Atlas and the Winds Eric Michael Craig,2020-02-11 Mankind is out of options, and time is running out. Colton Taylor is an eccentric industrialist whose corporate empire of Stormhaven spans the world with a vast array of manufacturing and technological holdings. With operations in robotics and the ultra-high tech of a dozen fields, Taylor has cultivated a think-tank community unrivaled anywhere on Earth. When an astronomer working under a grant from Stormhaven makes a terrifying discovery, Taylor and his technological empire find themselves locked into a collision course with the US Government. Forcing their way into the arena of international politics, Taylor struggles to leverage the corporate might of Stormhaven into a position to give civilization any hope of survival against an almost inevitable global catastrophe. Conflicts explode on Earth and the lunar surface, yet somehow, Taylor and Stormhaven must rise above the chaos and find a way to keep the peace as all of civilization descends toward the abyss. Together they must find a way to survive as humanity hangs on the precipice of doomsday. An end of the world epic with real science to back it up.

Prometheus and the Dragon Eric Michael Craig,2016-05-30 Mankind is out of options, and time is running out. After America's Hammerthrow fails President Hutton launches Project Prometheus, while the Chinese continue their relentless march to test and deploy their super-warhead. Even a partial success of either mitigation mission would leave the other unable to defend the earth. Political tension flashes as both sides race to challenge the relentless wheelwork of the universe. With their array of advanced technologies, Colton Taylor and Stormhaven cannot avoid becoming the final peacekeepers in a shooting war between the two superpowers. Conflicts explode on the lunar surface while all of humanity hangs on the precipice of doomsday. Pick up Prometheus and the Dragon, to take a wild ride across an uncharted political landscape, and the unforgiving lunar wasteland.

Rule Number 5 Ben Weinberg,2007-03-01 If you could fix anything about your world, if you could make it perfect?what would you do? Get a haircut? Lose those love handles? Squelch that vague feeling that you can't quite put into words until you glance around your house, your life, your universe and she isn't there any more and for some reason, you wish you were dead. But she is alive. You own a gun. You have Navy SEAL training. You know The Rules. And you know who to blame. That change you want?nothing's stopping you.
