Arbitration in Romania Crenguța Leaua,Flavius A. Baias,2016-02-22 Arbitration in Romania: A Practitioner's Guide provides international users with information on Romanian arbitration law and practice. Two very practical considerations have generated such need. On the one hand, there is a sizeable part of the international arbitration community confronted with arbitration cases connected to Romania (for example, as far as investment arbitration is concerned, Romania has so far faced twelve cases, each of them raising very interesting legal issues). On the other hand, there is a certain discrepancy between the current international perception on the status of arbitration in Romania and the actual situation, which relegates the country to a rather obscure position. This book aims to widen international practitioners' knowledge on Romanian arbitration law and practice thereby providing an opportunity to gain insights into key concepts, such as investment and arbitral proceedings, arbitral institutions, recognition and enforcement, arbitral awards, mediation, disputes, choice of law, etc. The detailed presentation of the current legal framework by the Romanian practitioners offers perspectives on aspects of arbitration in Romania and also provides important information on the development and current status of arbitration in Romania.

The Effectiveness of the Köbler Liability in National Courts Zsófia Varga, 2020-10-15 Over the last 15 years, Köbler liability has resulted in the allocation of damages on only five occasions. Why is that? And what are the practical implications of the Köbler judgment in the Member States? This book offers a unique analysis of the principle – not from the usual EU-focused point of

view but from the view of the practical Member State – and thus follows the track set by earlier books in the 'EU Law in the Member States' series. It thoroughly examines the national jurisprudential and legislative acceptance of the state liability principle and explores the existence of alternative remedies available in the Member States in case of such breaches. The conclusions, based on a systematic assessment of 300 national judgments from the 28 Member States, lead to a reconsideration of the role of the Köbler doctrine in the system of judicial remedies against violation of EU law by national supreme courts. After the pronouncement of the ECJ judgment in Köbler, legal scholars and practitioners have forecast the eradication of the principle of res judicata and the endangering of judicial independence. The judgment caused a lot of ink to flow; according to the ECJ's records, at least 100 studies are directly devoted to the analysis of this decision. This book is, however, the first to offer a comprehensive analysis on the genuine life of the Köbler liability in the Member States.

OPINIILE JUDECĂTORILOR ASUPRA PROBLEMELOR DE DREPT JUDECĂTORIA CLUJ-NAPOCA - 2018 Ulici Claudiu-Octavian, La nivelul fiecărei secții a Instanțelor sau, după caz, al fiecărei Instanțe de judecată, dacă nu există secții, conform regulamentelor specifice aplicabile, s-au discutat problemele de drept care au condus la pronunțarea unor soluții diferite sau problemele de drept de mare noutate, care ar putea genera practică neunitară. Opiniile judecătorilor asupra

problemelor de drept dezbătute au fost consemnate în minute și acestea pot reprezenta un ghid indispensabil în profesiile aparținând domeniul dreptului. Lucrarea cuprinde o sinteză a documentelor oficiale, furnizate prin amabilitatea președinților Instanțelor.

EU Environmental Principles and Scientific Uncertainty before National Courts Mariolina Eliantonio, Emma Lees, Tiina Paloniitty, 2023-04-20
This comparative book explores the dynamics driving how courts across Europe and beyond understand and analyse scientific information in nature conservation. The Habitats and the Birds Directives-the core of EU nature conservation law-are usually seen as the most 'uniform' parts of EU environmental law. This book analyses the case law from 11 current and former EU Member States' courts and explores the dynamics of how, and crucially why, their understandings of scientific uncertainty on the one hand, and EU environmental principles on the other, vary. The courts' scope and depth of review, access to scientific knowledge, and scientific literacy all influence such decisions-as does their interpretation of norms and principles. How have the courts evaluated scientific evidence, encompassing its essential uncertainties? This book answers this and many more questions pertinent to EU environmental law, comparative environmental law, administrative law, and STS studies. Co-edited by experienced leaders in the field, and with

outstanding contributors, this book is an essential guide to the dynamics of nature conservation law.
