Piano Color Play Diane Davis,Jeremiah Davis,2008-11 After Church services, adults and children would always come to me and ask how to play the piano. Therefore, I decided to formulate a method of how to play the piano that does not require music theory. The method I created had to be as simple as possible in order to get the student playing the piano immediately. Many people are familiar with these basic colors. They are red, yellow, brown, orange, green, purple, white and black. In this book, we will explore many popular tunes with colors and symbols. You can play these tunes on any standard piano keyboard with the color piano chart. This method for playing the piano will spark interest in learning at any age. While doing this, we introduce the pupil to some educational fundamentals. This book is full of everyday pictures and colors. Once interest is accomplished then you can move to the next level in your piano study. This method is educational and fun and you will enjoy playing the piano by colors.

Piano in Color Julia Tulloch,2012-04-12 You don't have to wait until your child begins school to start learning the piano – preschoolers can learn too! Jingle bells, Itsy Bitsy Spider and Mary had a little lamb, are just some of the tunes your preschooler will learn to play using correct fingering for both hands, following a color/number system. The method is so simple, that piano teachers who have avoided teaching preschoolers in the past, no longer have to. With brightly colored notes, fun illustrations and lively accompaniment tracks, teachers love Piano In Color just as much as preschoolers do.Even parents with no musical knowledge will find that the Piano In Color books provide the information you need to introduce your preschooler to the piano. And some parents have even been known to start learning Piano In Color for themselves!
