Landing on a Star in Umbria Joyce Di Lorenzo,2023-02-03 This is a true love story of a Dutch-Indonesian immigrant woman, married to an American man of Italian descent, and how they followed their unimaginable dream of buying a vacation home in Italy. Although many books have been written about similar experiences, this uniquely different story tells the heartwarming tale of the perils and the wonderful people they encountered during their search to find the perfect home in Morcella; a meticulously well-maintained medieval Borgo built in 975AD, in Italy's beautiful green belt region of Umbria.

Internet Resources and Services for International Real Estate Information

Sheau-Yu J. Chao,2001-02-28 You're investing in real estate, relocating to a new state, or maybe moving to a new country. You go to the Internet, an endless source of information. But is it current? Is it accurate? Can you even find what you need? Here is an analytic guide to nearly 2000 real estate Web sites. Data for more than 220 regions, states, and countries are divided into six sections representing the major continents. The book runs the gamut with data resources for broad geographical regions right down to individual localities (including U.S. states). Indexes to Web site titles, key content, sponsors, and country of origin make this guide essential to everyone from real estate practitioners (developers, bankers, and investors, etc.) to students and researchers in the field.

Sustainable Solar Housing Robert S Hastings, Maria Wall, 2012-06-25 This far-reaching and authoritative two-volume set examines a range of potential solutions for low-energy building design, considering different strategies (energy conservation and renewable energy) and technologies (relating to the building envelope, ventilation, heat delivery, heat production, heat storage, electricity and control). Energy and life-cycle impacts are considered as crucial factors, including passive and active solar use, daylighting and high efficiency conventional heat production. Each volume assesses the potential of these options in a variety of contexts, covering different housing types (apartment, row and detached) in cold, temperate and mild climates. The impressive list of expert authors from 14 countries includes a mix of internationally respected academics and practitioners, working together within the framework of a five-year International Energy Agency (IEA) research project. Volume 1 presents strategies and solutions, offering the reader a solid basis for developing concepts, considering environmental and economic concerns for housing projects in a variety of contexts. Volume 2 offers a detailed analysis of exemplary buildings in different European countries and examines the various technologies employed to achieve their remarkable performance. Aided by clear, full colour illustrations, it offers invaluable insights into the application of these technologies.

Sustainable Solar Housing Robert Hastings, Maria Wall, 2007 Includes: Volume 1: Strategies and Solutions

Sustainable Solar Housing: Exemplary buildings and technologies Robert Hastings, Maria Wall, 2007 First Published in 2009. Routledge is an imprint of Taylor &
