The Great Book of Cleveland Sports Lists Bill Livingston, Greg Brinda, 2008-12-16

Sports talk in America has evolved from small-time barroom banter into a major media smorgasbord that runs 24/7 on TV and radio. With hundreds of billions of dollars generated annually by pro and college teams in major markets nationwide, sports fans across the country are more dedicated than ever to their teams. And when it comes to sports talk—especially all-sports radio—it’s all about entertainment, information, prognostication, analysis, rankings, and endless discussion. Prominent sports-media figures in each of the three target cities—Cleveland, Detroit, and Washington, D.C.—engage in this phenomenon with a compilation of sports lists sure to delight as well as stir up debate within these already-buzzing sports communities. List topics include: • What were the most lopsided trades in local sports history? • Who were the most overrated athletes to play in our town? • What local athlete had the best appearance in TV or film? • What was the most heartbreaking loss in local sports history? • What was the greatest single play in local sports history? • Who are our team’s most hated rivals? • Plus dozens of “guest” lists contributed by famous local sports and entertainment celebrities. With franchises in three of the four major pro sports—the Browns (NFL), the Indians (MLB), and the Cavaliers (NBA)—plus a dedicated following of the Ohio State University athletics, Cleveland’s fans are some of the most rabid and knowledgeable in the country, and Bill Livingston and Greg Brinda are the acknowledged authorities on Cleveland-area sports.

Live Sports Media Dennis Deninger,2022-01-27 In Live Sports Media: The What, How and Why of Sports Broadcasting, Dennis Deninger provides an all-encompassing view of the sports television industry from his own perspective as an Emmy Award-winning producer at ESPN, at a time of seismic shifts in the industry. Technological advances and the proliferation of sports content across multiple media platforms have increased accessibility to sports events of all kinds across the world. Shifts in viewing habits and audience preferences are changing the dynamic of sports media and the sports industry as a whole. The result: more power for some sectors and diminished power for many others, to which professionals in the field need to rapidly adapt. This second edition has been substantially updated to explore the impact of COVID-19 disruptions on sports and the growth of women's sports broadcasting and evolving sports, as well as political statements made in sports: Black Lives Matter, and taking a knee. It illustrates the origins, impact, reach, economics, production, and presentation of sports on video media – including, but not limited to, television. It takes the reader behind the scenes to describe the forces and processes that have shaped and continue to change sports content, its delivery, and how it connects with fans. Dennis Deninger draws from his experiences as an expert in the

industry to expose how the choices and decisions that are now being made affect the programming, content, storytelling, production, advertising, and delivery of the sports broadcasting that we will see next season and how it will evolve in the years to come. This practical, entertaining book provides insights into sports broadcasting that sports management, media, and journalism students and learning practitioners will not find anywhere else.

Sports Nicknames Terry W. Pruyne, 2002 When did Michael Jordan become Air Jordan? How did Earvin Johnson come to be known as Magic? Why is Juan Rodriguez called Chi Chi? These questions are answered in this reference work featuring about 20,000 nicknames of professional athletes from around the world. Part One is subdivided into sections for each sport; baseball, basketball, football, hockey and miscellaneous sports (mainly individual sports or ones not listed in the four main sections)--under which entries are alphabetized by players' given names. The entries in Part One tell the player's position, team, year of retirement, and--in as many instances as extensive research could afford--how the player got his or her nickname. Part Two offers the opposite access alphabetized by nickname and giving players' names and their sport.
