**Peetz** Douglas F. W. Pollard,1997 Doug Pollard tells the story of a remarkable 70-year-old company whose name is synonymous with the West Coast fishery from California to Alaska. This book traces the evolution of sport fishing for salmon in the legendary waters off Vancouver Island. Pollard's narrative shows how the fortunes of the company, Canada's most successful tackle maker, are tied to the fortunes of the fishery. Boris C. Peetz, a Russian-born silversmith, arrived in Victoria, BC, in 1911 and built his first reels a decade later. By 1935 the BC Peetz Manufacturing Company had fishing reels and swivels as its main line of business. The company diversified into tackle and whole-cane rods, but it was its handmade wood and brass Peetz fishing reels that became North American classics. The tough, uncomplicated design of the Peetz reel has enabled it to stand the test of time. Doug Pollard, a respected environmentalist, avid fisherman and keen historian, portrays the Peetz reel in musical terms as he describes the song that comes with the strike of a fish. He writes convincingly of the pleasures to be found in restoring classic reels and reminds us that simple tackle can balance

the enjoyment of fishing and conservation. Written in the spirit of Roderick Haig-Brown and carefully researched, Peetz, A Reel for All Time was written for all anglers, history buffs, collectors and conservationists.

**Principles of Behavioural Analysis** Julian C. Leslie, 2013-10-28 First published in 1996. The field of behavior analysis began with the research studies of B.F. Skinner in the 1930s. In 1950, Keller and Schoenfeld published Principles of Psychology. It was the first text to present the basic principles of behavior analysis in a systematic fashion. While continuing to cite and describe the seminal articles in the field, in this book Leslie also includes clear presentations of new findings. The systematic presentation of these findings enables the author to provide laboratory based accounts of increasingly complex forms of human behavior, instead of plausible extrapolations which were the only option available at an earlier time. The Principles of Behavior Analysis does not sacrifice sweep for detail, and also does not sacrifice adequate presentation of basic principles for oversimplification.

It is anticipated that the book will support students, trainees, and newly qualified Assistive Technology Practitioners to develop their understanding of the field, by considering the variables that could potentially influence the decision-making process when assessing for and providing this equipment. It also provides a reference point for those already practicing in this field and offers coverage of a broader range of technologies than clinicians may be exposed to, in their daily work This is the first reference book to focus on a comprehensive set of electronic assistive technologies and discuss their clinical application. **Write This Way** Gavin Reid, Jenn Clark, Michelle McIntosh, 2024-02-29 Many children avoid writing for a number of reasons – perhaps they find it tedious or frustrating, or perhaps they have dyslexia or dysgraphia. This structured programme of writing activities and lessons makes writing engaging and accessible for reluctant writers, by encouraging primary teachers and learners to work together to develop children's writing skills. The book covers all aspects of primary school writing, including grammar, sentence development, punctuation, paragraph writing and planning. It also shows teachers how to develop self-sufficiency skills in writing and encourage learner independence. Each section in the book builds on previous skills learned, from word level up to creative writing skills, providing pupils with a complete range of writing tools. The ready-to-use resources for each topic - including mini lessons, discovery tools and activities - offer extensions and adaptations to suit all pupil needs, including fun ideas for multisensory learning, group interventions or to keep pupils learning outside of the classroom. For school staff working with children who find writing challenging, this practical toolkit provides a range of activities based on solid research and hands-on experience that can be incorporated straight

into lessons and teaching practices.
