Awakening Democracy through Public Work Harry C. Boyte, 2018-11-15 In the face of authoritarian, divisive trends and multiplying crises, when politics-as-usual is stymied, *Awakening Democracy through Public Work* shows it is possible to build foundations for a democratic awakening grounded in deep American traditions of a citizen-centered commonwealth. *Awakening Democracy through Public Work* begins with the story of Public Achievement, a youth civic education and empowerment initiative with roots in the civil rights movement. It describes Public Achievement's first home in St. Bernard's, a low-income Catholic elementary school in St. Paul, Minnesota, and how the program spread across the country and then abroad, giving birth to the larger concept of public work. In Public Achievement, young people practice citizen politics as they tackle issues ranging from bullying, racism, and sexual harassment to playground improvements, curriculum changes, and better school lunches. They develop everyday political skills for working across differences and making constructive change. Such citizen politics, more like jazz than a set piece of music, involves the interplay and negotiation of diverse interests and views, sometimes contentious, sometimes harmonious. Public Achievement highlights young people's roles as co-creators-builders of schools, communities, and democratic society. They are not citizens in waiting, but active citizens who do public work. *Awakening Democracy through Public Work* also describes how public work can find expression in many kinds of work, from education and health to business and government. It is relevant across the sweep of society. People have experimented with the idea of public work in hundreds of settings in thirty countries, from Northern Ireland and Poland to Ghana and Japan. In Burundi it birthed a national initiative to rework relations between villagers and police. In South Africa it helped people in poor communities to see themselves as problem solvers rather than simply consumers of government services. In the US, at Denison University, public work is being integrated into dorm life. At Maxfield School in St. Paul, it is transforming special education. In rural Missouri, it led to the emPowerU initiative of the Heartland Foundation, encouraging thousands of young people to stay in the region. In Eau Claire, Wisconsin, it generated *Clear Vision*, a program providing government support for citizen-led community improvements. Public work has expanded into the idea of citizen professionals working with other citizens, not on them or for them. It has also generated the idea of civic science, in which scientists see themselves as citizens and science as a resource for civic empowerment. *Awakening Democracy through Public Work* shows that we can free the productive powers of people to work across lines and differences to build a better society and create grounded hope for the future.

Get 'em While They're Hot Tony Zeiss, 2010-09-20 Is your workforce strong enough to keep your company afloat? As the average worker's skill levels decline, the labor supply is projected to decrease dramatically and exponentially--creating a skilled labor gap that the US Bureau of Labor Statistics estimates will leave our economy in need of tens of millions more workers. In his beneficial manual for businesses, Dr. Tony Zeiss shows your organization how to compete--aggressively--for the rapidly dwindling resource of skilled workers. As an experienced and award-winning educator, Zeiss has unique insights into the techniques that are necessary to attract, develop, and retain skilled and productive people to both public and private organizations. In *Get 'Em While They're Hot*, you'll examine how the right people can keep your products and services fresh and competitive, how to train your current workforce in the latest industry trends, and how to leverage and respond to job market changes to position your company for future success. The labor shortage is more than a hot-button political topic. This essential manual will help your company adjust to the challenges ahead, and do what is within its power to not only survive, but thrive.
