Electoral Protest and Democracy in the Developing World Emily Beaulieu,2014-03-10 This book is investigates elections and protest in developing countries, and what those protests mean for democracy.

Unlike much work on elections and democracy, this book focuses on circumstances related to economic development, rather than political regime type. It also looks at incremental changes toward democracy and focuses on reforms, instead of major regime transitions like revolutions.

Multiplatform Media in Mexico Paul Julian Smith,2019-05-23 Multiplatform Media in Mexico is the first book to treat the exciting, interconnected fields of cinema, television, and internet in Mexico over the last decade, fields that combine to be called multiplatform media. Combining industrial analysis of a major audiovisual field at a time of growth and change with close readings of significant texts on all screens, acclaimed author Paul Julian Smith deftly details these new audiovisual trends. The book includes perspectives on local reporting on the ground, as covered in the chapter documenting media response to the 2017 earthquake. And, for the first time in this field, the book draws throughout on star studies, tracing the distinct profiles of actors who migrate from one medium to another. As a whole, Smith's analyses illustrate the key movements in screen media in one of the world's largest media and cultural producing nations. These perspectives connect to and enrich scholarship across Latin American, North American, and global cases.

Nationalism, Liberalism and Language in Catalonia and Flanders Daniel Cetrà,2019-02-20 Is liberalism really compatible with nationalism? Are there limits to linguistic nation-building policies? What arguments justify the imposition of national languages? This book addresses these questions by examining the linguistic disputes in Catalonia and Flanders, two major cases of sub-state nationalism. The book connects two strands of arguments: the political arguments around contested linguistic policies, drawing on a rich set of primary and secondary sources, and the theoretical arguments around liberalism and nationalism. The study also compares the historical trajectory and political dynamics of Catalan and Flemish nationalism. It shows that the relationship between language and nationhood is politically constructed through state nation-building and minority activism. The findings highlight the relevance and pervasiveness of nationalism in contemporary social and political life. This book will appeal to scholars and upper-level students interested in nationalism, contemporary political theory, the politics of language, and comparative territorial politics.

Slave Stealers Timothy Ballard,2018 Follow two abolitionists who fought one of the most shockingly persistent evils of the world: human trafficking and sexual exploitation of slaves. Told in alternating chapters from perspectives spanning more than a century apart, read the riveting 19th century first-hand account of Harriet Jacobs and the modern-day eyewitness account of Timothy Ballard. Harriet Jacobs was an African-American, born into slavery in North Carolina in 1813. She thwarted the sexual advances of her master for years until she escaped and hid in the attic crawl space of her grandmother's house for seven years before escaping north to freedom. She published an autobiography of her life, Incidents in the Life of a Slave Girl, which was one of the first open discussions about sexual abuse endured by slave women. She was an active abolitionist, associated with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black refugees. After the war, she worked to improve the conditions of newly-freed slaves. As a former Special Agent for the Department of Homeland Security who has seen the horrors and carnage of war, Timothy Ballard founded a modern-day underground railroad which has rescued hundreds of children from being fully enslaved, abused, or trafficked in third-world countries. His story includes the rescue and his eventual adoption of two young siblings--Mia and Marky, who were born in Haiti. Section 2 features the lives of five abolitionists, a mix of heroes from past to present, who call us to action and teach us life lessons based on their own experiences: Harriet Tubman--The Conductor; Abraham Lincoln--the Great Emancipator; Little Mia--the sister who saved her little brother; Guesno Mardy--the Haitian father who lost his son to slave traders; and Harriet Jacobs--a teacher for us all.

Insurgency, Authoritarianism, and Drug Trafficking in Mexico's Democratization Jose L. Velasco,2017-09-25 Mexico's democratic transition has created a competitive electoral system and a formally plural state.

Besides, a peculiar wave of insurgency, started in 1994, has challenged the alleged moderating effect of democratic transition. This book argues that socioeconomic inequality is the main factor behind this combination of democratic and undemocratic trends.

Pottery Analysis, Second Edition Prudence M. Rice,2015-07-09 Just as a single pot starts with a lump of clay, the study of a piece's history must start with an understanding of its raw materials. This principle is the foundation of Pottery Analysis, the acclaimed sourcebook that has become the indispensable guide for archaeologists and anthropologists worldwide. By grounding current research in the larger history of pottery and drawing together diverse approaches to the study of pottery, it offers a rich, comprehensive view of ceramic inquiry. This new edition fully incorporates more than two decades of growth and diversification in the fields of archaeological and ethnographic study of pottery. It begins with a summary of the origins and history of pottery in different parts of the world, then examines the raw materials of pottery and their physical and chemical properties. It addresses ethnographic and ethnoarchaeological perspectives on pottery production; reviews the methods of studying pottery's physical, mechanical, thermal, mineralogical, and chemical properties; and discusses how proper analysis of artifacts can reveal insights into their culture of origin. Intended for use in the classroom, the lab, and out in the field, this essential text offers an unparalleled basis for pottery research.

Reeds Vol 8 General Engineering Knowledge for Marine Engineers Paul Anthony Russell,Leslie Jackson,Thomas D. Morton,2018-09-06 Developed to complement Reeds Vol 12 (Motor Engineering for Marine Engineers), this textbook is key for all marine engineering officer cadets. Accessibly written and clearly illustrated, General Engineering Knowledge for Marine Engineers takes into account the varying needs of students studying 'general' marine engineering, recognising recent changes to the Merchant Navy syllabus and current pathways to a sea-going engineering career. It includes the latest equipment, practices and trends in marine engineering, as well as incorporating the 2010 Manila Amendments, particularly relating to management. It is an essential buy for any marine engineering student. This new edition reflects all developments within the discipline and includes updates and additions on, amongst other things: · Corrosion, water treatments and tests · Refrigeration and air conditioning · Fuels, such as LNG and LPG · Insulation · Low sulphur fuels · Fire and safety Plus updates to many of the technical engineering drawings.

Information for Foreigners Griselda Gambaro,1992-03-01 One of Latin America's most important and prolific writers, Griselda Gambaro has focused on the dynamics of repression, complicity, and violence--specifically, the terror of violent regimes and their devastating effects on the moral framework of society. Information for Foreigners is a drama of disappearance, an experimental work dealing with the theme of random and meaningless punishment in which the audience is led through darkened passageways to a series of nightmarish tableaux. The collection also includes The Walls and Antigona Furiosa.
