The Origins of the Civilization of Angkor volume 2 Charles Higham,2007-10-10 Noen U-Loke and Non Muang Kao are two large, moated prehistoric settlements in Nakhon Ratchasima Province, Northeast Thailand. Excavations in 1997-8 revealed a cultural sequence that began in the late

Bronze Age, followed by four mortuary phases covering the Iron Age. This report describes the palaeoenvironment, excavation, chronology and material culture, human remains and social structure of the prehistoric inhabitants of these two sites. It is the second volume reporting on the research programme The Origins of the Civilization of Angkor.

The Gallup Poll George Gallup, George Horace Gallup, 2003 This work is the only complete compilation of polls taken by the Gallup Organization, the world's most reliable and widely quoted research firm. An invaluable tool for ascertaining the pulse of American public opinion in a certain year, as well as for documenting changing perceptions over time of crucial core issues (such as women's rights, health care). It is necessary for all social science research. More than just a collection of polls, each title in this series offers in-depth commentary and analysis, placing current topics in a readable, historical context. Survey results are given in a easy-to-use form. Breakdowns by sex, age, race, level of education, and other factors enable the reader to grasp major issues quickly.
