**Creature Camp** Wendi Gratz,Jo Gratz,2013-10-01 By a mother and daughter duo: “a bit of a ‘learn to sew’ book for children . . . provide[s] ample inspiration without intimidation for young crafters” (Publishers Weekly). This collection of 18 skill-building projects teaches children with no sewing experience how to sew their very own cuddly pals. From sewing on buttons to putting in zippers, this guide walks kids step-by-step through various skill levels. They will learn to embroider, turn corners, and make curves with these fun designs. Multiple examples of each project encourage them to explore ideas. Featuring shapes, critters, and monsters that appeal to kids’ imagination, the projects build on skills and develop creativity. “Written for children by Wendi and her daughter Jo . . . a book of sewing basics focusing on creating fun stuffed creatures, and it’s suitable for new or experienced sewists ages 9 and up. It’s kid-tested and approved, because all of the sewing was done by 11-year-old Jo and her friends . . . With Christmas coming, I can’t think of a more perfect book for kids and grown-ups alike. There is just so much cuteness that needs to be stitched and gifted!”—Wild Olive Blog

**Handbook of American Private Schools** ,1927 This handbook aims to be a guide to the best private schools of the country. It has been undertaken with the parent especially in mind, but it is hoped that it may be of value to school and college authorities and all others interested in the subject. It is believed that this Handbook is the first volume which attempts a critical and discriminating treatment of the private schools of the country. It is an endeavor to classify the schools on their merits -- at least a step, it is hoped, toward eventual standardization. - Editor's foreword.
