*The Historian and Character* Dom David Knowles,2008-10-30 A collection of essays and articles by Dom David Knowles.

**Template for Leadership** William Chauke,2020-07-10 This book draws from the examples of God, that of Jesus Christ and of others like Joseph, Moses, Joshua, and Paul, who had been called into

leadership, as recorded in the Bible, in order to show good leadership approaches, styles, best leadership practices, and the underlying guiding principles that today's leaders need to embrace in order to become more effective in their leadership roles. The author proves through the citation of relevant biblical passages that good leadership was initiated by God, modeled by Jesus Christ, and replicated over the ages by God's anointed leaders. In this book, the author uses the above-cited case studies to show that anyone seeking to learn about good leadership practices should look no further than the word of God because it is the manual for acceptable conduct. This book will therefore serve as a useful resource for church-related leaders and leaders in all fields of human endeavor, as well as students.

**Becoming a Person of God** Sunny Philip, 2011-06-10 King David of ancient Israel was more than a song write and a warrior. A close look at his life shows an intricate personality with so many ups and downs just like all of us. Called for the great task of establishing the nation at a very young age, we see him cracking under pressure, making mistakes, taking daring chances and taking huge leaps based on his unshakable trust in God. He was denied recognition, he was cheated, he was ridiculed, he was threatened and chased around like a mad dog . But he never forgot his mission in life. He struggled as a husband, as a father and as a leader. But he never gave up. He succeeded in the end in fulfilling his destiny and led the nation of Israel to its greatest heights. Davids life story is truly inspirational. All of us who want to reach our destiny will find a true role model in David with whom we can identify with and from whom we can learn. Dr. Sunny Philip covers all the major turning points in

the life of David and unearths precious nuggets of practical wisdom in this book. Dr. Sunny Philip is the Senior Pastor of Gateway World Christian Center in Long Island, New York. He has degrees in Chemistry, Chemical Engineering and Theology. He has ministered on all continents of the world as a Bible teacher and conference speaker. He lives with his wife and three adult children in Long Island, New York.

**Why Do We Live?** Jayantha Pathberiya, 2012-07-09 Organised religions and rituals are mushrooming and so are adherents and devotees. Most religions messages is love and yet there is great violence created in by the supremacy between religions themselves. Each attempting to compete for its proliferation at the expense of the virtues of love they preach. Despite this mutual love seems to be disappearing and violence in society common. Those who are in the profession of teaching spirituality are often limited in themselves and yet each appear to proclaim to know all there

is to know. Some even describing paths that they themselves have yet tread on. The author attempts to describe his journey through the labyrinth created by religions and religious men. His journey is peculiar to him and invites and encourages the reader to experience their own journey.

### **Essentials From The Golden Cabinet: Translation And Annotation Of Jin Gui Yao Lue**

Zhongjing Zhang, 2020-07-13 This is a full-text English translation of Jin Gui Yao Lue, a classic book of traditional Chinese medicine. It is the oldest clinical book dedicated to internal, external, gynecological and obstetrical diseases. It is also the first medical book on differential diagnosis of diseases and symptoms, along with treatment and prescriptions. This book was originally written by Zhang Zhongjing (Zhang Ji) (150-219 CE), an eminent Chinese physician in the Eastern Han dynasty. The book consists of 25 chapters. The first chapter serves as an introduction. Chapters 2-22 discuss the diagnosis and treatment of sixty diseases, involving internal medicine, external medicine, and gynecology & obstetrics. Chapter 23 discusses emergency treatments. Chapters 24 and 25 discuss food contraindications (fowls, beasts, fruits, vegetables and grains) and treatment. The text can serve as a reference for education, research and clinical practice.

### Fostering Local Entrepreneurship in a Multinational Enterprise Joe J. Amberg, Sara L.

McGaughey, 2017-01-20 Corporate entrepreneurship involves new business creation within established companies, the strategic renewal of existing business, and, ultimately, the search for sustainable competitive advantage in an increasingly globalised economy. Yet it remains elusive for many firms. In a collaboration between a practitioner and academic, Joe J. Amberg and Sara L. McGaughey explore corporate entrepreneuring within a large conglomerate multinational enterprise: Siemens AG. In early 2009, following a prolonged period of business stagnation and a huge bribery scandal, Siemens' top management identified a severe lack of entrepreneurship as a critical issue.

The strengthening of 'local entrepreneurship' became a new priority in the strategic planning for 2010 to 2014. By examining three contrasting ventures in the Siemens business unit Fire Safety between 2008 and 2012, the authors identify key drivers and impediments that sustain inertia in corporate entrepreneuring within this global organisation. This study offers an insightful contribution to our growing – yet still fledgling – understanding of corporate entrepreneurship in global corporations, highlighting the importance of context, interdependencies between critical factors, and the false promise of universal best practice.

Crystal Vision Through Crystal Gazing Frater Achad, 2020-08-07 The Purpose of this little volume is three-fold. (1) To give those who are interested in the art of Crystal-Gazing a clear and concise method of procedure, not alone in the practice of the work, but also in the preparation of the crystal itself, so that it becomes a true material basis or link with other planes. (2) To show that the Ancient Methods of Working -- if properly understood -- are more scientific than modern ones, since they were designed to insure a definite type of vision and to put the Seer in touch with definite Intelligences of a Higher Order. (3) To point out that there are other Crystalline Spheres besides the crystal ball at first used to contact them; and that eventually the practice may lead to very high results, if the necessary steps are taken to insure success.

Leadership Concepts and the Role of Government in Africa Kwaku Abiam Danso, 2007-02 The concepts of leadership and the specific role of government leadership in meeting the basic needs of the people seem poorly defined in many areas of African society. Many people in these poor societies seem desperate and anxious for service, contrary to what many external observers may seem to

think as a state of contentment. This creates a management dilemma why government fails to deliver despite high expectations of the electorate. The case of Africa was studied using Ghana as an example of such societies where one can observe phenomenon from examples of traditional leadership of chiefs with certain powers but limited responsibilities that may not be clearly defined for modern development of the society. While recognizing traditional leadership, people in these societies find themselves with shifted locus of power and control, owing loyalty and allegiance to some other elected leaders who seem not concerned about the interests of the electorate, even where very high taxes are collected and people have the money to pay for services. The case of Ghana was examined using a qualitative case study. Selected businesspersons were interviewed in the Accra-Tema metropolitan area to examine their experiences, expectations and perceptions of the leadership, using one indicator of business performance: the quality of utility service delivery regarding water, electricity, telephone and garbage. As well known and found by the World Bank and local Private Enterprise Foundation [PEF] and business groups, electricity and telephone services are indispensable elements of any modern business. In the 1990s, the facsimile machine became part of modern business to enhance data delivery in addition to voice transmission, and in 2006 the Internet and electronic mail have become an almost integral part of global business communication for more than ten years. The needs for these business tools become more critical if businesses have to compete at the global level in free-enterprise markets usually imposed by Western donor and lender conditions. Water and garbage service not only affect health in any society, but in Africa poor sewage treatment and open sewage are directly related to mosquito breeding and malaria. Malaria was reported to kill 15,000 children under five years of age and 2,000 pregnant women in 2005, and seem to reduce the average life expectancy of people in some sectors of the nation by more than six years

(GhanaHomePage, 2006, May 12). The research study on Ghana by this author showed that inefficient service delivery was found to impact about 90% of businesses in almost all sectors, despite a high [73%] expectation from leadership. Despite the call for overseas investors, first-dial successful completion rate of telephone transmission from California to Ghana was only 4%, most fax machines tried were not functional, and more than 95% of the participant business managers and owners used in the study did not have regular use of the Internet. Fifty-six (56) types of leadership perceptions based on the culture evolved and were grouped into common themes, and compared with a similar study in the United States of America. Cultural factors were explored in order to understand the challenges in Ghana's socio-economic development compared with Euro-American and Asian-Confucian cultures. This book is based on a dissertation submitted in partial fulfillment of the requirements of the PhD degree at Capella University's School of Business and Technology [Organization and Management - Leadership Option] in June 2006. I wish to acknowledge the help of Capella University as well as the supervision of Dr. Godwin Igein and Dr. Stephen Tvorik of the School of Business and Technology, and Dr. Kwesi Ngissah of Oakland, California who acted as outside dissertation committee member.

**Seeing, Hearing, and Smelling the World** Carl Y. Saab, 2009 Light, sound, taste, and smell shape our lives dramatically, but how does this happen? How can a far-away noise elicit a joyful memory or a cry? How can the smell of cookies take you back to early childhood? These powerful stimuli exist in our environment, yet remain neutral until our brain decodes the necessary information into meaningful senses. In other words, light is transformed into vision, and sound into hearing, by the brain and the brain only. *Seeing, Hearing, and Smelling the World* reveals the phenomena underlying our senses, with a brief discussion of what can go wrong (for example, hearing colors or seeing

sounds). This book will reacquaint readers with their senses and challenge their fundamental understanding of the amazing human mind.

Prelex Rajesh Khanna, 2012-07 Prelex is the latest lifestyle vision option for people above forty-five who are tired of wearing glasses or contact lenses. Prelex is more advanced and beneficial than lasik eye surgery, as it delivers distance, middle and near vision in each eye (not monovision) is permanent and prevents development of cataracts. This book describes the prelex procedure, presbyopic implants (PI), what to expect before, during and after the short procedure. It discusses the advantages of Prelex procedure over lasik eye surgery for people who demand clear vision at all distances. It explains the working of the eye in simple to easy understand language. It delves into the reasons for needing reading glasses in old age, as well as the reason for nearsightedness, farsightedness and astigmatism. The author, Dr. Khanna discusses how to select a good surgeon, and questions to ask the Prelex surgeon. He goes on to explain how to select the best lens for one's lifestyle from amongst Restor, Tecnis and Crystalens, all FDA approved lenses. The author describes what to expect during the procedure and how to prepare for it. The side effects of the procedure are discussed as well as how to avoid them. Finally, the concept of Neuroadaptation is introduced. How one can use the science of neuroadaptation to enhance the results is provided.
