Designing for Gesture and Tangible Interaction Mary Lou Maher, Lina Lee, 2022-05-31 Interactive technology is increasingly integrated with physical objects that do not have a traditional keyboard and mouse style of interaction, and many do not even have a display. These objects require new approaches to interaction design, referred to as post-WIMP (Windows, Icons, Menus, and Pointer) or as embodied interaction design. This book provides an overview of the design opportunities and issues associated with two embodied interaction modalities that allow us to leave the traditional keyboard behind: tangible and gesture interaction. We explore the issues in designing for this new age of

interaction by highlighting the significance and contexts for these modalities. We explore the design of tangible interaction with a reconceptualization of the traditional keyboard as a Tangible Keyboard, and the design of interactive three-dimensional (3D) models as Tangible Models. We explore the design of gesture interaction through the design of gesture-base commands for a walk-up-and-use information display, and through the design of a gesture-based dialogue for the willful marionette. We conclude with design principles for tangible and gesture interaction and a call for research on the cognitive effects of these modalities.

Theory of Colour Cubes Gordon Anthony, 2014-12-18 This book is written from a personal perspective of an individual addressing life issues and obstacles that we are to overcome with a spiritual insight into life. On from various points of starting out with having no opportunity, to making opportunities and having to make more major moves in life, and make further changes which has resulted from changing from one's own perspective into following the word of God in a very practical and realistic way. All of this insight from a boy from the ghetto who had much turmoil in his family circumstances, and had no real good guidance from people and explaining into finding out through personal experiences that God is the only way through this life. This is a compilation of true life

experiences and lessons learned in an effort to assist and guide the next man or woman, girl or boy, whether young or old to have reading pleasure and hopefully not a too upsetting experience, to eventually reach the point of their own truth in their own life to reach the point of peace and serenity.
