*Challenge Your Brain Math and Logic Puzzles* Dave Tuller,Michael Rios,2005 Give your brain a workout on the type of brainteasers that challenge the best solvers at the World Puzzle Championships. They're tough, but fun, and the feeling of satisfaction you get when you succeed is simply unbeatable. Some of the puzzles are oldies but goodies, like battleships--and its many variants--where you search for a fleet hidden within a grid. In Eminent Domain, try to determine which blanks cells are owned by the numbered ones. For Hex Loops, locate a path that travels through adjacent hexagons: the trick is, it has to end where it started, and the lines can't touch or cross. From Snaky Tiles to Spiral Galaxies, these Mensa-level conundrums will get your mind in shape.

*Logic Puzzles to Bend Your Brain* Kurt Smith,2001 Logic, math, and fun come all wrapped up in one tricky puzzle package. Each little story gives you just enough information to determine what's bigger, who weighs more, how much gets sold, and lots of other confounding braintwisters. To make it just a little easier, every puzzle has a chart to help you organize and work out the all facts in your possession.

Perfect for anyone who sits down with the New York Times crossword puzzle every morning or works through Sudoku puzzles on the way home, this book is guaranteed to excite your mind and jump-start your brain.

*Mensa Exercise Your Mind Math & Logic Puzzles* Dave Tuller,Michael Rios,2005 An old favorite--Mensa Math & Logic Puzzles--gets a brand-new look: it's now in color! And the puzzles are fantastic: they're the kind of challenge found at the World Puzzle Championships, and they require no language to solve. For example, you are given a grid of dots that has some numbers (0, 1, 2, or 3) in them. You need to connect the dots in one continuous path so that each number is surrounded by that many lines. So a 3 means that three of the four sides around it must be connected. All the puzzles are similar abstract exercises, and all have unique solutions that can be reached using pure logic. They're difficult--and really satisfying exercise for your brain.

Then you need to keep on reading... Tired about forgetting things? Feel like you are always stuck in the same loop? Looking for a new way to see your life? Fed up with the same old, boring stories you hear at dinners and get-togethers? If you are ready to expand your thinking and enjoy a good laugh, you have chosen the right puzzle book! Changing how you think about a problem and supporting your brain health does not need to be hard or boring. After reading the puzzles in this book, you will probably find that it is much more fun than you thought it would be! First described in the late 1960s, lateral thinking emerged as a way to approach a situation or a problem in a non-vertical, illogical way. It encourages the participants to think about the situation, not in the step-by-step process of traditional reason, but to look at all the different possibilities, even when they are absurd! Various studies have shown that challenging your reasoning skills in this manner can help you activate parts of your brain that are not often engaged. This extra engagement leads to a healthier state of mind, and even just encouraging you to laugh and smile a bit more. When a scenario is wildly different than the norm, most people's natural reaction is to laugh or smile at it. Because every story and puzzle in this book offers a unique solution to the situation, you are sure to get some smiling done! Below are several of the highlights you will find inside this book: - Whimsical stories told with engaging situations and characters. - Absurd solutions that are plausible, but definitely unusual! - Silly math equations encouraging you to think outside the traditional, two-dimensional realm. - More than 20 puzzles outlining realistic situations with unbelievable answers. - A couple of one-liners that are great for pulling out at parties and special occasions-sure to generate a laugh. - A couple of morbid stories and scenarios that will make you laugh, but feel a little guilty about it. - Inspiration to begin thinking about your real life more laterally to find unique answers to your life problems, questions, or situations. And so much more! Prior to diving into the first puzzles in this book, stop to think about how you would solve the following question, A man walks into a bar, the barkeep pulls a gun, the man says, thank you, and leaves. What happened? If you are stumped, confused, or unsure of where to start to answer this, then you are ready. If you think you have the answer, comb through the following puzzles to find out if you are right! Think about how fun it will be to not only know how to approach a puzzle like this, but be able to share them with others, too! Even if you are unsure about how to think more laterally, you can engage your brain and train it to see the unusual in the usual. You can find alternate meanings and outcomes to puzzles as you become a more creative thinker. If you are ready to laugh, cringe, smile, be confused, challenged, and smarter, then scroll up and place this book into your shopping cart now!
