Inspired by two decades of trial and error, yo-yo-weight, yo-yo dieting and food allergies, this approach to eating helped me shed over twenty pounds while completely transforming my health. More than just a cookbook, this is your go-to guide for building a new relationship with your food, your health and your life. Get inspired by plant-based recipes even if you're not a plant-eater, you can personalize these recipes to suit your lifestyle while achieving transformative results. We can all benefit from five-minute meals the whole family will love. With tastes incorporated from travels to Italy, Latin America, Spain, and France, there is truly something for everyone. This guide and recipe book is for you if, like me, you live with auto-immune conditions, digestive illnesses, chronic health conditions, food allergies, fibromyalgia, cystic acne or any other form of imbalanced health. While this is not intended to treat, diagnose or heal any disease, there is clinical evidence to suggest the overall healing benefits of a whole-food, plant-based approach to nutrition. Incorporating some or all of the principles in this guide may lead to transformative health; at the very least, it will inspire you to curb cravings and hack your sweet tooth in a nutritious way. This book is also for you if you're already living a

healthy lifestyle but want fresh inspiration for your recipes or some exotic flavors to add to your repertoire. I used to believe that eating healthy was tasteless and boring, that I would always be fat because of my under-active thyroid, and that I didn't have time to prepare food. With an 80-hour week and a busy London lifestyle, all of those things could have been true, but this approach won every time. Despite every health condition declaring my health would never change, this approach and the tools contained within have been the single most effective change I have ever made for my well-being. You'll get: Over 100 recipes for the whole family, most of which are ready in 5 minutes or less. A comprehensive guide to structuring your day of eating with meal inspiration. Building Basics which teaches you how to prepare your own meals with flavors you love, following this approach. Gluten Free Options. Supportive options for carnivores who want to add their own twist to plant-based dishes. Diabetic friendly desserts. You May Experience: Smooth, effortless, regular digestion. Yes, even with IBD, IBS etc. A clearer, smoother, more vibrant complexion. Sustained energy levels throughout the day and night. No more 3 O' Clock Crash. Reduced or Eliminated Cravings. A newfound love for food, cooking, self-nourishment and eating. Joy around eating out, now that you no longer need to fear food. A new relationship with yourself. A new waistline. Long hair and nails. Sweet sleep. In under one year I went from constant cravings, hanger, a blood-sugar roller coaster, constipation, cystic acne, painful digestion, bloating and worse... to regular digestion, crystal clear skin (even during that time of the month!), no cravings, no hunger or restriction, no fear around what I eat, and several dress sizes off the figure I carried around for years. Results are not guaranteed, and everyone will experience food differently, but I am confident without a doubt that at the very least you will find a new meal or snack you love that becomes your go-to.
