Research Anthology on Remote Teaching and Learning and the Future of Online Education
Management Association, Information Resources,2022-09-02 The sudden implementation of emergency health procedures at the start of the COVID-19 pandemic forced many educators and educational institutions to explore new territory in terms of policy, teaching strategy, and more. Now that many institutions are familiar with online education, innovations have been developed and implemented. It is essential to study these best practices and innovations that have been developed in remote teaching and learning to better understand the future of online education. The Research Anthology on Remote Teaching and Learning and the Future of Online Education explores the recent developments, strategies, and innovations in remote teaching and learning that have been implemented globally. Covering topics such as emergency remote teaching, psycho-social well-being, and cross-cultural communication, this major reference work is an indispensable resource for educators and administrators of both K-12 and higher education, pre-service teachers, teacher educators, librarians, government officials, IT managers, researchers, and academicians.

Managing Hybrid and Remote Teams Luca Dellanna,2024-02-09 I have been working in hybrid or remote teams since 2008, eventually leading groups of up to 40 people. I've also been advising managers, executives, and entrepreneurs on how to better manage remote teams since 2020. What's inside? How to delegate effectively as a remote manager How to foster trust and collaboration How to run online meetings How to onboard new team members How to address a lack of improvement How to communicate clearly over video calls and emails How to coach your people to become effective remote workers What's not inside? Anything that could be better asked to: a lawyer (e.g., remote employment laws), a recruiter (e.g., where to find remote talent), or an IT specialist (e.g., how to troubleshoot your video call software). Some of my principles It's not about the tools but how they are used. Project management software, team meetings, one-on-ones... any management tool can bring clarity and effectiveness in the hands of a great manager or become a nuisance in the hands of a poor manager. In this book, I won't recommend any specific tool but will rather teach you how to delegate and manage well regardless of the tool used. If your people don't trust you, they won't work full-heartedly on the tasks you assign them, no matter how good your delegation skills are, and they will react defensively to your feedback, no matter how well given. Hence, online more than ever, it's critical to build trust as a manager. This book will teach you how. The less clear you are during delegation, the more likely there will be a discrepancy between your people's output and the output you would

have wanted them to produce. Any discussion you have after the discrepancy will be frustrating for both parties involved. But not having any discussion would also be bad, both for you and your report. The solution to prevent this lose-lose situation is to be extremely clear during delegation, before it seems necessary. This book will explain to you how. Some quotes from the book Clarity is not micromanagement, but lack of clarity is lack of management. People only voice a fraction of their doubts. The rest shows up later as indecisiveness, inefficiency, and ineffectiveness. Employees love it when their manager, while delegating a task, makes explicit what would be too little and what would be too much. Don't aim to be clear enough so that you can be understood, but aim to be so clear that you cannot be misunderstood. That's superclarity. Explain to each employee what abstract company objectives mean for them individually. If you feel awkward while giving negative feedback to your subordinates, it's probably because you believe the root cause of their mistake is an inadequacy of yours. Unless you demonstrate to your subordinates that you are competent and trustworthy and have their best interests at heart, they won't perceive your feedback as helpful, no matter how well you give it to them. The more you reward efforts without results, the more your people will focus on efforting rather than achieving. Every time your actions demonstrate you are a fair, helpful, and effective manager, you build trust. And every time you waste your subordinates' time, effort, or proactiveness, you break trust. During one-on-ones, spend at least 3 minutes discussing something more long-term: career growth, skill growth, sources of fatigue and frustration, etc

More Sales, Less Time Jill Konrath,2016 Salespeople face intense, unremitting, psychological pressure. If they don't sell, they don't eat. Jill Konrath, author of Agile Selling and other well-regarded sales manuals, conducted extensive secondary research on the most effective time-management and productivity techniques for salespeople. She reviewed and analyzed the work of neuroscientists, psychologists, time-management experts, cognitive behavioral specialists, psychiatrists, sleep researchers and business innovators. Here, she synthesizes and presents - perhaps a bit repetitiously - her extensive, practical findings. getAbstract recommends her productivity strategies to salespeople, account executives, entrepreneurs, consultants, sales support personnel and businesspeople.

Online Meetings that Matter Pilar Orti, As an increasing number of organisations enable their employees to work from anywhere and as the number of distributed companies grows, online meetings are part of business as usual. While the trend in the office space has been to cut down on meetings to increase productivity, remote teams can benefit from a healthy meeting rhythm. During online meetings we can celebrate our humanity and spontaneity - and we can iron out those misunderstandings that

creep in when our communication is restricted to the written word. ONLINE MEETINGS THAT MATTER is a guide for managers of remote teams and those introducing online collaborations practices. With a focus on strengthening the relationships between team members and using technology to support your team's work, this book covers a range of ways in which members of remote teams can gather in the online space, as well as how individuals can prepare to make the most out of their valuable time together. This is a practical book that will help managers and their teams reconsider not just how they run their meetings, but their whole approach to online collaboration. Drawing on the wealth of many years of experience in the remote space, Pilar Orti, the founder of Virtual Not Distant, distills her knowledge of running online meetings and coaching managers to do the same, in this actionable and straightforward guide. Still wondering if this book is for you? This book is for you if you are the manager or leader of a non-colocated team, where working schedules overlap for several hours, ideally by no less than four. You might be making the transition to flexible working or 'agile working', and finding that your usual meeting schedule and formats are no longer possible, because you cannot gather everyone together in the same room. You might be worried also about people's work becoming misaligned, losing team spirit, and people feeling disconnected from the work, the organisation and from one another – so you've moved some of your team meetings online. You might be a new manager, getting ready for your first online team meeting; you might be an aspiring manager, discovering what your job might entail. Or maybe you are a team member who understands the potential of online meetings, and wants to make sure your team makes the most out of them. You might even be a meeting facilitator or a coach, looking for ways to help teams and managers take ownership of their online meetings. And if you are someone who organises meetings for online communities, you will find aspects of this book relevant too. Finally, this book is for you if your team both needs and wants to gather together online. Some teams are happy to communicate on a one-to-one basis or through text, but if you think gathering together online as a team will help you to advance the work and create collaborative relationships, this book is for you.

Thinking Remote Pilar Orti,2019 A book for managers leading remote teams and for employees who want to make a difference. As more companies adopt remote, flexible or office optional practices, managers and team leaders realise that the transition to a new way of working involves more than making sure that everyone has the right equipment to be able to work from home. It requires a change in mindset and approach. In this collection of articles gathered together from the Virtual not Distant blog, Pilar Orti and Maya Middlemiss reflect on this transition from a change-management perspective,

drawn from their experience of working with leaders of distributed teams. Each article has been selected to cover one area of remote leadership practice and is followed by a set of leadership reflections to help you identify your next steps. Considering challenges from wellbeing to technology to communication, this series of articles will empower leaders at all levels to improve their personal practice and their team's performance.

The Street Savvy Sales Leader Mark Welch,2018-09-18 You are competing in a highly fragmented, highly competitive marketplace where decision makers are more knowledgeable, less risk averse, and busier than ever. As a result, making your numbers is tougher and more challenging than ever. You're trying to figure out how to get the attention of new customers and to add value along the sales process to close business. And you're coping with a potentially underperforming and unengaged sales team, despite investments in sales resources, such as training and technology, marketing content, CRM, and other tools to increase sales effectiveness. But you, like other sales leaders you talk with, are not getting the payoff from these investments. You see the data: • Businesses are spending more on training, but there is little correlation to ROI (ATD, 2015) • Without follow-up and coaching/mentoring, salespeople fail to retain 80% to 90% of what they learned in training within a month (Sales Alliance, 2014) • CRM holds a

Have Fun Working Remote Sheila Kennedy,2020-06-02 A Working Remote guide for both individual contributors and leaders. How to successfully create a work from home (WFH) program for everyone at any level. Essential for the times we're living in today. Working remote is not a new concept. Yet with today's growing popularity to allow employees to working from home, there is a need to address a few things. Many organizations are looking for the solutions to make this work. Many companies have tried without the success they had hoped to achieve. Addressing this challenge means addressing the remote team and leadership. Working remote saves money, increases productivity, tenure and moral. Working remote can be an amazing win-win for everyone if done right. Have fun!

Remote Cooperation: CSCW Issues for Mobile and Teleworkers Alan J. Dix,Russell Beale,1996-10-18 We are constantly being told we are living in a shrinking world, but for many the opposite seems to be the case. Our work is increasingly being done out of the traditional office environment: whilst traveling, at clients' premises or at home. We are living further from where we work and we work for global organizations and our colleagues and contacts may be in different countries or

different continents. At the same time our lives are more and more dependent on constant access to information and one another, but our connectivity whilst on the move or at home is often far less efficient than that of the fixed office. How do we work cooperatively when we are so far apart?

Slides for Students Gary D. Fisk,2018-10-16 300 million powerpoint presentations are given daily, yet there is a disconnect between the amazing technology of powerpoint and a mediocre student learning experience. To unleash the full potential of powerpoint presentations, we must do a better job of creating presentations that fit the educational needs of students. Slides for Students does just that.Slides for Students is an open and honest discussion about powerpoint in the classroom. A need exists for thoughtfully designed and implemented classroom instruction that focuses on the learner rather than on the technology. This book was written to translate academic research findings into practical suggestions about powerpoint that educators can use. Divided into two parts, Slides for Students discusses the history of powerpoint, explores academic studies on the topic, and demonstrates how to design slides to best suit educational needs and engage with students to avoid the dreaded death by powerpoint.

University X: How to rescue a college brand from bland. , Higher education is one of the most intimidating industries in marketing today. Decreasing enrollments, spiking tuitions, and soft job markets have made it more challenging than ever to promote the value of a college education. And while there's no shortage of fat, expensive books on the subject, there doesn't seem to be many answers to the questions people tasked with promoting their schools are faced with every day. Until now. University X offers real, actionable advice for marketers in higher ed to create stronger brands, develop smarter strategies, and get the most out of their budgets. Free of boring theory and vague advice, the book provides a lively, accessible, and straight forward look at the things marketers can do today to improve their school's marketing campaign tomorrow.

The Remote Worker's Survival Guide Esther Schindler,2016 Telecommuting is an incredible way to work, especially for programmers and other tech workers. Besides the advantages of working from your own home (and avoiding rush hour), remote work offers independence, flexibility, and more control over your work environment. But it definitely has its challenges and tradeoffs. This report is packed with advice to help you make a success of telecommuting, whether you're an individual telecommuter, a team member, or a manager. Author Esther Schindler explains that successful telecommuting requires good communication skills, trust among colleagues, and shared dedication to

accomplishing team goals. With this report, you'll learn to address two main challenges: how to organize your own life as a telecommuter, and how to work as part of a larger team. Manage your telecommuting life: create your own office space and give structure to your day Beat the workaholic syndrome so common with remote workers Define firm on the job times while making family a part of your daily routine Make yourself visible: stay in sync with colleagues through frequent and clear communication Find ways to collaborate with your team, including brainstorming sessions Deal with common technology problems you're likely to encounter...
