*Climbing out of the Rabbit Hole* Terry Woods,2005-09-16 Just like Alice in Wonderland, Michael lives in a crazy world. As a drug addict, he has tried to climb out of the rabbit hole for many years. His struggle to overcome his addiction becomes a journey for all of us. Michaels letters from prison unfold like episodes in a reality show. His sponsor is our hero. Bobs tough-love letters and guidance show us what most people fail to do in recovery and what causes them to relapse. We are there, watching Michael build the courage to put the not-so-easy Twelve Steps into action. Fortunately, we are also there when he finds his way out of the rabbit hole.

Climbing Out of Depression Sue Atkinson,2005 Presents practical advice and activities to help readers overcome depression.

*Climbing Out of Depression* Sue Atkinson,2011-08-10 Being depressed often leaves you feeling paralysed into inaction. Climbing back out of the pit of gloom seems almost impossible. You need help, and that is what this book offers - practical, humane and spiritual help. Sue Atkinson has suffered years of depression herself. She does not write as an expert on depression or as a depression counsellor, but as someone who knows the feelings from close personal experience. As a result, her book contains a varied menu of hints, quotations and illustrations, not page after page of unbroken text. This is a book to dip into as fits your mood and need, making a dependable guide to the climb.

**Climbing Out of the Pit** Kelly Martin,2020-03-02 One who looks for the potential in each individual, Kelly Martin in this biography of his own life's struggles shares the thoughts and feelings of one who is striving for achievement. Each one of us, on this planet we call earth, is on a journey, one on which there are unknown roadblocks along the way. Wrought with unmarked intersections or splits in the road, there are also many decisions one must make, some of those emerging as major setbacks to progress if the wrong path is taken. There are pits along the road waiting to swallow the careless or the unwary. To live life in the role of a flight instructor, one must regularly deal with the challenges of weather and maintain a high sense of survival, as well as learn to deal with many different personalities. Having piloted airplanes in more than forty-five different countries, Mr. Martin has met many people of a diverse number of backgrounds. He believes that everybody has a story to tell and that each individual can climb out of whatever pit they might find themselves in. They can achieve their goals, given the necessary encouragement along the way. We each have our battles to fight. In this book, he takes us back to a famous battle that occurred during World War II, paralleling life's challenges with the survival of one participant of that battle. Firmly believing that God has a worthwhile purpose for every one of His children, Mr. Martin emphasizes the human connection that each one of us needs and that technology will never be able to replace.

Climb Away! Deborah Parks,1996 Against nearly overwhelming odds, the author relates how she -- a 5'3, 110 -- pound woman with little climbing experience--tackled and conquered some of the world's most intimidating mountains. **The Index Town Walls** Chris Kalman,Matty Van Beine,2021

**The Sharp End of Life** Dierdre Wolownick,2019-04-01 Wife and mother. Teacher and musician. Marathoner and rock climber. At 66, Dierdre Wolownick-Honnold became the oldest woman to climb El Capitan in Yosemite--and in *The Sharp End of Life: A Mother's Story*, she shares her intimate journey, revealing how her climbing achievement reflects a broader story of courage and persistence. Dierdre grew up under the watchful eyes of a domineering mother and realized early on that her parents' plans for her future weren't what she wanted for herself. Later, what seemed like a storybook romance brought escape, with new experiences and eye-opening travel, but she quickly discovered that her husband was not the happy-go-lucky man he had first appeared. Adapting as best she could, Dierdre juggled work and raising two young children, encouraging them to be fearlessly confident. She noted with delight how her "little lady" Stasia took it upon herself to look out for her baby brother, and watched in amazement as Alex (Honnold of *Free Solo* fame) started climbing practically before he could crawl. After years of struggle in her marriage and her ultimate divorce, Dierdre found inspiration in her now-adult children's passions, as well as new depths within herself. At Stasia's urging, she took up running at age 54 and soon completed several marathons. Then at age 58, Alex led her on her first rock climbs. A world of friendship and support suddenly opened up to her within the climbing "tribe," culminating in her record-setting ascent of El Cap with her son. From confused young wife and busy but lonely mother to confident middle-aged athlete, Dierdre brings the reader along as she finds new strength, happiness, and community in the outdoors--and a life of learning, acceptance, and spirit.

A Youth Wasted Climbing David Chaundy-Smart,2015 Shortlisted for the 2015 Banff Mountain Film and Book Festival award for Mountain & Wilderness Literature. David Chaundy-Smart took it as a compliment when his high school vice-principal told him he was wasting his youth by climbing. Here, he tells the story of how he and his brother, Reg, spent the last years of the 1970s fighting suburban boredom to become, in the words of renowned climbing historian Chic Scott, one of the leading figures in Ontario rock climbing throughout the 1980s. With its vivid accounts of short and nasty climbs, dubious mentors, hapless climbing partners, teenage crushes, bad cars, underage drinking and questionable climbing techniques, this is a memoir of coming of age in a simpler era of climbing, told with compassion, humour and insight.

Climbing California's Fourteeners Stephen Porcella,Cameron M. Burns,1998 California's 14,000-foot peaks are altogether different from those in Colorado or Washington. In most cases they are steep, sheer-walled spires found in remote, pristine wilderness areas. Porcella and Burns have spent years climbing many of the listed routes and have extensively researched all others to create the only route guide that includes several options for each fourteener. Each mountain description includes access, history, and details such as difficulty ratings and gear recommendations.

**Rock-climbing in the English Lake District** Owen Glynne Jones,1897

**9 Out of 10 Climbers Make the Same Mistakes** Dave MacLeod,2009-11 9 out of 10 climbers are stuck. They are stuck on the same things. Some of the things that hold climbers back from improving their climbing standard are the same as they were twenty years ago: motivation, managing time, and not being able to analyse and correct their own basic technical or tactical errors. But they are also stuck for a new set of reasons. Twenty years ago, the problem was that no one knew how to train for climbing. Information was scarce and couldn't travel fast among the participants. Today, it's the opposite problem. Book after book lists techniques for climbing, exercises for climbing, tips for climbing. Navigating this barrage of information, filtering out the irrelevant and homing in on what matters to your life, your climbing and your circumstances has been the limiting step for today's climber.-- Page 4 of cover.
