Colour Coding for Learners with Autism Adele

Devine,2014-04-21 Children on the autism spectrum are often highly visual learners, making colour a powerful and motivating learning tool. This book explains how colour coding helps young people with autism to generalise lessons already learnt. For example, assigning the colour aqua to all personal care activities or the colour purple to timetabling and transitions establishes clear, visual categories. This allows children to draw on learnt experiences, which creates a sense of order, reduces anxiety, and can aid communication, understanding emotions, organisation, coping with change and diversifying diet. A wealth of tried-and-tested printable resources to enable the practical application of colour coding in the classroom and at home are included on a CD-ROM. With colourful illustrations and resources, *Colour Coding for Learners with Autism* is an effective, must-have teaching tool for anyone involved in the education of young people with autism.

Unger,2006 Unger provocatively breaks with what he terms the conservatism of present day philosophy, and returns to central themes from Descartes, Locke, Hume and others. It explains simple ways of using songs, instruments and games to connect with children of all abilities.

The Chinese Dark Poet: Huang Xiang and His Colorful World Zhengming Fu (Sweden), Huang Xiang 黄翔, the protagonist of this book, was born on 26th December 1941 in Guidong county, Hunan province of central China. After the Communists came to power in 1949, he was imprisoned six times and severely persecuted for his free-spirited writing and his campaigns for human rights. For more than thirty years, this self-educated poet and writer, wrote secretly against the bondage of totalitarian ideology to safe-guard the freedom of speech. According to the author of the book, Huang is a great dark poet who has expressed the painful memories, fears and struggles that haunted his life creating wonderful poetic beauty in the darkness. His poetic creation is a miracle in the history of Chinese contemporary literature. We may say that Huang's identity as an unknown dark poet is conditioned by his personal, emotional and tragic experiences of struggles while facing historical events such as the Cultural Revolution from 1966 to 1976, the April 5th Movement in 1976, the Democracy Wall Movement in 1978 and the Pro-Democracy Movement in 1989 in China.

Invisible in Austin Javier Auyero, 2015-09-01 Austin, Texas, is renowned as a high-tech, fast-growing city for the young and creative, a cool place to live, and the scene of internationally

famous events such as SXSW and Formula 1. But as in many American cities, poverty and penury are booming along with wealth and material abundance in contemporary Austin. Rich and poor residents lead increasingly separate lives as growing socioeconomic inequality underscores residential, class, racial, and ethnic segregation. In *Invisible in Austin*, the award-winning sociologist Javier Auyero and a team of graduate students explore the lives of those working at the bottom of the social order: house cleaners, office-machine repairers, cab drivers, restaurant cooks and dishwashers, exotic dancers, musicians, and roofers, among others. Recounting their subjects' life stories with empathy and sociological insight, the authors show us how these lives are driven by a complex mix of individual and social forces. These poignant stories compel us to see how poor people who provide indispensable services for all city residents struggle daily with substandard housing, inadequate public services and schools, and environmental risks. Timely and essential reading, *Invisible in Austin* makes visible the growing gap between rich and poor that is reconfiguring the cityscape of one of America's most dynamic places, as low-wage workers are forced to the social and symbolic margins.
