W. Clark Russell

Reminiscences of a Voyage around the World Raymond Cazallis Davis,2022-06-06 Reprint of the original.

The Voyages of Pirate Juan E. Corradi,2019-07-07 With great good humor and a Wagnerian sense of the majesty in an ocean crossing, Juan Corradi makes his sailboat the star of the narrative, and inspires anyone to take to sea in a small sailing vessel, and see the World from the deck of a sailboat. He gives details of her design and build, her string of lucky owners, and the great adventures at sea over 25 years. Sailing at the highest levels of competition and seamanship, Juan E Corradi sailed and raced his beloved black-hulled racing yacht, a Swan 38 named Pirate, across many thousands of adventuresome ocean miles, from Bermuda to the Mediterranean, back to the Caribbean Sea, and into the Baltic and the Arctic Circle, always with a circle of close friends and his wife Christina. Pirate won the Bermuda Race, and won her class in a difficult transatlantic race in 1992, the Atlantic 500 commemorating Columbus' voyage of 1492. Cruising the Scaninavian waters, he found rocky outcrops that now bear his name. In Greece, he sailed with the Homeric myths and dear friends, and in Scotland he and crew toured the outer islands in a dedicated Single Malt Whisky Cruise. Juan brings his cheerful erudition and worldly viewpoint to the ancient venture of man against the sea, including the delights of approaching waterspouts, ocean racing, and occassional groundings. He considers what defines a classic yacht and the appeal of adventure.

Urien's Voyage André Gide,2012-02-14 DIVNobel Prize-winning writer André Gide marks his voyage toward self-discovery in this imaginative allegorical work/divDIV /divDIVWhen Urien and his sailing companions begin their voyage, it is to places unknown and, perhaps, only dreamed. This allegorical masterpiece from André Gide, a key figure of French letters, deftly illustrates the techniques and doctrine of the Symbolist movement—and the dual nature of Gide's own psyche. Written at a crucial time in his artistic development, this imaginative work signals his gradual abandonment of acetic celibacy toward an embrace of pleasure and carnal desires, revealing a Gide more transparent in this early work than in his mature writings./divDIV /divDIVTranslator and scholar Wade Baskin annotates the work, connecting Gide's life and bibliography to the text./div

The Extraordinary Voyage in French Literature Before 1700 (Classic Reprint) Geoffroy Atkinson,2015-07-06 Excerpt from The Extraordinary Voyage in French Literature Before 1700 This study was begun in October 1916 at the suggestion of Professor Gustave Lanson, who was at that time lecturing at Columbia University, and to whom it was my privilege to act as office assistant. My research has been twice interrupted: from January to March 1917, while I was in France as

Secretary and Interpreter to the Rockefeller Tuberculosis Commission, and again from May 1917, when I went to France as a private soldier of the United States Army, until January 1919, at which time I returned to the United States and to civilian life. Although I had originally intended to make a complete study of the history of the Extraordinary Voyage as a type of novel in French Literature, I have been obliged, by the extent of the subject, to limit my study in the present volume to the period preceding the year 1700. It is my purpose to continue in a second volume the investigation of the Extraordinary Voyages published since that date. It is only fitting to say that without the suggestion of Professor Lanson the present work never would have been begun, and that, without his continued interest, it certainly never would have been completed. If in its accomplishment any credit whatever is to be accorded, this will have been due in large measure to the inspiration received from Professor Lanson. If on the other hand, errors of statement or of judgment are discovered in it, they may be set down as exclusively my own. A Voyage Round the World, Between the Years 1816-1819 (Classic Reprint) Camille de Roquefeuil, 2018-02-02 Excerpt from A Voyage Round the World, Between the Years 1816-1819 From this time the weather was variable, and very 8 so that we incurred great danger, and suffered much ship. The sea ran extremely high, and frequently covered the ship, so that, with this, and the frequent rain and thick fogs, it was impossible to dry our clothes for several days together. Happily, our vessel proved to be a most excellent one, and had less lee-way than any I ever knew. During this rough weather, as the currents continually set towards Terra del Fuego, I always tacked so as to keep as far from it as possible; yet, notwithstanding this precaution, the currents, and repeated bringing to, made us come twenty-eight leagues to leeward of Cape Noir, and twenty-four leagues of Cape Pi lares. On the 22d, we doubled the parallel of this promontory, which is the western extremity of Strait Magellan, having thus gone round Terra del Fuego, on the eighteenth day since we made land at Cape Ines, and the sixteenth after quitting Strait Lemaire. At present, almost all vessels bound to the South Sea, pass to the east of the Falkland Islands and Staten Land, without approaching them. When, at this latitude, they meet with westerly winds, which are so common on these seas, they run to the south, as far as or thereabouts there they find variations, which permit them to go to the north-west. Without pretending to blame the practice adopted by most navigators. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
