Hanna and Barbera: Conversations Kevin Sandler,Tyler Solon Williams,2024-04-23 Hanna and Barbera: Conversations presents a lively portrait of Bill Hanna and Joe Barbera, the influential producers behind Tom and Jerry, the Flintstones, Scooby-Doo, the Smurfs, and hundreds of other cartoon characters who continue to entertain the world today. Encompassing more than fifty years of film and television history, the conversations in this volume include first-person accounts by the namesakes of the Hanna-Barbera studio as well as recollections by artists and executives who worked closely with the pair for decades. It is the first collection of its kind about Hanna and Barbera, likely the most prolific animation producers of the twentieth century, whose studio once outflanked its competitor Walt Disney in output and influence. Bill Hanna fell into animation in 1930 at the Harman-Ising studio in Los Angeles, gaining skills across the phases of production as MGM opened its animation studio. Joe Barbera, a talented and sociable artist, entered the industry around the same time at the wild and woolly Van Beuren studio in Manhattan, learning the ins and outs of animation art before crossing the country to join MGM. In television, Hanna's timing and community-oriented work ethic along with Barbera's knack for sales and creating funny characters enabled Hanna-Barbera to build a roster of beloved cartoon series. A wide range of pieces map Hanna and Barbera's partnership, from their early days in Hollywood in the 1930s to Cartoon Network in the 1990s, when a new generation took the reins of their animation studio. Relatively unknown when they made over one hundred Tom and Jerry theatrical cartoons at MGM in the 1940s and 1950s, Hanna and Barbera became household names upon entering the new medium of television in 1957. Discussions here chart their early primetime successes as well as later controversies surrounding violence, overseas production, and the lack of quality in their Saturday morning cartoons. With wit, candor, insight, and bravado, Hanna and Barbera: Conversations reflects on Bill and Joe's breakthroughs and shortcomings, and their studio's innovations and retreads.

The First Hollywood Sound Shorts, 1926Ð1931 Edwin M. Bradley,2009-04-27 This study of early sound shorts begins with an explanation of the development of sound motion pictures in Hollywood by such influential companies as Warner Bros. and Fox, with an emphasis on short subjects, leading up to the first few months when all of the major studios were capable of producing them. The next chapters discuss the impact on other mass entertainments, the development of audible news reels and other non-fiction shorts, as well as the origins of animated sound subjects. A comprehensive list of pre-1932 American-made shorts completes the volume.

Let's Make Comics! Jess Smart Smiley,2018-06-05 A light-hearted interactive guide to comics and cartoon-making that uses an activity book format and creatively stimulating prompts to teach the fundamentals of cartooning in a fun and easy-to-follow fashion. From a working cartoonist and comic book making instructor, this all-ages activity book uses humorous and informative one-page comics and exercise prompts to guide young readers (and readers who are young at heart) through easy-to-master lessons on the skills needed to make comics. The activities cover a range of essential comics-making tasks from creating expressions for characters to filling in blank panels to creating original characters and placing them in adventures of their own. Each exercise can stand on its own or work together with others in the book to stimulate creativity via the comics medium. In the end, readers who complete the activities inside the book itself will have created several comics of their own, and will have generated many ideas for more sequential art creations. Praise for Let's Make Comics! "At once playful and complex, this book is a perfect introduction to cartooning, as well as a lovely (and lovingly crafted) tribute to the comics form and a timely reminder that artmaking can be fun."—Roman Muradov, creator of Vanishing Act and On Doing Nothing "Let's Make Comics is a book I wish I had when I was 9, but 29 works too! It's so fun and brilliant and packed with oodles of awesome activities. Great book for learning to make comics or for a seasoned cartoonist to find some new inspiration."—Ben Clanton, creator of the Narwhal and Jelly books "It's fantastic! This book will make you a better writer and a better artist and show you how to think like a comic star."—Charise Harper, creator of the Fashion Kitty and Crafty Cat books "Warning! This book will make you make comics, and it will be fun!"—Greg Pizzoli, creator of The Watermelon Seed, Number One Sam, and The Book Hog "If only we'd had this book! Our comics would be much better."—Elizabeth Pich and Jonathan Kunz, creators of War and Peas

Indefinite Visions Beugnet Martine Beugnet,2017-07-07 Moving image culture seems to privilege the instantly identifiable: the recognizable face, the well-timed stunt, the perfectly synchronized line of dialogue. Yet perfect, in-focus visibility does not come 'naturally' to the moving image, and if there is one visual effect the eye of the camera can record better than the human eye it is blur. Looking beyond popular media to works of experimental cinema and video art, this groundbreaking collection addresses the aesthetics and politics of moving images in states of decay, distortion, indistinctness and fragmentation. A range of international scholars examines what is at stake in these images' sometimes radical foregrounding of materiality and mediation, or of evanescence and spectrality, as well as their challenging of the dominant position accorded to 'legible' images. How have artists and filmmakers rendered the 'indefinite' image, and what questions does it pose? With a range of approaches, from aesthetics to phenomenology to production studies, the authors in this volume investigate techniques, themes and concepts that emerge from this wilful excavation of the moving image's material base.
