Tui T. Sutherland

Mama, Let's Make a Moon Clay Rice, 2013 Award-winning and nationally recognized author/illustrator Rice (The Lonely Shadow) has created a beautifully poetic tale about a humble mountain family that decides to make a moon. The fun begins when the brother and sister start collecting the ingredients. Full color.

Starshine & Clay Kamilah Aisha Moon, 2017 These poems run the gamut between human striving and suffering, ultimately imbued with a tenacious hope

Moon Rising (Wings of Fire #6) Tui T. Sutherland, 2014-12-30 The New York Times-bestselling series soars to even greater heights with a new prophecy and five new dragonets ready to claim their destiny! Peace has come to Pyrrhia . . . for now. The war between the tribes is finally over, and now the dragonets of the prophecy have a plan for lasting peace: Jade Mountain Academy, a school that will gather dragonets from all the tribes and teach them to live together, perhaps even as friends. Moonwatcher isn't sure how she feels about school, however. Hidden in the rainforest for most of her life, the young NightWing has an awful secret. She can read minds, and even see the future. Living in a cave with dozens of other dragons is noisy, exhausting--and dangerous. In just a few days, Moon finds herself overwhelmed by her secret powers and bombarded by strange thoughts, including those of a mysterious dragon who might be a terrible enemy. And when someone starts attacking dragons within the academy, Moon has a choice to make: Stay hidden

and safe? Or risk everything to save her new friends?

Many More of Janice VanCleave's Wild, Wacky, and Weird Astronomy Experiments Janice VanCleave, 2017-12-15 In a series of fun and involving hands-on astronomy experiments, kids learn how the Sun's rays affect the visibility of Venus, determine the difference between local sun time and clock time, and observe and chart the phases of the Moon. They will also demonstrate why only one side of the Moon is visible from the Earth, make a model of the celestial sphere, and create a model of a multistage rocket. Featuring color illustrations and safe, simple step-by-step instructions, Janice VanCleave shows just how much fun science can be.

The Moon Year Juliet Bredon, Igor' Mitrofanov, 1927 This book is an attempt to unravel some of the puzzles of an old, old civilisation which, save in the case of a small minority, has not changed for centuries--to describe the everyday beliefs of the Chinese people and the festivals of their Moon Calendar, used as a diary of daily happenings. -- Preface.

The Rise of Wisdom Moon Krishna mishra, 2016-10-01 The Rise of Wisdom Moon was composed during the mid-eleventh century by Krishna mishra, an otherwise unknown poet in the service of the Chandella dynasty, whose cultural and religious capital was Khajuraho. The early popularity of Krishna mishra's work led to its frequent translation into the vernaculars of both North and South India, and even Persian as well. Famed as providing the enduring model

of the allegorical play for all subsequent Sanskrit literature, *The Rise of Wisdom Moon* offers a satirical account of the conquest of the holy city of Benares by Nescience, of the war of liberation waged by the forces of Intuition, and of the freedom of the Inner Man that then follows the rise of Wisdom. But at the outset, when Nescience still has the upper hand, with minions like Lord Lust, such developments seem unlikely.

The Story is in Our Bones Osprey Orielle Lake, 2024-01-30 It's time to

rewild ourselves and our dominant worldviews to build earth-centered communities for all. The dominant cultural worldview is based upon extraction and exploitation practices that have brought us to the precipice of social, environmental, and climate collapse. Braiding poetic storytelling, climate justice and deep cultural analyses, and the collective knowledge of Earth-centered cultures, *The Story is in Our Bones* opens a portal to restoration and justice beyond the end of a world in crisis. Author, activist, and changemaker Osprey Orielle Lake weaves together ecological, mythical, political, and cultural understandings and shares her experiences working with global leaders, systems-thinkers, climate justice activists, and Indigenous Peoples. She seeks to summon a new way of being and thinking in the Anthropocene, which includes transforming the interlocking crises of colonialism, racism, patriarchy, capitalism, and ecocide, to build thriving Earth communities for all. Lake calls forth historical memory of who we are in the Earth's lineage to bring into being the world we keenly long for, at the delicate threshold of great peril or great promise. For anyone grieving our collective loss and wanting to take action, *The Story is in Our Bones* is a vital guide to remaking our world. This hopeful, engaging, and creatively lyrical work reminds readers that another world is possible, and provides a desperately needed antidote to the pervasive despair of our time.
