**Strategies of the Warring States** Liu Xiang , The Zhan Guo Ce, also known in English as the Strategies of the Warring States, is an ancient Chinese text that contains anecdotes of political manipulation and warfare during the Warring States period (5th to 3rd centuries bc).[1] It is an important text of the Warring States Period as it describes the strategies and political views of the School of Diplomacy and reveals the historical and social characteristics of the period. The Zhan Guo Ce recounts the history of the Warring States from the conquest of the Fan clan by the Zhi clan in 490 BC up to the failed assassination of Qin Shi Huang by Gao Jianli in 221 BC. The chapters take the form of anecdotes meant to illustrate various strategies and tricks employed by the Warring States. With the focus thus being more on providing general political insights than on presenting the whole history of the period, there is no stringent year-by-year dating such as that found in the preceding Spring and Autumn Annals. Stories are sorted chronologically by under which ruler they take place, but within the reign of a single king there is no way to tell if the time elapsed between two anecdotes is a day or a year. The book comprises approximately 120,000 words, and is divided into 33 chapters and 497 sections.

*TV Drama in China* Ying Zhu,Michael Keane,Ruoyun Bai,2008-10-01 This collection of essays brings together the first comprehensive study of TV drama in China. Examining in depth the production, distribution and consumption of TV drama, the international team of experts demonstrate why it remains the pre-eminent media form in China. The examples are diverse, highlighting the complexity of producing narrative content in a rapidly changing political and social environment. Genres examined include the revisionist Qing drama, historical and contemporary domestic dramas, anti-corruption dramas, pink dramas, Red Classics, stories from the Diaspora, and sit-coms. In addition to genres, the collection explores industry dynamics: how TV dramas are marketed and consumed on DVD, and China's aspirations to export its television drama rights. The book provides an international and cross-cultural perspective with chapters on Taiwanese TV drama in China, the impact of South Korean drama, and trans-border production between the Mainland and Hong Kong.

state-society relations at the local level.

*After Confucius* Paul R. Goldin, 2017-04-01 *After Confucius* is a collection  
of eight studies of Chinese philosophy from the time of Confucius to the  
formation of the empire in the second and third centuries B.C.E. As detailed  
in a masterful introduction, each essay serves as a concrete example of  
"thick description"—an approach invented by philosopher Gilbert Ryle—which  
aims to reveal the logic that informs an observable exchange among members of  
a community or society. To grasp the significance of such exchanges, it is  
necessary to investigate the networks of meaning on which they rely. Paul R.  
Goldin argues that the character of ancient Chinese philosophy can be  
appreciated only if we recognize the cultural codes underlying the  
circulation of ideas in that world. Thick description is the best preliminary  
method to determine how Chinese thinkers conceived of their own enterprise.

Who were the ancient Chinese philosophers? What was their intended audience? What were they arguing about? How did they respond to earlier thinkers, and to each other? Why did those in power wish to hear from them, and what did they claim to offer in return for patronage? Goldin addresses these questions as he looks at several topics, including rhetorical conventions of Chinese philosophical literature; the value of recently excavated manuscripts for the interpretation of the more familiar, received literature; and the duty of translators to convey the world of concerns of the original texts. Each of the cases investigated in this wide-ranging volume exemplifies the central conviction behind Goldin's plea for thick description: We do not do justice to classical Chinese philosophy unless we engage squarely the complex and ancient culture that engendered it. **China's Thought Management** Anne-Marie Brady, 2012-02-06 China's Thought Management argues that by re-emphasizing and modernizing propaganda and

thought work since 1989, the CCP has managed to overcome a succession of local and national level crises - the Tiananmen Square protests of 1989, the impact of the collapse Socialism in the Eastern bloc, SARS, ethnic clashes in Tibet and Xinjiang, to name but a few - emerging re-strengthened and as dominant in Chinese society as ever. The contributors to this book address such crucial issues as the new emphasis on economic propaganda, the continued importance of the PLA propaganda system in China's overall propaganda work and political stability, how the CCP uses Confu-talk in its foreign and domestic propaganda, and new approaches to mass persuasion such as campaigns of mass distraction. Each chapter is a case study of the multiple ways in which the CCP has modified and adjusted its propaganda to reflect China's changed economic and political environment. Challenging readers to reconceptualise mainstream understandings of the CCP's hold on power and the means the CCP government adopts to maintain its authority to rule, this book will be invaluable reading for anyone interested in the Chinese media and Chinese politics.

**Ancient Chinese Thought, Modern Chinese Power** Yan Xuetong, 2013-08-25 From China's most influential foreign policy thinker, a vision for a Beijing Consensus for international relations The rise of China could be the most important political development of the twenty-first century. What will China look like in the future? What should it look like? And what will China's rise mean for the rest of world? This book, written by China's most influential foreign policy thinker, sets out a vision for the coming decades from China's point of view. In the West, Yan Xuetong is often regarded as a hawkish policy advisor and enemy of liberal internationalists. But a very different picture emerges from this book, as Yan examines the lessons of ancient Chinese political thought for the future of China and the development of a Beijing consensus in international relations. Yan, it becomes clear, is neither a communist who believes that economic might is the key to national power, nor a neoconservative who believes that China should rely on military might to get its way. Rather, Yan argues, political leadership is the key to national power, and morality is an essential part of political leadership. Economic and military might are important components of national power, but they are secondary to political leaders who act in accordance with moral norms, and the same holds true in determining the hierarchy of the global order.

Providing new insights into the thinking of one of China's leading foreign policy figures, this book will be essential reading for anyone interested in China's rise or in international relations.

**An Annotated Bibliography for Taiwan Film Studies** Jim Cheng, James Wicks, Sachie Noguchi, 2016-04-19 Compiled by two skilled librarians and a Taiwanese film and culture specialist, this volume is the first multilingual and most comprehensive bibliography of Taiwanese film scholarship, designed to satisfy the broad interests of the modern researcher. The second book in a remarkable three-volume research project, *An Annotated Bibliography for Taiwan Film Studies* catalogues the published and unpublished monographs,

theses, manuscripts, and conference proceedings of Taiwanese film scholars from the 1950s to 2013. Paired with *An Annotated Bibliography for Chinese Film Studies* (2004), which accounts for texts dating back to the 1920s, this series brings together like no other reference the disparate voices of Chinese film scholarship, charting its unique intellectual arc. Organized intuitively, the volume begins with reference materials (bibliographies, cinematographies, directories, indexes, dictionaries, and handbooks) and then moves through film history (the colonial period, Taiwan dialect film, new Taiwan cinema, the 2/28 incident); film genres (animated, anticommunist, documentary, ethnographic, martial arts, teen); film reviews; film theory and technique; interdisciplinary studies (Taiwan and mainland China, Taiwan and Japan, film and aboriginal peoples, film and literature, film and nationality); biographical materials; film stories, screenplays, and scripts; film technology; and miscellaneous aspects of Taiwanese film scholarship (artifacts, acts of censorship, copyright law, distribution channels, film festivals, and industry practice). Works written in multiple languages include transliteration/romanized and original script entries, which follow universal AACR-2 and American cataloguing standards, and professional notations by the editors to aid in the use of sources.

Echelon Defense Ryan D. Martinson,2018 This monograph examines China's approach to using sea power to defend and advance its maritime claims in the East China Sea and South China Sea. This approach, which Chinese strategists sometimes called echelon defense, involves the use of non-military instruments of sea power--especially maritime law enforcement forces--to vie with other states for control over disputed maritime space. These non-military forces operate on the first line (or echelon) of China's expanding frontier. Behind them, on the second line, China employs naval forces to deter foreign leaders from using force, thereby compelling them to compete on China's own terms. The echelon defense approach allows China to gradually achieve its objectives without risking a conflict or giving other great powers such as the United States sufficient grounds to intervene. Since 2006, when this approach was pioneered, it has enabled China to expand its influence and control in maritime East Asia. But it has also harmed China's relations with its neighbors and other great powers. Discover more products: Other products produced by the United States Navy, Naval War College (USNWC)
