Ride Inside Joe Friel, 2020-10-06 From bad weather to business travel to traffic safety, there are dozens of reasons why cyclists and triathletes take their rides inside. Although indoor cycling workouts offer the ultimate control over workout conditions, most inside riders don't get the most out of their trainers or spin bikes. *RIDE INSIDE* offers cyclists and triathletes a smart guide to getting more fitness from every indoor cycling workout. From the world's most experienced personal cycling coach, Joe Friel, *RIDE INSIDE* reveals all the unique aspects of indoor riding: Mental aspects like motivation, focus, and enjoyment Changes in upper body stability, posture, and pedaling technique on a stationary bike Respiration, hydration, and cooling Inherent changes in power output Lower leg tension and eccentric loading from flywheel momentum Lower effort from lack of terrain changes, headwinds, and crosswinds Road-like feel Different shifting patterns All these differences of indoor riding add up to a big impact when the rubber hits the road. Drawing from the foundations of Friel's classic training guides, *The Cyclist's Training Bible* and *The Triathlete's Training Bible*, *RIDE INSIDE* shows how to apply smart and proven training concepts to indoor cycling. Riders will get expert guidance on the best ways to set up a trainer or smart trainer, how to modify outdoor workouts for indoor cycling, how to better monitor power and RPE, and how to use social online training platforms like Zwift to make training better and not worse. Most critically, *RIDE INSIDE* shows cyclists and triathletes how to do indoor cycling workouts that actually meet their training goals instead of compromising.

The Time-Crunched Cyclist Chris Carmichael, Jim Rutberg, 2017-03-07 *The Time-Crunched Cyclist* reveals the fastest way to get fit for road racing, century rides, gravel grinders, cyclocross, Gran Fondos, and mountain bike events. With elite cycling coach Chris Carmichael's innovative, time-saving approach, busy cyclists will develop fitness, speed, and power in just 6 hours a week. Now powered by Strava, this updated third edition of *The Time-Crunched Cyclist* training program taps into the most popular cycling social network to help cyclists get fired up to crush their workouts, one segment at a time. Through his popular endurance coaching service, Carmichael noticed that many busy cyclists are unable to make performance gains using conventional training methods; they simply don't have enough time to train. So CTS developed a new approach—the Time-Crunched Training Program—to help cyclists achieve competitive fitness and power without the impossible time demands of traditional training methods. *The Time-Crunched Cyclist* shows cyclists how to build fitness on a realistic schedule by tapping the power of high-intensity interval training (HIIT) workouts. Cyclists learn the science behind this alternative approach to training before performing the CTS field tests to get a baseline reading of their fitness. Nine comprehensive training plans include effective time-crunched workouts, nutrition guidelines, and strength training to develop the speed and endurance for a wide variety of cycling races and events. The new Time-Crunched Training Plans cover: New and Experienced plans for criteriums, road races, and cyclocross New, Experienced, and Competitive plans for century rides and Gran Fondos Gravel racing and ultraendurance mountain biking plans Intermediate and Advanced plans for commuters This new, third edition integrates Strava, the popular ride tracking and analysis program. Powered by Strava, the Time-Crunched program becomes interactive, social, highly motivating and focuses riders on the training data that matters most. It also adds the Time-Crunched Diet, a sports nutrition approach designed to help riders optimize their power-to-weight ratio with new guidelines on eating behaviors and delicious recipes from chefs Michael Chiarello and Matt Accarrino. A new chapter on hydration and managing heat stress will show athletes simple ways to avoid overheating that lead to better performance. *The Time-Crunched Cyclist* can help you capture your best performance all in the time you have right now.
