Hartman on Skeet Barney Hartman,2017-09-15 Here at last is the definitive book on skeet shooting. The name of its author, Barney Hartman, is already a byword within North America's skeet shooting community. For novices, it's enough to say that during the last twenty years Hartman has carried off just about every major skeet shooting trophy on the continent. And now he tells in simple, easy-to-understand language just how he did it. Step by step in words and pictures he takes the reader through every conceivable aspect of skeet -- and then, having covered the fundamentals (which apply to trap shooting as well), he candidly reveals his own personal secrets of success.

Good Shot Steven Mulak,2008-07-01 If you are a bird hunter looking to improve your marksmanship, welcome to the skeet field! Mulak explains how the sport of skeet can help you hunt those unpredictable birds. Illustrations and photographs clearly show the right way--and the wrong way--to shoot skeet and improve your score. Mulak's information takes you from the skeet range to the hunt, with a new set of tools at your fingertips. What makes someone a good shot? Author Steven Mulak has given this question a lot of thought, and his book analyzes problems faced by shooters everywhere. A good shot doesn't miss the same shot twice because he figures out why he missed it and what he must do to correct his mistake. Shooting a shotgun well takes skill, and this book will help you improve your technique. What to look for in a field shotgun How to improve technique and how to recognize and change bad habits How to use skeet to improve your hunting plus clay target games

Successful Shotgunning Peter F. Blakeley,2003-08-01 • A solid guide for becoming a better shot • Wing shooting, sporting clays, skeet shooting • Expert teacher and coach shares years of experience Successful Shotgunning focuses on wing-shooting and sporting clays techniques. Gain a better understanding of the shooting process as a whole as you sharpen your skills and become a better shot. How to evaluate moving targets in wing-shooting situations in the field, in a competitive environment, on a sporting clays course, or on a skeet field. Choose the correct gun and gun fit for you; learn to diagnose some common eye problems and correct your aim; tame recoil; and deal with the challenges of various sporting clays targets. Quote from the book: Successful shotgunning isn't an inherent trait, it is a skill and it must be learned like any other skill. It requires systematic study and the ability to accurately calculate the variables of moving targets. My coaching methods involve an intuitive technique that is based on pure logic and a systematic breakdown of all the variables involved. This is how the experts shoot. Over a period of time they build up a personal mental repertoire of sight pictures, which they can then successfully apply to each target, regardless of whether it is a quail, dove, duck or clay target. They then have the ability to see a subtle but consequential target/barrel relationship on every shot and adjust to each different shooting situation.
