A History of the South Yorkshire Countryside David Hey, 2015-05-30 South Yorkshire has some of the most varied countryside in England, ranging from the Pennine moors and the wooded hills and valleys in the west to the estate villages on the magnesian limestone escarpment and the lowlands in the east. Each of these different landscapes has been shaped by human activities over the centuries. This book tells the story of how the present landscape was created. It looks at buildings, fields, woods and moorland, navigable rivers and industrial remains, and the intriguing place-names that are associated with them.

The Central Franconian Rhyming Bible ("Mittelfränkische Reimbibel") David A. Wells, 2022-06-08 The so-called Central Franconian Rhyming Bible ("Mittelfränkische Reimbibel"), although surviving in only a fragmentary condition, is one of the most thematically wide-ranging works of the neglected corpus of Early Middle High German religious poems of the eleventh and twelfth centuries. In its original form the work may have incorporated Christian world-history from the Creation to the Last Judgement. The surviving fragments point to a substantial engagement by a poet from a northwestern dialectal region on the border of High German, Low German, and Middle Dutch with material from the early Old Testament, the Gospels, and the apocryphal and hagiographical legends relating to early Church history. The commentary is the first comprehensive treatment of the theological and literary subject-matter of the work since that of Hugo Busch in 1879/80, and complements the recent linguistic studies of Thomas Klein. The study of sources and analogues conclusively demonstrates that the text – probably of early-twelfth-century date – is a series of homilies, often closely related to German pre-mendicant sermons, and an important witness to the possible existence of a vernacular sermon tradition at an earlier date than existing manuscript evidence suggests. It also includes features of central importance for knowledge of the text tradition of seminal Christian apocrypha. The substantial introduction and conclusion include a comparison with the Old English homiletic corpus of Ælfric of Eynsham. The commentary is also accompanied by the Middle High German text from Friedrich Maurer's standard edition, and a straightforward prose translation into English intended to make the neglected work accessible to medievalists of different disciplines.

The Collected Works of Samuel Taylor Coleridge, Volume 15 Samuel Taylor Coleridge, 2020-07-14 The Opus Maximum gathers the last major body of unpublished prose writings by Samuel Taylor Coleridge. Consisting primarily of fragments dictated to Joseph Henry Green, probably between 1819 and 1823, these writings represent all that exists of what Coleridge considered to be the principal Labour and the great Object of his life, which he called variously the Logosophia and Magnum Opus. Dedicated to the reconciliation of the moral faith with the Reason, Coleridge's envisioned Magnum Opus was supposed to reduce all knowledges into harmony. While such a synthesis finally eluded him, and the Magnum Opus remained unfinished, the surviving fragments nonetheless bear powerful witness to Coleridge's engagement with theology, moral philosophy, natural philosophy, and logic, among other disciplines. Among the subjects that will particularly interest readers are Coleridge's criticisms of Epicureanism, pantheism, and

German Naturphilosophie; his attempt to ground reason in faith; and his reflections on personhood (especially in the relationship between mother and child), on will, on language, and on the Logos. Previously unknown to all but a handful of scholars, the manuscripts presented here provide valuable insight into a crucial period of Coleridge's intellectual development, as he became increasingly dissatisfied with Naturphilosophie and struggled to affirm Trinitarian Christianity on a rational basis. With this volume, *The Collected Works of Samuel Taylor Coleridge*, begun forty years ago under the sponsorship of the Bollingen Foundation and the editorship of the late Kathleen Coburn, is now complete.
