Reimagining the Republic Sandra M. Gustafson,Robert Levine,2022-12-20 Albion W. Tourgée (1838–1905) was a major force for social, legal, and literary transformation in the second half of the nineteenth century. Best known for his Reconstruction novels *A Fool's Errand* (1879) and *Bricks without Straw* (1880), and for his key role in the civil rights case *Plessy v. Ferguson* (1896), challenging Louisiana's law segregating railroad cars, Tourgée published more than a dozen novels and a volume of short stories, as well as nonfiction works of history, law, and politics. This volume is the first collection focused on Tourgée's literary work and intends to establish his reputation as one of the great writers of fiction about the Reconstruction era arguably the greatest for the wide historical and geographical sweep of his novels and his ability to work with multiple points of view. As a white novelist interested in the rights of African Americans, Tourgée was committed to developing not a single Black perspective but multiple Black perspectives, sometimes even in conflict. The challenge was to do justice to those perspectives in the larger context of the story he wanted to tell about a multiracial America. The seventeen essays in this volume are grouped around three large topics: race, citizenship, and nation. The volume also includes a Preface, Introduction, Afterword, Bibliography, and Chronology providing an overview of his career. This collection changes the way that we view Tourgée by highlighting his contributions as a writer and editor and as a supporter of African American writers. Exploring the full spectrum of his literary works and cultural engagements, *Reimagining the Republic: Race, Citizenship, and Nation in the Literary Work of Albion Tourgée* reveals a new Tourgée for our moment of renewed interest in the literature and politics of Reconstruction.

Apocalypse and Heroism in Popular Culture Katherine E. Sugg,2022-02-25 Stories of world-ending catastrophe have featured prominently in film and television. Zombie apocalypses, climate disasters, alien invasions, global pandemics and dystopian world orders fill our screens--typically with a singular figure or tenacious group tasked with saving or salvaging the world. Why are stories of End Times crisis so popular with audiences? And why is the hero so often a white man who overcomes personal struggles and major obstacles to lead humanity toward a restored future? This book examines the familiar trope of the hero and the recasting of contemporary anxieties in films like *The Walking Dead*, *Snowpiercer* and *Mad Max: Fury Road*. Some have familiar roots in Western cultural traditions yet many question popular assumptions about heroes and heroism to tell new and fascinating stories about race, gender and society and the power of individuals to change the world.

Ms. Marvel's America Jessica Baldanzi,Hussein Rashid,2020-02-28 Contributions by José Alaniz, Jessica Baldanzi, Eric Berlatsky, Peter E. Carlson, Sika A. Dagbovie-Mullins, Antero Garcia, Aaron Kashtan, Winona Landis, A. David Lewis, Martin Lund, Shabana Mir,

Kristin M. Peterson, Nicholas Pumfrey, Hussein Rashid, and J. Richard Stevens
Mainstream superheroes are becoming more and more diverse, with new identities for Spider-Man, Captain America, Thor, and Iron Man. Though the Marvel-verse is becoming much more racially, ethnically, and gender diverse, many of these comics remain shy about religion. The new Ms. Marvel, Kamala Khan, is a notable exception, not only because she is written and conceived by two women, Sana Amanat and G. Willow Wilson, but also because both of these women bring their own experiences as Muslim Americans to the character. This distinct collection brings together scholars from a range of disciplines including literature, cultural studies, religious studies, pedagogy, and communications to engage with a single character, exploring Khan's significance for a broad readership. While acknowledged as the first Muslim superhero to headline her own series, her character appears well developed and multifaceted in many other ways. She is the first character to take over an established superhero persona, Ms. Marvel, without a reboot of the series or death of the original character. The teenager is also a second-generation immigrant, born to parents who arrived in New Jersey from Pakistan. With essays from and about diverse voices on an array of topics from fashion to immigration history to fandom, this volume includes an exclusive interview with Ms. Marvel author and cocreator G. Willow Wilson by gender studies scholar Shabana Mir.

Deconstructing Will Smith Willie Tolliver, 2022-01-06 Acclaimed actor and rap artist Will Smith has achieved a level of Hollywood fame rarely attained by a Black celebrity. Early in his career, Smith aspired to be the world's most famous movie star and being named the world's top film attraction in 2008, fulfilled his goal. While his rise to a place of worldwide prominence and cultural relevance has made him iconic, his accomplishments have not received the full and thorough acknowledgement and analysis they merit. This is the first full-length critical look at the significance of Will Smith's achievements over a more than 30-year career. Many of his films have broken cultural norms by depicting Black men in groundbreaking social settings, like the role of the world-saving hero in his most popular films. In addition to analyzing Smith's filmography, this work contextualizes other popular and common portrayals of Black men in media and society. Finally, this book examines Smith's work in his middle age, ruminating on his ability to adapt to the realities of a new Hollywood.

The Psychic Hold of Slavery Soyica Diggs Colbert, Robert J. Patterson, Aida Levy-Hussen, 2016-07-20 What would it mean to “get over slavery”? Is such a thing possible? Is it even desirable? Should we perceive the psychic hold of slavery as a set of mental manacles that hold us back from imagining a postracist America? Or could the psychic hold of slavery be understood as a tool, helping us get a grip on the systemic racial inequalities and restricted liberties that persist in the present day? Featuring original essays from an array of established and emerging scholars in the interdisciplinary field of African American studies, *The Psychic Hold of Slavery* offers a nuanced dialogue upon these questions. With a painful awareness that our understanding of the past informs our understanding of the present—and vice versa—the contributors place slavery’s historical legacies in conversation with twenty-first-century manifestations of antiblack violence, dehumanization, and social death. Through an exploration of film, drama, fiction, performance art, graphic novels, and philosophical discourse, this volume considers how artists grapple with questions of representation, as they ask whether slavery can ever be accurately depicted, trace the scars that slavery has left on a traumatized body politic, or debate how to best convey that black lives matter. *The Psychic Hold of Slavery* thus raises provocative questions about how we behold the historically distinct event of African diasporic enslavement and how we might hold off the transhistorical force of antiblack domination.

The World of the Haitian Revolution David Patrick Geggus, Norman Fiering, 2009-01-21 These essays deepen our understanding of Haiti during the period from 1791 to 1815. They consider the colony's history and material culture as well as its 'free people of colour' and the events leading up to the revolution and its violent unfolding.

Oppression and Resistance in Africa and the Diaspora Kenneth Kalu, Toyin Falola, 2019-01-04 Africa’s modern history is replete with different forms of encounters and conflicts. From the fifteenth century when millions of Africans were forcefully taken away as slaves during the infamous Atlantic slave trade; to the colonial conquests of the nineteenth century where European countries conquered and subsequently balkanized Africa and shared the continent to European powers; and to the postcolonial era where many African leaders have maintained several instruments of exploitation, the continent has seen different forms of encounters, exploitations and oppressions. These encounters and exploitations have equally been met with resistance in different forms and at different times. The mode of Africa’s encounters with the rest of the world have in several ways, shaped and continue to shape the continent’s social, political and economic development trajectories. Essays in this volume have addressed different aspects of these phases of encounters and resistance by Africa and the African Diaspora. While the volume documents different phases of oppression and conflict, it also contains some accounts of Africa’s resistance to external and internal oppressions and exploitations. From the physical guerilla resistance of the Mau Mau group against British colonial exploitation in Kenya and its

aftermath, to efforts of the Kayble group to preserve their language and culture in modern Algeria; and from the innovative ways in which the Tuareg are using guitar and music as forms of expression and resistance, to the modern ways in which contemporary African immigrants in North America are coping with oppressive structures and racism, the chapters in this volume have examined different phases of oppressions and suppressions of Africa and its people, as well as acts of resistance put up by Africans.
