —On *The Exorcist*

How to Talk to a Movie Elijah Lynn Davidson,2017-02-03 Watching a movie is more than an opportunity to be entertained. Watching a movie is an opportunity to meet with God. In a few brief chapters, *How to Talk to a Movie* will forever change the way you watch movies by opening your eyes and ears to what movies are saying, how they are saying it, and how God might be speaking to you through them.

On-Demand Culture Chuck Tryon,2013-07-18 The movie industry is changing rapidly, due in part to the adoption of digital technologies. Distributors now send films to theaters electronically. Consumers can purchase or rent movies instantly online and then watch them on their high-

definition televisions, their laptops, or even their cell phones. Meanwhile, social media technologies allow independent filmmakers to raise money and sell their movies directly to the public. All of these changes contribute to an “on-demand culture,” a shift that is radically altering film culture and contributing to a much more personalized viewing experience. Chuck Tryon offers a compelling introduction to a world in which movies have become digital files. He navigates the complexities of digital delivery to show how new modes of access—online streaming services like YouTube or Netflix, digital downloads at iTunes, the popular Redbox DVD kiosks in grocery stores, and movie theaters offering digital projection of such 3-D movies as *Avatar*—are redefining how audiences obtain and consume motion picture entertainment. Tryon also tracks the reinvention of independent movies and film festivals by enterprising artists who have built their own fundraising and distribution models online. Unique in its focus on the effects of digital technologies on movie distribution, *On-Demand Culture* offers a corrective to address the rapid changes in the film industry now that movies are available at the click of a button.

A Love of Film Norman Muse, 2015-03-01 A Love of Film is something shared by most of us, whether or not we admit or recognize it. In film, there is something of each of the arts. Perhaps that's why it so indelibly impresses us. There's something for everyone. This book explores the relationship between the aesthetic and the technical--the poetry and the hardware of making movies--in a way that's both enlightening and entertaining. It deals as well with the still unanswered mysteries of this extraordinary medium. Is the darkness of today's color films due only to the nature of their stories or to something deeper? How did *Casablanca*'s many allusions lead to the way we watch movies today? A Love of Film examines why we respond to movie characters as we do, how we coauthor the films we see, and the link between memories, dreams, and movies. It references many memorable performances, the best of modern directors, and more than 150 films. Though it deals with the role of writing, shooting, and editing in this collaborative process, and with the preeminence of performance and the deification of directors, the book is most of all about a deep affection for the cinema. Its intent, in enlarging our understanding of moviemaking, is to make watching movies a more personal and enjoyable experience, as it has been for the author.

Watching Films Karina Aveyard, Albert Moran, 2013 Whether we stream them on our laptops, enjoy them in theaters, or slide them into DVD players to watch on our TVs, movies are part of what it means to be socially connected in the twenty-first century. Despite its significant role in our lives, the act of watching films remains an area of social activity that is little studied, and thus, little understood. In *Watching Films*, an international cast of contributors correct this problem with a comprehensive investigation of movie going, cinema exhibition, and film reception around the world. With a focus on the social, economic, and cultural factors that influence how we watch and think about movies, this volume centers its investigations on four areas of inquiry: Who watches films? Under what circumstances? What consequences and affects follow? And what do these acts of consumption mean? Responding to these questions, the contributors provide both historical perspective and fresh insights about the ways in which new viewing arrangements and technologies influence how films get watched everywhere from Canada to China to Ireland. A long-overdue consideration of an important topic, *Watching Films* provides an engrossing overview of how we do just that in our homes and across the globe.

How to Watch Movies for Movie Lovers Teri L. Sturgis, 2017-04-27 Watching movies is the preeminent manner in which we can learn relationship building or strengthening skills and overall salubrious social behavior. Delving deeper into the contents of motion pictures, that we, as movie lovers, will watch anyway, affords us the opportunity to conduct our own cinema-therapy, without the expense of hiring a professional therapist, enabling us to gain new insights on issues like problem-solving, healing past hurts and promoting the well-being of our physical, emotional, and soulful self. *How to Watch Movies for Movie Lovers* is an innovative self-help workbook that teaches people how to reap therapeutic benefits from every movie they choose to watch. The innovation comes from the perspective of a behavioral health peer specialist instead of the views of a psycho-therapist or Ph.D., and is written as a temperate blend of scholarly scientific knowledge and the common sense of the average person. The workbook contains ten chapters, seven of which embodies the fifty-three movies featured. This workbook should be classified as non-fiction, even though the majority of the featured films are fiction. Each chapter containing movies is formatted in the following way: pictures of the DVD cover or cinema promotion poster and resource information for each film, rating and content information, questions designed to generate thought or discussion (that the reader answers on the space provided) about each film, answers to the questions from the author's angle (which also points out subsequent therapeutic aspects), then a wrap up of the movie's benefits and a short introduction to the next movie or chapter. The purpose for writing this workbook, is that you, my fellow movie -lovers, will learn not to take watching movies for granted. There are skills and perceptions to be gained by viewing all films, and now you too can possess the power, and the ingenuity, to retrieve and retain these concepts for yourselves on a conscious plane. My entire life I have been on a journey to discover truth. I have ventured after justice for myself and the people around me, of which I believed the truth would bring. Although I have become wiser from the experiences my path has taken me through, my quest continues...
