**March of the Pigments** Mary Virginia Orna, 2022-05-23 Take a colorful walk through human ingenuity. Humans have been unpacking the earth to use pigments since cavemen times. Starting out from surface pigments for cave paintings, we've dug deep for minerals, mined oceans for colors and exploited the world of plants and animals. Our accidental fumbles have given birth to a whole family of brilliant blues that grace our museums, mansions and motorcars. We've turned waste materials into a whole rainbow of tints and hues to color our clothes, our food and ourselves. With the snip of a genetic scissor, we've harnessed bacteria to gift us with "greener" blue jeans and dazzling dashikis. As the pigments march on into the future, who knows what new and exciting inventions will emerge? Mary Virginia Orna, a world-recognized expert on color, will lead you through an illuminating journey exploring the science behind pigments. Pausing for reflections en

route to share stories around pigment use and discoveries informed by history, religion, sociology and human endeavour, this book will have you absorbing science and regaling tales. Jam packed with nuggets of information, *March of the Pigments* will have the curiously minded and the expert scientist turning pages to discover more.

*What Can Colors Do?* Liz Yohlin Baill, 2021-05-11 There's a rainbow of ways to think about colors. Colors pop and shine. Cool colors make us shiver, while warm colors heat us up. They can even express our moods, from feeling blue to being tickled pink. *What Can Colors Do?* introduces children to color through vibrant artworks that inspire curiosity, joy, and surprise in young learners. Colorful paintings, sculptures, and objects from the Philadelphia Museum of Art help children think about how artists use color. How can colors express feelings? Can a color be loud or soft? As children learn the basics of color theory, from mixing to contrast and color wheels, they answer engaging, thoughtful questions that bring the world of art and their own experiences together. A series of activities for kids to complete on their own—from a scavenger hunt to a color-inspired way

to meditate—helps them to appreciate the beauty and complexity of the hues around us.
