American Rust Philipp Meyer,2009-02-24 NOW A HIT STREAMING SERIES • A “bold, absorbing novel” (The New York Times Book Review) of the lost American dream, the acts of friendship, loyalty, and love that arise from its loss, and two young men, bound to their hometown, who crave an escape. “Powerful . . . gripping . . . in the tradition that stretches from Ernest Hemingway to Cormac McCarthy.”—The Washington Post A BEST BOOK OF THE YEAR: New York Times Book Review, The Washington Post, Economist, Pittsburgh Post-Gazette, Newsweek, Kansas City Star, Idaho Statesman Left alone to care for his aging father after his mother dies by suicide and his sister escapes to Yale, Isaac English longs for a life beyond his hometown, a beautiful but economically devastated Pennsylvania steel town. But when he finally sets out to leave for good, accompanied by his temperamental best friend, former high school football star Billy Poe, they are caught up in a terrible act of violence that changes their lives forever. Evoking John Steinbeck’s novels of restless lives during the Great Depression, *American Rust* takes us into the contemporary American heartland at a moment of profound unrest and uncertainty about the future. It is a dark but lucid vision, a moving novel about the bleak realities that battle our desire for transcendence and the power of love and

friendship to redeem us.

The Violence of Modernity Debarati Sanyal,2020-03-03 The Violence of Modernity turns to Charles Baudelaire, one of the most canonical figures of literary modernism, in order to reclaim an aesthetic legacy for ethical inquiry and historical critique. Works of modern literature are commonly theorized as symptomatic responses to the trauma of history. In a climate that tends to privilege crisis over critique, Debarati Sanyal argues that it is urgent to rethink literary experience in terms that recall its contestatory potential. Examining Baudelaire's poems afresh, she shifts the focus of critical attention toward an account of modernism as an active engagement with violence, specifically the violence of history in nineteenth-century France. Sanyal analyzes a literary current that uses the traditional hallmarks of modernism—irony, intertextuality, self-reflexivity, and formalism—to

challenge the historical violence of modernity. Baudelaire and the committed ironists writing in his wake teach us how to read and resist the violence of history, and thereby to challenge the melancholy tenor of our contemporary wound culture. In a series of provocative readings, Sanyal presents Baudelaire's poetry as an aesthetic form that contests historical violence through rhetorical strategies of complicity, counterviolence, and critique. The book develops a new account of Baudelaire's significance as a modernist by dislodging him both from his traditional status as a practitioner of art for art's sake and from his more recent incarnation as the poet of trauma. Following her extended analysis of Baudelaire's poetry, Sanyal in later chapters considers a number of authors influenced by his strategies—including Rachilde, Virginie Despentes, Albert Camus, and Jean-Paul Sartre—to examine the relevance of their interventions for our current climate of trauma and terror. The result is a study that underscores how Baudelaire's legacy continues to energize literary engagements with the violence of modernity.

Disputing citizenship Clarke, John, Coll, Kathleen, 2014-01-27 Available Open Access under CC-BY-NC licence. Citizenship is always in dispute – in practice as well as in theory – but conventional perspectives do not address why the concept of citizenship is so contentious. This unique book presents a new perspective on citizenship by treating it as a continuing focus of dispute. The authors dispute the way citizenship is normally conceived and analysed within the social sciences, developing a view of citizenship as always emerging from struggle. This view is advanced through an exploration of the entanglements of politics, culture and power that are both embodied and contested in forms and practices of citizenship. This compelling view of citizenship emerges from the international and interdisciplinary collaboration of the four authors, drawing on the diverse disputes over citizenship in their countries of origin (Brazil, France, the UK and the US). The book is essential reading for anyone interested in the field of citizenship, no matter what their geographical, political or academic location.

The Postmodern Condition Jean-François Lyotard, 1984 In this book it explores science and
