Turpin Times: An Illini Sports Scrapbook Jim Turpinn,2012-01-31 In Turpin Times, Jim Turpin, the radio play-by-play voice of University of Illinois football and basketball for the past 40 years, takes readers behind the scenes for an intimate glimpse of players, coaches, and others associated with big-time intercollegiate athletics. Turpin follows the Illini through the 2001 football and 2001-2002 basketball seasons with flashbacks to other years, other teams, and other memories and stories that only an insider would know. Turpin's tenure with the Illini has spanned six basketball coaches, nine football coaches, eight Big 10 championships, 11 bowl games, 17 NCAA tournaments and three generations of Illinois fans. Read about Turpin's favorite players, many of whom were not headline makers; the coaches he liked best-and worst; his most memorable radio calls - not all were Illini victories. This is a rare opportunity to share Illini history with an announcer who has lived it. 9XM Talking Randall Davidson,2007-02-26 Randall Davidson provides a comprehensive history of the innovative work of Wisconsin's educational radio stations. Beginning with the first broadcast by experimental station 9XM at the University of Wisconsin, followed by WHA, through the state-owned affiliate WLBL, to the network of stations that in the years following WWII formed the Wisconsin Public Radio network, Davidson describes how, with homemade equipment and ideas developed from scratch, public radio became a tangible example of the Wisconsin Idea, bringing the educational riches of the university to all the state's residents. Marking the centennial year of Wisconsin Public Radio, this paperback edition includes a new foreword by Bill Siemering, National Public Radio's founding director of programming.

The Sons of Westwood John Matthew Smith,2013-09-30 For more than a decade, the UCLA dynasty defined college basketball. In twelve seasons from 1964 to 1975, John Wooden's teams won ten national titles, including seven consecutive championships. The Bruins made history by breaking numerous records, but they also rose to prominence during a turbulent age of political unrest and youthful liberation. When Lew Alcindor and Bill Walton--the most famous college basketball players of their generation--spoke out against racism, poverty, and the Vietnam War, they carved out a new role for athletes, casting their actions on and off the court in a political light. The Sons of Westwood tells the story of the most significant college basketball program at a pivotal period in American cultural history. It weaves together a story of sports and politics in an era of social and cultural upheaval, a time when college students and college athletes joined the civil rights movement, demonstrated against the Vietnam War, and rejected the dominant Cold War culture. This is the story of America's culture wars played out on the basketball court by some of college basketball's most famous players and its most memorable coach.

Live from the Underground Katherine Rye Jewell,2023-12-05 Bands like R.E.M., U2, Public Enemy, and Nirvana found success as darlings of college radio, but the extraordinary influence of these stations and their DJs on musical culture since the 1970s was anything but inevitable. As media deregulation and political conflict over obscenity and censorship transformed the business and politics of culture, students and community DJs turned to college radio to defy the mainstream—and they ended up disrupting popular music and commercial radio in the process. In this first history of US college radio, Katherine Rye Jewell reveals that these eclectic stations in major cities and college towns across the United States owed their collective cultural power to the politics of higher education as much as they did to upstart bohemian music scenes coast to coast. Jewell uncovers how battles to control college radio were about more than music—they were an influential, if unexpected, front in the nation's culture wars. These battles created unintended consequences and overlooked contributions to popular culture that students, DJs, and listeners never anticipated. More than an ode to beloved stations, this book will resonate with both music fans and observers of the politics of culture.
