Unicorn Letter and Number Tracing Book Left Handwriting Amanda Clever, 2020-11-09 Consider the particular needs of your left-handed child, and remove the obstacles from learning to write! The ultimate workbook for learning letters and numbers with unicorns - just for left-handers! Left-handed children have a bit of a challenge in school, since writing numbers with the left hand is more difficult than with the right. They often feel the

urge to write from right to left (mirror writing), and very few elementary school teachers are trained in educating left-handed children. Thus, it's helpful for left-handers to begin learning to write numbers even before they start school, and they should be encouraged to do so. It doesn't get easier than this... Developed specifically for left-handed children, this pre-school workbook effectively helps your child write with their left hand. Customized writing direction: It is much easier for left-handers to write vertical strokes downward and horizontal strokes from right to left. Optimized layout: The letters and numbers are shown on both the left and right sides of every line. This allows the letters and numbers to stay visible and not be covered by the left hand. Unicorn fun: Who says learning letters and numbers has to be boring? Our fun, educational, early-learning workbook guarantees your child will have fun preparing for school. And best of all? You can cater to your child's special requirements, offer them a cognitive head start, and promote their intellectual development - all while having fun.
