## **Midnight in the Garden of Good and Evil** John

Berendt, 1994-01-13 NATIONAL BESTSELLER • A modern classic of true crime, set in a most beguiling Southern city—now in a 30th anniversary edition with a new afterword by the author “Elegant and wicked . . . might be the first true-crime book that makes the reader want to book a bed and breakfast for an extended weekend at the scene of the crime.”—The New York Times Book Review Shots rang out in Savannah’s grandest mansion in the misty, early morning hours of May 2, 1981. Was it murder or self-defense? For nearly a decade, the shooting and its aftermath reverberated throughout this hauntingly beautiful city of moss-hung oaks and shaded squares. In this sharply observed, suspenseful, and witty narrative, John Berendt skillfully interweaves a hugely entertaining first-person account of life in this isolated remnant of the Old South with the unpredictable twists and turns of a landmark murder case. It is a spellbinding story peopled by a gallery of remarkable characters: the well-bred society ladies of the Married Woman’s Card Club; the turbulent young gigolo; the hapless recluse who owns a bottle of poison so powerful it could kill every man, woman, and child in Savannah; the aging and profane Southern belle who is the “soul of pampered self-absorption”; the uproariously funny drag queen; the acerbic and arrogant antiques dealer; the sweet-talking, piano-playing con artist; young people dancing the minuet at the black debutante ball; and Minerva, the voodoo priestess who works her magic in the graveyard at midnight. These and other Savannahians act as a Greek chorus, with Berendt revealing the alliances, hostilities, and intrigues that thrive in a town where everyone knows everyone else. Brilliantly conceived and masterfully written, *Midnight in the Garden of Good and Evil* is a sublime and seductive reading experience.

## **All American Boys** Jason Reynolds, Brendan

Kiely, 2015-09-29 A 2016 Coretta Scott King Author Honor book,

and recipient of the Walter Dean Myers Award for Outstanding Children's Literature. In this New York Times bestselling novel, two teens—one black, one white—grapple with the repercussions of a single violent act that leaves their school, their community, and, ultimately, the country bitterly divided by racial tension. A bag of chips. That's all sixteen-year-old Rashad is looking for at the corner bodega. What he finds instead is a fist-happy cop, Paul Galluzzo, who mistakes Rashad for a shoplifter, mistakes Rashad's pleadings that he's stolen nothing for belligerence, mistakes Rashad's resistance to leave the bodega as resisting arrest, mistakes Rashad's every flinch at every punch the cop throws as further resistance and refusal to STAY STILL as ordered. But how can you stay still when someone is pounding your face into the concrete pavement? There were witnesses: Quinn Collins—a varsity basketball player and Rashad's classmate who has been raised by Paul since his own father died in Afghanistan—and a video camera. Soon the beating is all over the news and Paul is getting threatened with accusations of prejudice and racial brutality. Quinn refuses to believe that the man who has basically been his savior could possibly be guilty. But then Rashad is absent. And absent again. And again. And the basketball team—half of whom are Rashad's best friends—start to take sides. As does the school. And the town. Simmering tensions threaten to explode as Rashad and Quinn are forced to face decisions and consequences they had never considered before. Written in tandem by two award-winning authors, this four-starred reviewed tour de force shares the alternating perspectives of Rashad and Quinn as the complications from that single violent moment, the type taken directly from today's headlines, unfold and reverberate to highlight an unwelcome truth.

**Life 3.0** Max Tegmark, 2017-08-29 New York Times Best Seller How will Artificial Intelligence affect crime, war, justice, jobs, society and our very sense of being human? The rise of AI has the potential to transform our future more than any other technology—and there's nobody better qualified or situated to explore that future than Max Tegmark, an MIT professor who's helped mainstream research on how to keep AI beneficial. How can we grow our prosperity through automation without leaving people lacking income or purpose? What career advice should we give today's kids? How can we make future AI systems more robust, so that they do what we want without crashing, malfunctioning or getting hacked? Should we fear an arms race in lethal autonomous weapons? Will machines eventually outsmart us at all tasks, replacing humans on the job market and perhaps altogether? Will AI help life flourish like never before or give us more power than we can handle? What sort of future do you want? This book empowers you to join what may be the most important conversation of our time. It doesn't shy away from the full range of viewpoints or from the most controversial issues—from superintelligence to meaning, consciousness and the ultimate physical limits on life in the cosmos.

**Deadline** Chris Crutcher, 2009-04-21 Ben Wolf has big things planned for his senior year. Had big things planned. Now what he has is some very bad news and only one year left to make his mark on the world. How can a pint-sized, smart-ass seventeen-year-old do anything significant in the nowheresville of Trout, Idaho? First, Ben makes sure that no one else knows what is going on—not his superstar quarterback brother, Cody, not his parents, not his coach, no one. Next, he decides to become the best 127-pound football player Trout High has ever seen; to give his close-minded civics teacher a daily migraine; and to help the local drunk clean up his act. And then there's Dallas Suzuki. Amazingly perfect, fascinating Dallas Suzuki, who may or may not give Ben the time of day. Really, she's first on the list. Living with a secret isn't easy, though, and Ben's resolve begins to crumble . . . especially when he realizes that he isn't the only person in Trout with secrets.

Everything Nice Lannie Rose, 2009-01-08 Most coming-of-age stories are about teenagers, but not this one. Eddy's coming-of-age hardly starts until he's 35 years old, when he discovers a penchant for wearing women's clothes. It takes him ten more exciting and very weird years before he figures out he really should have been a girl all along. After the sex change, Eddy, now Lannie, has to build a whole new life as a woman. The hard part was going to be finding a man to love her. While Everything Nice is YATA - Yet Another Transgender Autobiography - it brings to the genre an honesty about relationships and sex before and after gender transition; a hard look at the dating scene from a transsexual point of view; and the unique sense of humor Lannie

demonstrated in *HOW THE CHANGE YOUR SEX* and *LANNIE! MY JOURNEY FROM MAN TO WOMAN*. If you only read one transsexual autobiography this year, *Everything Nice* is the one you want to choose.

*South of Broad* Pat Conroy, 2009-08-11 #1 NEW YORK TIMES BESTSELLER • “A big sweeping novel of friendship and marriage” (The Washington Post) by the celebrated author of *The Prince of Tides* and *The Great Santini* Leopold Bloom King has been raised in a family shattered—and shadowed—by tragedy. Lonely and adrift, he searches for something to sustain him and finds it among a tightly knit group of outsiders. Surviving marriages happy and troubled, unrequited loves and unspoken longings, hard-won successes and devastating breakdowns, as well as Charleston, South Carolina’s dark legacy of racism and class divisions, these friends will endure until a final test forces them to face something none of them are prepared for. Spanning two turbulent decades, *South of Broad* is Pat Conroy at his finest: a masterpiece from a great American writer whose passion for life and language knows no bounds. Praise for *South of Broad* “Vintage Pat Conroy . . . a big sweeping novel of friendship and marriage.”—The Washington Post “Conroy remains a magician of the page.”—The New York Times Book Review “Richly imagined . . . These characters are gallant in the grand old-fashioned sense, devoted to one another and to home. That siren song of place has never sounded so sweet.”—New Orleans Times-Picayune “A lavish, no-holds-barred performance.”—The Atlanta Journal-Constitution “A lovely, often thrilling story.”—The Dallas Morning News “A pleasure to read . . . a must for Conroy’s fans.”—Associated Press

*Perfecting the Cast* Ed Jaworowski, 2021-02 In *Perfecting the Cast*, acclaimed casting expert Ed Jaworowski teaches the first few things that all casts have in common—the four principles of casting—and then shows how to apply those fundamentals in endless ways so that whatever fishing situation, the fly fisher has

an understanding of how casting works and what needs to happen to make the cast and get the fish.

**The Piazza** Herman Melville, 2014-06-03 When the narrator decides to build a piazza at his new country home, his neighbours are amused when he decides to construct it on the north-facing side of his property. But the narrator is content, and when his view provides a glimpse of silver gleaming in the distance, he is convinced that his piazza provides a view of fairyland, and he decides to discover what lies in the distant mountains. "The Piazza" was written as an introduction to Herman Melville's 1856 collection *The Piazza Tales* and was the only work in the collection that was not published individually before the book's release. Much like his masterpiece *Moby-Dick*, *The Piazza Tales* did not sell well during Melville's lifetime, but has been met with high critical acclaim and academic attention since his death. HarperPerennial Classics brings great works of literature to life in digital format, upholding the highest standards in ebook production and celebrating reading in all its forms. **Danger to Self** Paul Linde, 2010-01-07 The psychiatric emergency room, a fast-paced combat zone with pressure to match, thrusts its medical providers into the outland of human experience where they must respond rapidly and decisively in spite of uncertainty and, very often, danger. In this lively first-person narrative, Paul R. Linde takes readers behind the scenes at an urban psychiatric emergency room, with all its chaos and pathos, where we witness mental health professionals doing their best to alleviate suffering and repair shattered lives. As he and his colleagues encounter patients who are hallucinating, drunk, catatonic, aggressive, suicidal, high on drugs, paranoid, and physically sick, Linde examines the many ethical, legal, moral, and medical issues that confront today's psychiatric providers. He describes a profession under siege from the outside—health

insurance companies, the pharmaceutical industry, government regulators, and even patients' rights advocates—and from the inside—biomedical and academic psychiatrists who have forgotten to care for the patient and have instead become checklist-marking pill-peddlers. While lifting the veil on a crucial area of psychiatry that is as real as it gets, *Danger to Self* also injects a healthy dose of compassion into the practice of medicine and psychiatry.

Handbook of Smart Homes, Health Care and Well-Being Joost van Hoof, George Demiris, Eveline J.M. Wouters, 2016-03-14 Smart homes, home automation and ambient-assisted living are terms used to describe technological systems that enrich our living environment and provide means to support care, facilitate well-being and improve comfort. This handbook provides an overview of the domain from the perspective of health care and technology. In Part 1, we set out to describe the demographic changes in society, including ageing and diseases and impairments which lead to the needs for technological solutions. In Part 2, we describe the technological solutions, ranging from sensor-based networks, components, to communication protocols that are used in the design of smart homes. We also deal with biomedical features which can be measured and services that can be delivered to end-users as well as the use of social robots. In Part 3, we present best practices in the field. These best practices mainly focus on existing projects in Europe, the USA and Asia, in which people receive help through dedicated technological solutions being part of the continuum of the home environment and care.

**Adventures of a Currency Trader** Rob Booker, 2010-12-28 Praise for *ADVENTURES of a CURRENCY TRADER* A truly easy, unique, and enjoyable read! Rob has done it once again to teach us in the funniest way possible how not to make the most common trading mistakes. If you are tired of reading how-to books, this is perfect for you. I highly recommend this book to all traders.

Everyone will learn something about themselves by reading this book. —Kathy Lien, author, Day Trading the Currency Market, and Chief Strategist, [www.dailyfx.com](http://www.dailyfx.com) Adventures of a Currency Trader is a must read for anyone who has ever traded or is thinking about trading in the Forex markets. Rob Booker has a unique way of taking years of market knowledge and transforming it into an educational and entertaining experience. It has quickly become a cult classic in my trading library! —H. Jack Bouroudjian, Principal, Brewer Investment Group Brilliant! Rob's humor and humanity shine through in this parable about trading and life. Filled with wisdom and wit, it's an exhilarating rollercoaster ride through the peaks and valleys of the learning curve, with many valuable lessons learned along the way. —Ed Ponsi, President, FXEducator.com Rob's fable of everyman 'Harry Banes' is destined to become a trading classic. This is both the missing piece and the foundation that comes before the strategies and methodologies. The search for the Holy Grail begins and ends in the heart and mind. The journey is authentic and real and if you're willing to take it with Rob, you will be rewarded in the end. Seldom has psychology and wisdom been so entertaining! —Raghee Horner, trader and author of Forex Trading for Maximum Profit and Days of Forex Trading In a series of insightful and entertaining vignettes, Rob Booker teaches both the novice and the experienced trader some hard won truths about the currency market. It's a must read book written by a guy who survived the trenches and went on to prosper in the biggest and most competitive financial market in the world. —Boris Schlossberg, Senior Currency Strategist, Forex Capital Markets LLC, and author of Technical Analysis of the Currency Market

**The Body in Pain: The Making and Unmaking of the World** Elaine Scarry,1985-09-26 Part philosophical meditation, part cultural critique, The Body in Pain is a profoundly original study that has already stirred excitement in a wide range of

intellectual circles. The book is an analysis of physical suffering and its relation to the numerous vocabularies and cultural forces--literary, political, philosophical, medical, religious--that confront it. Elaine Scarry bases her study on a wide range of sources: literature and art, medical case histories, documents on torture compiled by Amnesty International, legal transcripts of personal injury trials, and military and strategic writings by such figures as Clausewitz, Churchill, Liddell Hart, and Kissinger. She weaves these into her discussion with an eloquence, humanity, and insight that recall the writings of Hannah Arendt and Jean-Paul Sartre. Scarry begins with the fact of pain's inexpressibility. Not only is physical pain enormously difficult to describe in words--confronted with it, Virginia Woolf once noted, language runs dry--it also actively destroys language, reducing sufferers in the most extreme instances to an inarticulate state of cries and moans. Scarry analyzes the political ramifications of deliberately inflicted pain, specifically in the cases of torture and warfare, and shows how to be fictive. From these actions of unmaking Scarry turns finally to the actions of making--the examples of artistic and cultural creation that work against pain and the debased uses that are made of it. Challenging and inventive, *The Body in Pain* is landmark work that promises to spark widespread debate.

*Beyond the Big Run* Darrell Lewis,Charlie Schultz,2002

Outback life as experienced by the legendary station-owner Charlie Schultz. His stories are set against the colourful characters and events of the Victoria River district - the stockmen and station managers, horse thieves and police, and more - a way of life that is now gone forever.

**Peppered Minds** Om Somani,2020-02-18 Peppered Minds is about the journey of a young geologist, Neeraj, beginning his professional life. His imaginative mind conjures up a thesis presented on a brainstorming session for the welfare of his

countrymen and the nation. The book provides an interesting insight to explain blatant problems that contribute to the lack of innovation, misconduct and all kinds of frenzy we see around today. The writing of the book is a lighthearted account of the protagonist, Neeraj, brought up in a conservative middle-class god-fearing family, who travels from Jaipur to Hyderabad to start his professional life as a geologist. The story depicts his bitter and heartening experiences, be it meeting an astrologer, making a railway reservation, going on a rail journey from Jaipur, joining up at his new office in Hyderabad or eventually completing a successful geological expedition in the wild. Neeraj's tryst with the various characters along his brief journey brings to light the mind set, personal traits, beliefs and culture of a vast cross section of the ordinary public that span age groups ranging from the child to the octogenarian. The book depicts several interplays of events that envelope the geologists in the office as well as in the field. One of the momentous events that overwhelms Neeraj is his meeting with the Moon and learning of the unbelievable history of human existence on earth. There are also hilarious episodes, including the one which describes the use of kerosene as the basic material for nuclear research.
