Luxury Arts of the Renaissance Marina Belozerskaya, 2005-10-01 Today we associate the Renaissance with painting, sculpture, and architecture—the “major” arts. Yet contemporaries often held the “minor” arts—gem-studded goldwork, richly embellished armor, splendid tapestries and embroideries, music, and ephemeral multi-media spectacles—in much higher esteem. Isabella d’Este, Marchesa of Mantua, was typical of the Italian nobility: she bequeathed to her children precious stone vases mounted in gold, engraved gems, ivories, and antique bronzes and marbles; her favorite ladies-in-waiting, by contrast, received mere paintings. Renaissance patrons and observers extolled finely wrought luxury artifacts for their exquisite craftsmanship and the symbolic capital of their components; paintings and sculptures in modest materials, although discussed by some literati, were of lesser consequence. This book endeavors to return to the mainstream material long marginalized as a result of historical and ideological biases of the intervening centuries. The author analyzes how luxury arts went from being lofty markers of ascendancy and discernment in the Renaissance to being dismissed as “decorative” or “minor” arts—extravagant trinkets of the rich unworthy of the status of Art. Then, by re-examining the objects themselves and their uses in their day, she shows how sumptuous creations constructed the world and taste of Renaissance women and men.

The Black Jacobins C.L.R. James, 2023-08-22 A powerful and impassioned historical account of the largest successful revolt by enslaved people in history: the Haitian Revolution of 1791–1803 “One of the seminal texts about the history of slavery and abolition.... Provocative and empowering.” —The New York Times Book Review *The Black Jacobins*, by Trinidadian historian C. L. R. James, was the first major analysis of the uprising that began in the wake of the storming of the Bastille in France and became the model for liberation movements from Africa to Cuba. It is the story of the French colony of San Domingo, a place where the brutality of plantation owners toward enslaved people was horrifyingly severe. And it is the story of a charismatic and barely literate enslaved person named Toussaint L'Ouverture, who successfully led the Black people of San Domingo against successive invasions by overwhelming French, Spanish, and English forces—and in the process helped form the first independent post-colonial nation in the

Caribbean. With a new introduction (2023) by Professor David Scott.

Ethnic and Vernacular Music, 1898-1960 Paul Vernon, 1995-12-11 Detailed information on almost all ethnic and vernacular recordings from many countries on 78rpm is provided in this seminal work. The current state of discographical research in this wide and varied field is such that a research tool of this nature is badly needed. Jesse Walter Fewkes and Mary Hemenway recorded Native American music as early as 1890; Bela Bartok recorded rural music in the Balkans; Erich von Hornbostel, the grand old man of ethnomusicology in Europe, recorded in Southeast Asia. More than just a discography, this work demonstrates that cultures around the world and over time have more similarities than differences. A necessity for scholars, students, archivists, and individual record collectors and dealers. The goals of this volume are many and varied: to promote thought and discussion toward a concise definition of recorded ethnic music; to assist specialists working on individual discographical projects; to introduce users to the interconnectedness of cultures through regional music; to gather heretofore disparate pieces of information under one cover in a way that for the first time allows specialists to accurately identify all manner of recordings in many languages. The four sections of the volume work together for easy usage through cross referencing. The philosophy behind the volume was expressed by Rodney Gallop when he remarked that music, for him, was often the key to the understanding of other cultures.

The Unbroken Thread Kathryn Klein, 1997-01-01 Housed in the former 16th-century convent of Santo Domingo church, now the Regional Museum of Oaxaca, Mexico, is an important collection of textiles representing the area's indigenous cultures. The collection

includes a wealth of exquisitely made traditional weavings, many that are now considered rare. The *Unbroken Thread: Conserving the Textile Traditions of Oaxaca* details a joint project of the Getty Conservation Institute and the National Institute of Anthropology and History (INAH) of Mexico to conserve the collection and to document current use of textile traditions in daily life and ceremony. The book contains 145 color photographs of the valuable textiles in the collection, as well as images of local weavers and project participants at work. Subjects include anthropological research, ancient and present-day weaving techniques, analyses of natural dyestuffs, and discussions of the ethical and practical considerations involved in working in Latin America to conserve the materials and practices of living cultures.

The Lives of the Sophists Philostratus (the Athenian), 1921 PHILOSTRATUS AND EUNAPIUS. (a) Of the distinguished Lemnian family of Philostrati, Flavius Philostratus, 'the Athenian', was a Greek sophist (professor), c. A.D. 170-205, who studied at Athens and later lived in Rome. He was author of the admirable *Life of Apollonius of Tyana* (Loeb Nos. 16 and 17) and *Lives of the Sophists* (which are really impressions of investigators alert but less fond of scientific method and discovery than of stylish presentation or things known), one part concerning some older, the other some later 'proversors'. Other extant works of this Philostratus are *Letters* and *Gymnasticus*, but the *Heroicus* or *Heroica* is apparently by another Philostratus, and the *Eikones* (Images, skilful descriptions of pictures, Loeb No. 256) were probably by two Philostrati, one being the son of Nervianus and born c. A.D. 190, the other his grandson who wrote c. AD. 300. (b) The Greek Sophist and historian Eunapius was born at Sardis in A.D. 347, but went to Athens to study and

lived much of his life there teaching rhetoric and possibly medicine. He was initiated into the 'mysteries' and was hostile to Christians. Lost is his historical work (covering the years A.D. 270-404) but for excerpts and the use of it made by Zosimus, but we have his Lives of Philosophers and Sophists mainly contemporary with himself. Eunapius is our only source of our knowledge of Neo-Platonism in the latter part of the fourth century A.D.

Authoritarianism and the Elite Origins of Democracy Michael Albertus, Victor Menaldo, 2018-01-25 This book argues that - in terms of institutional design, the allocation of power and privilege, and the lived experiences of citizens - democracy often does not restart the political game after displacing authoritarianism. Democratic institutions are frequently designed by the outgoing authoritarian regime to shield incumbent elites from the rule of law and give them an unfair advantage over politics and the economy after democratization. **Authoritarianism and the Elite Origins of Democracy** systematically documents and analyzes the constitutional tools that outgoing authoritarian elites use to accomplish these ends, such as electoral system design, legislative appointments, federalism, legal immunities, constitutional tribunal design, and supermajority thresholds for change. The study provides wide-ranging evidence for these claims using data that spans the globe and dates from 1800 to the present. Albertus and Menaldo also conduct detailed case studies of Chile and Sweden. In doing so, they explain why some democracies successfully overhaul their elite-biased constitutions for more egalitarian social contracts.

The One World Schoolhouse Salman Khan, 2012-10-02 A free, world-class education for anyone, anywhere. This is the goal of the Khan Academy, a passion project that grew from an ex-engineer and hedge funder's online tutoring sessions with his niece, who was struggling with algebra, into a worldwide phenomenon. Today millions of students, parents, and teachers use the Khan Academy's free videos and software, which have expanded to encompass nearly every conceivable subject; and Academy techniques are being employed with exciting results in a growing number of classrooms around the globe. Like many innovators, Khan rethinks existing assumptions and imagines what education could be if freed from them. And his core idea-liberating teachers from lecturing and state-mandated calendars and opening up class time for truly human interaction-has become his life's passion. Schools seek his advice about connecting to students in a digital age, and people of all ages and backgrounds flock to the site to utilize this fresh approach to learning. In *THE ONE WORLD SCHOOLHOUSE*, Khan presents his radical vision for the future of education, as well as his own remarkable story, for the first time. In these pages, you will discover, among other things: How both students and teachers are being bound by a broken top-down model invented in Prussia two centuries ago Why technology will make classrooms more human and teachers more important How and why we can afford to pay educators the same as other professionals How we can bring creativity and true human interactivity back to learning Why we should be very optimistic about the future of learning. Parents and politicians routinely bemoan the state of our education system.

Statistics suggest we've fallen behind the rest of the world in literacy, math, and sciences. With a shrewd reading of history, Khan explains how this crisis presented itself, and why a return to mastery learning, abandoned in the twentieth century and ingeniously revived by tools like the Khan Academy, could offer the best opportunity to level the playing field, and to give all of our children a world-class education now. More than just a solution, THE ONE WORLD SCHOOLHOUSE serves as a call for free, universal, global education, and an explanation of how Khan's simple yet revolutionary thinking can help achieve this inspiring goal.

Lucky War Richard Moody Swain, 1997 Provides an account, from the point of view of the U.S. Army forces employed, of the 1990-91 Persian Gulf War, from the Iraqi invasion of Kuwait to the withdrawal of coalition forces from southeastern Iraq. It focuses on the Army's part in this war, particularly the activities of the Headquarters, Third Army, and the Army Forces Central Command (ARCENT). It looks especially at the activities of the VII Corps, which executed ARCENT's main effort in the theater ground force schwerpunkt -- General Schwarzkopf's Great Wheel. This is not an official history; the author speaks in his own voice and makes his own judgments. Maps.

Hollywood Genres: Formulas, Filmmaking, and The Studio System Thomas Schatz, 1981-02 The central thesis of this book is that a genre approach provides the most effective means for understanding, analyzing and appreciating the Hollywood cinema. Taking into account not only the formal and aesthetic aspects of feature filmmaking, but various other cultural aspects as well, the genre approach treats movie production as a dynamic process of exchange between the film industry and its audience. This process, embodied by the Hollywood studio system, has been sustained primarily through genres, those popular narrative formulas like the Western, musical and gangster film, which have dominated the screen arts throughout this century.
