Hollywood Sound Design and Moviesound Newsletter David Stone, 2020-07-29 As film students and younger fans experience Big Hollywood Sound in Imax presentations and digital theaters, many are also discovering action and adventure movies made well before they were born. There is a legacy to be enjoyed in the sound of these films: Blockbuster movies of the '80's, and '90's are notable for the extraordinarily dramatic impact of their sound mixing, and the way in which it could immerse audiences in a surrounding space. During this period, a small group of sound professionals in Hollywood wrote and published a critical journal about the craftsmanship, new technology, and changing aesthetics that excited conversation in their community. Their work has been edited and compiled here for the first time. David Stone is a sound editor, a veteran of roughly 100 Hollywood feature films, such as Gremlins, Top Gun, Die Hard, Speed, and Ocean's 11. He was a Supervising Sound Editor for projects as varied as Predator, Edward Scissorhands, Beauty and the Beast, Batman Returns, City Slickers 2, and Dolores Claiborne. He has collected Golden Reel awards for Best Sound Editing five times, and won the 1992 Academy Award® for best Sound Effects Editing, for his supervising work on Bram Stoker's Dracula. In 2015, he received a Lifetime Achievement Award from the San Luis Obispo Jewish Film Festival in California. Stone is now a Professor and former Chair of Sound Design at Savannah College of Art and Design. Between 1989 and 1994, he was the editor of Moviesound Newsletter, which was published by Vanessa Ament. Dr. Vanessa Theme Ament is the author of The Foley Grail, and a contributor to Sound: Dialogue, Music, and Effects (the Silver Screen Series). She is on the steering committee for Cinesonika, an international film festival and conference. A veteran Foley artist, sound editor, and voice actor from Los Angeles, she also writes and sings jazz, and is a member of the American Federation of Musicians, SAG-AFTRA, Actors Equity, and the Editors Guild. She worked on Die Hard, sex, lies, and videotape, Platoon, Predator, Edward Scissorhands, Beauty and the Beast, Noises Off, and A Goofy Movie, and many other films. Dr. Ament received her Ph.D. in Communication, in the area of Moving Image Studies, from Georgia State University in Atlanta, and is presently the Edmund F. and Virginia B. Ball Endowed Chair Professor of Telecommunications, at Ball State University in Muncie, Indiana.

The Classical Animated Documentary and Its Contemporary Evolution Cristina Formenti, 2022-03-24 The Classical Animated Documentary and Its Contemporary Evolution is the first book to provide an historical insight into the animated documentary. Drawing on archival research and textual analysis, it shows how this form, usually believed to be strictly contemporaneous, instead took shape in the 1940s. Cristina Formenti integrates a theoretical and a historical approach in order to shed new light on the animated documentary as a form as well as on the work of renowned studios such as The Walt Disney Studios, Halas & Batchelor, National Film Board of Canada and never before addressed ones, such as Corona Cinematografica. She also highlights the differences and the similarities existing among the animated documentaries created between the 1940s and the mid-1980s and those produced today so as to demonstrate how the latter do not represent a complete otherness in respect to the former, but rather an evolution.

Hanna and Barbera: Conversations Kevin Sandler, Tyler Solon Williams, 2024-04-23 Hanna and Barbera: Conversations presents a lively portrait of Bill Hanna and Joe Barbera, the influential producers behind Tom and Jerry, the Flintstones, Scooby-Doo, the Smurfs, and hundreds of other cartoon characters who continue to entertain the world today. Encompassing more than fifty years of film and television history, the conversations in this volume include first-person accounts by the namesakes of the Hanna-Barbera studio as well as recollections by artists and executives who worked closely with the pair for decades. It is the first collection of its kind about Hanna and Barbera, likely the most prolific animation producers of the twentieth century, whose studio once outflanked its competitor Walt Disney in output and influence. Bill Hanna fell into animation in 1930 at the Harman-Ising studio in Los Angeles, gaining skills across the phases of production as MGM opened its animation studio. Joe Barbera, a talented and sociable artist, entered the industry around the same time at the wild and woolly Van Beuren studio in Manhattan, learning the ins and outs of animation art before crossing the country to join MGM. In television, Hanna's timing and community-oriented work ethic along with Barbera's knack for sales and creating funny characters enabled Hanna-Barbera to build a roster of beloved cartoon series. A wide range of pieces map Hanna and Barbera's partnership, from their early days in Hollywood in the 1930s to Cartoon Network in the 1990s, when a new generation took the reins of their animation studio. Relatively unknown when they made over one hundred Tom and Jerry theatrical cartoons at MGM in the 1940s and 1950s, Hanna and Barbera became household names upon entering the new medium of television in 1957. Discussions here chart their early primetime successes as well as later controversies surrounding violence, overseas production, and the lack of quality in their Saturday morning cartoons. With wit, candor, insight, and bravado, Hanna and Barbera: Conversations reflects on Bill and Joe's breakthroughs and shortcomings, and their studio's innovations and retreads.

Designing Sound for Animation Robin Beauchamp, 2014-06-20 This nuts-and-bolts guide to sound design for animated films explains audio software, free downloads, how sound works, the power of

sound when wielded by an animation filmmaker, and provides varieties of examples for how to use sound to enliven your films with professional sound. Sound-savvy animators save precious resources (time and money) by using sound for effects they don't necessarily have time to create. For example, the sound of a crow flying gives viewers a sense of the crow without the crow. Where there's a macabre element or scene in an animated film, this book explains why you should choose a low frequency sound for it—low frequencies are scary, because the ear can't decipher their origin or direction! On the DVD: three 5-minute animations; sample sound clips, jump cuts and video streams; plus motion graphics with which to practice sound-applications explained in this book.

The First Hollywood Sound Shorts, 1926–1931 Edwin M. Bradley, 2009-04-27 This study of early sound shorts begins with an explanation of the development of sound motion pictures in Hollywood by such influential companies as Warner Bros. and Fox, with an emphasis on short subjects, leading up to the first few months when all of the major studios were capable of producing them. The next chapters discuss the impact on other mass entertainments, the development of audible news reels and other non-fiction shorts, as well as the origins of animated sound subjects. A comprehensive list of pre-1932 American-made shorts completes the volume.

Let's Make Comics! Jess Smart Smiley, 2018-06-05 A light-hearted interactive guide to comics and cartoon-making that uses an activity book format and creatively stimulating prompts to teach the fundamentals of cartooning in a fun and easy-to-follow fashion. From a working cartoonist and comic book making instructor, this all-ages activity book uses humorous and informative one-page comics and exercise prompts to guide young readers (and readers who are young at heart) through easy-to-master lessons on the skills needed to make comics. The activities cover a range of essential comics-making tasks from creating expressions for characters to filling in blank panels to creating original characters and placing them in adventures of their own. Each exercise can stand on its own or work together with others in the book to stimulate creativity via the comics medium. In the end, readers who complete the activities inside the book itself will have created several comics of their own, and will have generated many ideas for more sequential art creations. Praise for *Let's Make Comics!* “At once playful and complex, this book is a perfect introduction to cartooning, as well as a lovely (and lovingly crafted) tribute to the comics form and a timely reminder that artmaking can be fun.”—Roman Muradov, creator of *Vanishing Act* and *On Doing Nothing* “Let's Make Comics is a book I wish I had when I was 9, but 29 works too! It's so fun and brilliant and packed with oodles of awesome activities. Great book for learning to make comics or for a seasoned cartoonist to find some new inspiration.”—Ben Clanton, creator of the *Narwhal* and *Jelly* books “It's fantastic! This book will make you a better writer and a better artist and show you how to think like a comic star.”—Charise Harper, creator of the *Fashion Kitty* and *Crafty Cat* books “Warning! This book will make you make

comics, and it will be fun!”—Greg Pizzoli, creator of The Watermelon Seed, Number One Sam, and The Book Hog “If only we'd had this book! Our comics would be much better.”—Elizabeth Pich and Jonathan Kunz, creators of War and Peas
