Invisible Child Andrea Elliott, 2021-10-05 PULITZER PRIZE WINNER • A “vivid and devastating” (The New York Times) portrait of an indomitable girl—from acclaimed journalist Andrea Elliott “From its first indelible pages to its rich and startling conclusion, *Invisible Child* had me, by turns, stricken, inspired, outraged, illuminated, in tears, and hungering for reimmersion in its Dickensian depths.”—Ayad Akhtar, author of *Homeland Elegies* ONE OF THE TEN BEST BOOKS OF THE YEAR: The New York Times • ONE OF THE BEST BOOKS OF THE YEAR: The Atlantic, The New York Times Book Review, Time, NPR, Library Journal In *Invisible Child*, Pulitzer Prize winner Andrea Elliott follows eight dramatic years in the life of Dasani, a girl whose imagination is as soaring as the skyscrapers near her Brooklyn shelter. In this sweeping narrative, Elliott weaves the story of Dasani’s childhood with the history of her ancestors, tracing their passage from slavery to the Great Migration north. As Dasani comes of age, New York City’s homeless crisis has exploded, deepening the chasm between rich and poor. She must guide her siblings through a world riddled by hunger, violence, racism, drug addiction, and the threat of foster care. Out on the street, Dasani becomes a fierce fighter “to protect those who I love.” When she finally escapes city life to enroll in a boarding school, she faces an impossible question: What if leaving poverty means abandoning your family, and yourself? A work of luminous and riveting prose, Elliott’s *Invisible Child* reads like a page-turning novel. It is an astonishing story about the power of resilience, the importance of family and the cost of inequality—told through the crucible of one remarkable girl. Winner of the J. Anthony Lukas Book Prize • Finalist for the Bernstein Award and the PEN/John Kenneth Galbraith Award

Minor Histories Mike Kelley, 2004-02-06 The second volume of writings by Los Angeles artist Mike Kelley, focusing on his own work. What John C. Welchman calls the blazing network of focused confluences from which Mike Kelley's styles are generated is on display in all its diversity in this second volume of the artist's writings. The first volume, *Foul Perfection*, contained thematic essays and writings about other artists; this collection concentrates on Kelley's own work, ranging from texts in voices that grew out of scripts for performance pieces to expository critical and autobiographical writings. *Minor Histories* organizes Kelley's writings into five sections. Statements consists of twenty pieces produced between 1984 and 2002 (most of which were written to accompany exhibitions), including *Ajax*, which draws on Homer, Colgate- Palmolive, and Longinus to present its eponymous hero; *Some Aesthetic High Points*, an exercise in autobiography that counters the standard artist bio included in catalogs and press releases; and a sequence of creative writings that use mass cultural tropes in concert with high art mannerisms—approximating in prose the visual styles that characterize Kelley's artwork. Video Statements and Proposals are introductions to videos made by Kelley and other artists, including

Paul McCarthy and Bob Flanagan and Sheree Rose. Image-Texts offers writings that accompany or are part of artworks and installations. This section includes A Stopgap Measure, Kelley's zestful millennial essay in social satire, and Meet John Doe, a collage of appropriated texts. Architecture features an discussion of Kelley's Educational Complex (1995) and an interview in which he reflects on the role of architecture in his work. Finally, Ufology considers the aesthetics and sexuality of space as manifested by UFO sightings and abduction scenarios.

The Great Influenza John M. Barry, 2005-10-04 #1 New York Times bestseller “Barry will teach you almost everything you need to know about one of the deadliest outbreaks in human history.”—Bill Gates Monumental... an authoritative and disturbing morality tale.—Chicago Tribune The strongest weapon against pandemic is the truth. Read why in the definitive account of the 1918 Flu Epidemic. Magisterial in its breadth of perspective and depth of research, The Great Influenza provides us with a precise and sobering model as we confront the epidemics looming on our own horizon. As Barry concludes, The final lesson of 1918, a simple one yet one most difficult to execute, is that...those in authority must retain the public's trust. The way to do that is to distort nothing, to put the best face on nothing, to try to manipulate no one. Lincoln said that first, and best. A leader must make whatever horror exists concrete. Only then will people be able to break it apart. At the height of World War I, history's most lethal influenza virus erupted in an army camp in Kansas, moved east with American troops, then exploded, killing as many as 100 million people worldwide. It killed more people in twenty-four months than AIDS killed in twenty-four years, more in a year than the Black Death killed in a century. But this was not the Middle Ages, and 1918 marked the first collision of science and epidemic disease.

Digital Gaming and the Advertising Landscape Teresa de la Hera, 2019-08-23 The evolution of the game industry and changes in the advertising landscape in recent years have led to a keen interest of marketers in using digital games for advertising purposes. However, despite the increasing interest in this marketing strategy, the potential of digital games as a medium to convey advertising messages remains unexploited. *Digital Gaming and the Advertising Landscape* explores the different ways advertising messages can be embedded within digital games. An interdisciplinary approach is used to help explain how persuasive communication works within digital games. It does so by forging new links within the area of game studies where the emphasis of this book clearly lies, while also taking up new subjects such as design theories and their relation to games as well as how this relationship may be used in a practical context.

Summer of '42 Herman Raucher, 2015-05-03 "A chronicle of one summer in a boy's coming of age"—the international bestselling classic that became the basis for the Oscar-winning film (Medium). Captivating and evocative, Herman Raucher's semi-autobiographical tale has been made into a record-breaking Academy Award-winning hit movie, adapted for the stage, and enchanted readers for generations. In the summer of 1942, Hermie is fifteen. He is wildly obsessed with sex, and passionately in love with an "older woman" of twenty-two, whose husband is overseas and at war. Ambling through Nantucket Island with his friends, Hermie's indelible narration chronicles his frantic efforts to become a man, especially one worthy of the lovely Dorothy, as well as his glorious and heartbreaking initiation into sex. "Mr. Raucher scores most tellingly. His recall of nervous teen-age gaucheries is dead accurate, hilarious, tinged with sadness."—The New York Times Book Review "A charming and tender novel . . . The overall effect is one of high hilarity. Raucher is a comic-artist who is able to convey the fears and joys . . . of the boy and at the same time give older readers a wrench in the heart. "—Publishers Weekly

The Fluoride Deception Christopher Bryson, 2011-01-04 With the narrative punch of Jonathan Harr's *A Civil Action* and the commitment to environmental truth-telling of Erin Brockovich, *The Fluoride Deception* documents a powerful connection between big corporations, the U.S. military, and the historic reassurances of fluoride safety provided by the nation's public health establishment. *The Fluoride Deception* reads like a thriller, but one supported by two hundred pages of source notes, years of

investigative reporting, scores of scientist interviews, and archival research in places such as the newly opened files of the Manhattan Project and the Atomic Energy Commission. The book is nothing less than an exhumation of one of the great secret narratives of the industrial era: how a grim workplace poison and the most damaging environmental pollutant of the cold war was added to our drinking water and toothpaste.

Freud on Madison Avenue Lawrence R. Samuel, 2011-06-06
What do consumers really want? In the mid-twentieth century, many marketing executives sought to answer this question by looking to the theories of Sigmund Freud and his followers. By the 1950s, Freudian psychology had become the adman's most powerful new tool, promising to plumb the depths of shoppers' subconscious minds to access the irrational desires beneath their buying decisions. That the unconscious was the key to consumer behavior was a new idea in the field of advertising, and its impact was felt beyond the commercial realm. Centered on the fascinating lives of the brilliant men and women who brought psychoanalytic theories and practices from Europe to Madison Avenue and, ultimately, to Main Street, *Freud on Madison Avenue* tells the story of how midcentury advertisers changed American culture. Paul Lazarsfeld, Herta Herzog, James Vicary, Alfred Politz, Pierre Martineau, and the father of motivation research, Viennese-trained psychologist Ernest Dichter, adapted techniques from sociology, anthropology, and psychology to help their clients market consumer goods. Many of these researchers had fled the Nazis in the 1930s, and their decidedly Continental and intellectual perspectives on secret desires and inner urges sent shockwaves through WASP-dominated postwar American culture and commerce. Though popular, these qualitative research and persuasion tactics were not without critics in their time. Some of

the tools the motivation researchers introduced, such as the focus group, are still in use, with consumer insights and account planning direct descendants of Freudian psychological techniques. Looking back, author Lawrence R. Samuel implicates Dichter's positive spin on the pleasure principle in the hedonism of the Baby Boomer generation, and he connects the acceptance of psychoanalysis in marketing culture to the rise of therapeutic culture in the United States.

Biomedical and Dental Applications of Polymers Charles Gebelein, F. Koblitz, 2013-11-11 The development and use of medical and dental materials are highly interdisciplinary endeavors which require expertise in chemistry, materials science, medicine and/or dentistry, mechanics and design engineering. The

Symposium upon which this treatise is based was organized to bring members from these communities together to explore problems of mutual interest. The biomaterials which are used in medical or dental prostheses must not only exhibit structural stability and provide the desired function, but they must also perform over extended periods of time in the environment of the body. The latter is a very stringent requirement. The oral and other physiological environments are designed by nature to break down many organic substances. Also of importance is the requirement that materials used in the prosthesis not have a deleterious effect on body tissues. Most foreign (to the body) substances are somewhat toxic to human tissues; in fact, few factors are more limiting in the medical prosthesis field than the biocompatibility problem. Some of these problems and the attempts to solve them are discussed in this volume.

More-with-Less Cookbook Doris Longacre, 2003-09-26 This is a new edition of Herald Press's all-time best-selling cookbook, helping thousands of families establish a climate of joy and concern for others at mealtime. The late author's introductory chapters have been edited and revised for today's cooks. Statistics and nutritional information have been updated to reflect current American and Canadian eating habits, health issues, and diet guidelines. The new U.S. food chart My Plate was slipped in at the last minute and placed alongside Canada's Food Guide. But the message has changed little from the one that Doris Janzen Longacre promoted in 1976, when the first edition of this cookbook was released. In many ways she was ahead of her time in advocating for people to eat more whole grains and more vegetables and fruits, with less meat, saturated fat, and sugars. This book is part of the World Community Cookbook series that is published in cooperation with Mennonite Central Committee, a worldwide ministry of relief, development, and peace. Mennonites are widely recognized as good cooks. But Mennonites are also a people who care about the world's hungry.—Doris Janzen Longacre
