How to Develop your Occult Powers Swami Panchadasi, 2021-08-24 In preparing this series of lessons for students of Western lands, I have been compelled to proceed along lines exactly opposite to those which I would have chosen had these lessons been for students in India. This because of the

diametrically opposite mental attitudes of the students of these two several lands. The student in India expects the teacher to state positively the principles involved, and the methods whereby these principles may be manifested, together with frequent illustrations (generally in the nature of fables or parables), serving to link the new knowledge to some already known thing. The Hindu student never expects or demands anything in the nature of proof of the teachers statements of principle or method; in fact, he would regard it as an insult to the teacher to ask for the same. Consequently, he does not look for, or ask, specific instances or illustrations in the nature of scientific evidence or proof of the principles taught. He may ask for more information, but solely for the purpose of bringing out some point which he has not grasped; but he avoids as a pestilence any question seeming to indicate argument, doubt of what is being taught him, or of the nature of a demand for proof or evidence. The Western student, on the other hand, is accustomed to maintaining the skeptical attitude of mind the scientific attitude of doubt and demand for proof and the teacher so understands it. Both are accustomed to illustrations bringing out the principles involved, but these illustrations must not be fanciful or figurative they must be actual cases, well authenticated and vouched for as evidence. In short, the Western teacher is expected to actually prove to his students his principles and methods, before he may expect them to be accepted. This, of course, not from any real doubt or suspicion of the veracity or ability of the teacher, but merely because the Western mind expects to question, and be questioned, in this way in the process of teaching and learning. Consequently, in this series of lessons, I have sought to follow the Western method rather than the Hindu. So far as is possible, I have avoided the flat positive statement of principles and methods, and have sought to prove each step of the teaching. Of course, I have been compelled to assume the existence of certain fundamental principles, in order to avoid long and technical metaphysical and philosophical discussions. I have also had to content myself with the positive flat assertion of the existence of the Astral Plane, Akashic Records, Prana, etc., which are fundamental postulates of Hindu philosophy and occult science for these are established solely by the experience of those who are able to function on the higher planes themselves. But, beyond this I have sought to prove by direct and positive evidence (adapted to the Western mind) every step of my teaching and methods.

A Course Of Advanced Lessons In Clairvoyance And Occult Powers . . . Panchadasi (William Walker Atkinson),2017-08-29

Clairvoyance and Occult Powers – William Walker Atkinson Swami Panchadasi,2019-09-14 All occultists know that man has other senses than the ordinary five, although but few men have

developed them sufficiently well to use them effectively. These super-physical senses are known to the occultists as the astral senses. The term Astral, used so frequently by all occultists, ancient and modern, is derived from the Greek word astra, meaning star. It is used to indicate those planes of being immediately above the physical plane. The astral senses are really the counterparts of the physical senses of man, and are connected with the astral body of the person just as the physical senses are connected with the physical body. The office of these astral senses is to enable the person to receive impressions on the astral plane, just as his physical senses enable him to receive impressions on the physical plane. On the physical plane the mind of man receives only the sense impressions of the physical organs of sense; but when the mind functions and vibrates on the astral plane, it requires astral senses in order to receive the impressions of that plane, and these, as we shall see, are present. Each one of the physical senses of man has its astral counterpart. Thus man has, in latency, the power of seeing, feeling, tasting, smelling, and hearing, on the astral plane, by means of his five astral senses. More than this, the best occultists know that man really has seven physical senses instead of but five, though these two additional senses are not unfolded in the case of the average person (though occultists who have reached a certain stage are able to use them effectively). Even these two extra physical senses have their counterparts on the astral plane. - Taken from Clairvoyance and Occult Powers written by William Walker Atkinson under the Pseudonym Swami Panchadasi

Practical Mind Reading and Clairvoyance and Occult Powers William Walker Atkinson,Swami Panchadasi,2013-05-30 William Walker Atkinson (December 5, 1862 - November 22, 1932) was an attorney, merchant, publisher, and author, as well as an occultist and an American pioneer of the New Thought movement. He is also known to have been the author of the pseudonymous works attributed to Theron Q. Dumont and Yogi Ramacharaka. Due in part to Atkinson's intense personal secrecy and extensive use of pseudonyms, he is now largely forgotten, despite having written more than 100 books in the last 30 years of his life. His works have remained in print more or less continuously since 1900. Offered for the first time together, Angelnook Publishing presents Practical Mind Reading and Clairvoyance and Occult Powers. Two of Atkinson's most profound works giving the reader a more complete view of his guide to telepathy. Cover artwork by Paul Spremulli

Lessons in Clairvoyance and Occult Powers Swami Panchadasi,2017-02-15 The occult is Latin for clandestine or secret. However, in common parlance the occult now refers to knowledge that is secret or hidden, specifically paranormal knowledge. While evidence based experimentation is more properly in the realm of science, the occult is the study of a spiritual reality that is difficult to quantify and measure. Throughout history, the occult has dominated magical organizations, cults, and some orders of ill repute, which has likely encouraged many people to overlook its teachings. Today, the occult represents a growing science based on spirituality and the supernatural. The teachings present within this genre may seem foreign to the uninitiated, even implausible, however it would be foolhardy to dismiss the occult as pure fantasy. Generally, the genre is aimed at teaching the the inner nature of things, a topic we probably all know to be familiar but difficult to verbalize. Arthur Schopenhauer designates this inner nature with the term Will. He suggests that that science and mathematics are unable to penetrate beyond the relationship between one thing and another in order to explain the inner nature of a thing itself, independent of any external causal relationship of other things. Ultimately, by defining a thing solely in terms of its external relationship or effects, we are limited in our discovery; we can determine only the external or explicit nature of something. In contrast, the study of the occult seeks to discover the inner nature of something, that intangible quality we are aware of but is difficult

to measure. Historically, if something possessed a characteristic we could not explain, it was said to have occult properties. For example, before humans uncovered the science behind magnetism, magnetic fields and their mysterious pull on objects were considered occult properties. This classification should be telling for the discerning reader. Studying the occult raises awareness of qualities we have difficulty explaining but nonetheless observe. This book ventures to educate the reader about exactly those qualities, and more importantly, how to use them. The chapters are organized in lessons, each dedicated to a specific practice or power. For example, the first chapter is entitled The Astral Senses which discusses how the familiar five senses that humans possess are inadequate to describe the true capabilities of man. The second chapter aims to provide a foundation for two meta-human capabilities we know as telepathy and clairvoyance. While modern television and popular movies have certainly conflated these very real abilities to only that of the super human, this book adopts a scientific approach on how to adapt our current knowledge on the subjects to serve a function. Panchadasi has written an in depth foundation for many occult powers that is certain to enlighten even the most incredulous of readers.
