Matthew Landauer

Garfield & Co. #6 Jim Davis, Mark Evanier, Cedric

Michiels, 2013-09-10 Hunting birds is something Garfield's never had any interest in. But when he finds a nest full of abandoned eggs, Garfield puts his feline pride aside and decides to help them hatch. Harry, the stray cat from down the block, would love to put the newborn birds right on his dinner menu. As soon as they hatch, the birds assume Garfield is their mother and start following him around everywhere! Garfield can't take naps any more, and his water bowl has been turned into a bird bath. Is Garfield stuck being the birds' mom forever? Also featuring the stories Curse of the Were-dog and Little Yellow Riding Hood.

*Exlibrium #1* Natalia Devova, 2015-10-28 *Exlibrium* (from the Latin 'ex libris', of the books and 'equilibrium', balance) - a magic seal that helps the mysterious order of sorcerers to guard the border between the real world and the world of fiction. For many centuries members of the order have been successfully preventing creatures from the works of art and literature from escaping into our world. But sometimes the order fails to do so and some of those characters manage to break the walls between realities...

Dangerous Counsel Matthew Landauer,2019-11-14 We often talk loosely of the “tyranny of the majority” as a threat to the workings of democracy. But, in ancient Greece, the analogy of demos and tyrant was no mere metaphor, nor a simple reflection of elite prejudice. Instead, it highlighted an important structural feature of Athenian democracy. Like the tyrant, the Athenian demos was an unaccountable political actor with the power to hold its subordinates to account. And like the tyrant, the demos could be dangerous to counsel since the orator speaking before the assembled demos was accountable for the advice he gave. With Dangerous Counsel, Matthew Landauer analyzes the sometimes ferocious and unpredictable politics of accountability in ancient Greece and offers novel readings of ancient history, philosophy, rhetoric, and drama. In comparing the demos to a tyrant, thinkers such as Herodotus, Plato, Isocrates, and Aristophanes were attempting to work out a theory of the badness of unaccountable power; to understand the basic logic of accountability and why it is difficult to get right; and to explore the ways in which political discourse is profoundly shaped by institutions and power

relationships. In the process they created strikingly portable theories of counsel and accountability that traveled across political regime types and remain relevant to our contemporary political dilemmas.

Tales from behind the Window Kuntman

Edanur,2019-08-21T00:00:00+02:00 Tales from behind the Window is based on memories of an Anatolian grandmother and women she knew who suffered from male dominance over their lives. Writer and illustrator Edanur Kuntman seeks a unique way to express and give voice to women in her grandmother's memories and in our reality who were not able to reconcile their inner emotional depth with their rural worlds in Northern Turkey. One long and two short stories included in this book revolve around terrifying emotional burdens such as forced marriages, being betrayed by patriarchs, and lost love, which have haunted and still haunt many in rural Anatolia.
