The Divided City Alan Mallach,2018-06-12 In *The Divided City*, urban practitioner and scholar Alan Mallach presents a detailed picture of what has happened over the past 15 to 20 years in industrial cities like Pittsburgh and Baltimore, as they have undergone unprecedented, unexpected revival. He spotlights these changes while placing them in their larger economic, social and political context. Most importantly, he explores the pervasive significance of race in American cities, and looks closely at the successes and failures of city governments, nonprofit entities, and citizens as they have tried to address the challenges of change. *The Divided City* concludes with strategies to foster greater equality and opportunity, firmly grounding them in the cities' economic and political realities.

A Brief History of Seven Killings Marlon James,2014-10-02 Winner of the 2015 Man Booker Prize One of Entertainment Weekly's Top 10 Books of the Decade One of the Top 10 Books of 2014 – Michiko Kakutani, *The New York Times* A “thrilling, ambitious . . . intense” (*Los Angeles Times*) novel that explores the attempted assassination of Bob Marley in the late 1970s, from the author of *Black Leopard, Red Wolf* In *A Brief History of Seven Killings*, Marlon James combines brilliant storytelling with his unrivaled skills of characterization and meticulous eye for detail to forge an enthralling novel of dazzling ambition and scope. On December 3, 1976, just before the Jamaican general election and two days before Bob Marley was to play the Smile Jamaica Concert to ease political tensions in Kingston, seven gunmen stormed the singer's house, machine guns blazing. The attack wounded Marley, his wife, and his manager, and injured several others. Little was officially released about the gunmen, but much has been whispered, gossiped and sung about in the streets of West Kingston. Rumors abound regarding the assassins' fates, and there are suspicions that the attack was politically motivated. *A Brief History of Seven Killings* delves deep into that dangerous and unstable time in Jamaica's history and beyond. James deftly chronicles the lives of a host of unforgettable characters – gunmen, drug dealers, one-night stands, CIA agents, even ghosts – over the course of thirty years as they roam the streets of 1970s Kingston, dominate the crack houses of 1980s New York, and ultimately reemerge into the radically altered Jamaica of the 1990s. Along the way, they learn that evil does indeed cast long shadows, that justice and retribution are inextricably linked, and that no one can truly escape his fate. Gripping and inventive, shocking and irresistible, *A Brief History of Seven Killings* is a mesmerizing modern classic of power, mystery, and insight.

Walking Twin Cities Holly Day,Sherman Wick,2013-05-14 Even though they're often lumped together, the Twin Cities are two distinct cities with very different histories. Minneapolis is the Mill City, the City of Lakes, composed mostly of flat prairies. St. Paul is the Capital City, built on rolling hills and high river bluffs. Whether you're interested in art, culture, history, or nature, there's a walk in this book designed for your interests. We hope that it serves not only as a guidebook for (re)discovering the Twin Cities, but as a springboard for additional explorations. *Walking Twin Cities* contains 35 walks of varying levels of difficulty, built around the natural, architectural, and historical attractions of Minneapolis and St. Paul. The downtown areas of both cities are explored in depth, as well as many of the neighborhoods, scenic parks, and lakes that are scattered through the area.

Age of the City Ian Goldin,Tom Lee-Devlin,2023-06-22 One of the Financial Times' Best Economics Books of 2023 Visionary Oxford professor Ian Goldin and The Economist's Tom Lee-Devlin show why the city is where the battles of inequality, social division, pandemics and climate change must be faced. From centres of antiquity like Athens or Rome to modern metropolises like New York or Shanghai, cities throughout history have been the engines of human progress and the epicentres of our greatest achievements. Now, for the first time, more than half of humanity lives in cities, a share that continues to rise. In the developing world, cities are growing at a rate never seen before. In this book, Professor Goldin and Tom Lee-Devlin show why making our societies fairer, more cohesive and sustainable must start with our cities. Globalization and technological change have concentrated wealth into a small number of booming metropolises, leaving many smaller cities and towns behind and feeding populist resentment. Yet even within seemingly thriving cities like London or San Francisco, the gap between the haves and have-nots continues to widen and our retreat into online worlds tears away at our social fabric. Meanwhile, pandemics and climate change pose existential threats to our increasingly urban world. Professor Goldin and Tom Lee-Devlin combine the lessons of history with a deep understanding of the challenges confronting our world today to show why cities are at a crossroads – and hold our destinies in the balance.

109 East Palace Jennet Conant,2007-11-01 From the bestselling author of Tuxedo Park, the extraordinary story of the thousands of people who were sequestered in a military facility in the desert for twenty-seven intense months under J. Robert Oppenheimer where the world's best scientists raced to invent the atomic bomb and win World War II. In 1943, J. Robert Oppenheimer, the brilliant, charismatic head of the Manhattan Project, recruited scientists to live as virtual prisoners of the U.S. government at Los Alamos, a barren mesa thirty-five miles outside Santa Fe, New Mexico. Thousands of men, women, and children spent the war years sequestered in this top-secret military facility. They lied to friends and family about where they were going and what they were doing, and then disappeared into the desert. Through the eyes of a young Santa Fe widow who was one of Oppenheimer's first recruits, we see how, for all his flaws, he developed into an inspiring leader and motivated all those involved in the Los Alamos project to make a supreme effort and achieve the unthinkable.
