The Nineteenth Century and After ,1919

Old House Interiors ,2007-11 National architectural magazine now in its fifteenth year, covering period-inspired design 1700–1950. Commissioned photographs show real homes, inspired by the past but livable. Historical and interpretive rooms are included; new construction, additions, and new kitchens and baths take their place along with restoration work. A feature on furniture appears in every issue. Product coverage is extensive. Experts offer advice for homeowners and designers on finishing, decorating, and furnishing period homes of every era. A garden feature, essays, archival material, events and exhibitions, and book reviews round out the editorial. Many readers claim the beautiful advertising—all of it design-related, no “lifestyle” ads—is as important to them as the articles.

Home Fires Sean Patrick Adams,2014-04-17 “Easily the most

thorough and best-grounded account of the coal-based system of heating in the nineteenth-century United States . . . authoritative.” —The New England Quarterly Home Fires tells the fascinating story of how changes in home heating over the nineteenth century spurred the growth of networks that helped remake American society. Sean Patrick Adams reconstructs the ways in which the “industrial hearth” appeared in American cities, the methods that entrepreneurs in home heating markets used to convince consumers that their product designs and fuel choices were superior, and how elite, middle-class, and poor Americans responded to these overtures. Adams depicts the problem of dwindling supplies of firewood and the search for alternatives; the hazards of cutting, digging, and drilling in the name of home heating; the trouble and expense of moving materials from place to place; the rise of steam power; the growth of an industrial economy; and questions of economic efficiency, at both the individual household and the regional level. Home Fires makes it clear that debates over energy sources, energy policy, and company profit margins have been around a long time. The challenge of staying warm in the industrializing North becomes a window into the complex world of energy transitions, economic change, and emerging consumerism. Readers will understand the struggles of urban families as they sought to adapt to the ever-changing nineteenth-century industrial landscape. This perspective allows a unique view of the development of an industrial society not just from the ground up but from the hearth up. “This smartly written and well-informed book focuses on a subject that very few people think about—the history of home heating in America.” —Choice

Coal Fireplace: Bestsellers in 2023 The year 2023 has witnessed a noteworthy surge in literary brilliance, with numerous engrossing novels captivating the hearts of readers worldwide. Lets delve into the realm of popular books, exploring the captivating narratives that have enthralled audiences this year. Coal Fireplace : Colleen Hoover "It Ends with Us" This touching tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover masterfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can succeed. Coal Fireplace : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This intriguing historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids absorbing storytelling and compelling

characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens "Where the Crawdads Sing" This captivating coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These popular novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and gripping novel that will keep you speculating until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
