Common Sense Business Mark Zarr,2012-09-13 I am fed up with people making the world more complicated than it really is. Egos, me-first mentalities, and unrealistic expectations all get in the way of our success. We make things complicated because we want the attention gained from pretending to be experts. We put superficial standards on everything we do. Why? Because we thrive off of the high road mentality. Where have all these complications we added to our lives and our businesses gotten us? We have a failing economy, failing social structure, thousands of unprepared young people, and lives so hectic that we all die by the age of 65 from stress-induced heart attacks. If you ask me, I think it's time we simplify a few things. We don't need complications; we need common sense. We have justified our standards of excellence while forsaking the simple and natural rules provided by our own God-given common sense. We no longer recognize what is true and false. We only recognize what we believe to be true or false. We convince ourselves that life is hard, that business is complicated, and that only the very best and well educated will succeed. I see things differently. After years of studying and practicing business, I have begun to realize that those with the most success, those with the best lives we all want to emulate all have one thing in common: they have found a way to simplify what they do. Success comes from peeling away the complicated structures, ego-driven, I'm an expert mentality, and sophisticated expectations of how things ought to be. Success is about finding the easiest, most efficient means of accomplishing a task or goal. True success is about having the time to enjoy life, the freedom to treat others fairly, and the opportunity to make a difference in everything that we do. Common sense tells us that the shortest distance between any point is a straight line. Common sense tells us that effectiveness comes from finding the simplest way of doing something. Common sense has a lot to tell us. In fact, it can teach us everything we need to know about life,

business, and success. Are you ready to learn why the finer things in life are the simplest things? Come with me as we journey to discover how simply applying some common sense to our lives can change the world.

Are You There God? It's Me, Margaret. Judy Blume,2014-04-29 Faced with the difficulties of growing up and choosing a religion, a 12-year-old girl talks over her problems with her own private God. Reissued with a fresh new look and cover art. Simultaneous.

Counterintuitive Marketing Kevin J. Clancy,Peter C. Krieg,2009-03-25 Why does American business seem to sputter along where it ought to thrive? What is the source of the current plague of downsizing, disappearing companies, dot-com crashes, and here-today-gone-tomorrow advertising campaigns? Why do more products flop than ever before? Marketing experts Kevin J. Clancy and Peter C. Krieg have the answers. In Counterintuitive Marketing, Clancy and Krieg trace the high rate of business failure back to bad marketing strategy, and the even worse implementation of that strategy. Excess testosterone, they argue, compels senior managers to make decisions intuitively, instinctively, quickly, and, unfortunately, disastrously. In this informative and enlightening book, Clancy and Krieg confront these over-and-over-again marketers, who don't have time to do it right the first time, but endless time and a company bankroll to do it wrong over and over again. The authors draw from their decades of consumer and business-to-business marketing experience to describe the intuitive decision-making practices that permeate business today, and demonstrate how these practices lead to disappointing performance. Chapter by chapter, Counterintuitive Marketing contrasts how marketing decisions are made today with how they should be made. The authors give equal treatment to targeting, positioning, product development, pricing, customer service, e-commerce, marketing planning, implementation, and more as they present counterintuitive ideas for building and introducing blockbuster marketing programs. Readers will discover in this iconoclastic treasure chest hundreds of penetrating insights that have enabled the authors' firm, Copernicus, to transform companies and become a brand guardian to the Fortune 500 and emerging businesses around the world. The tools to create exceptional marketing programs really do exist, and they are all here in Counterintuitive Marketing, the ultimate practical guide for any company of any size.

A History of American Magazines, Volume V: 1905-1930 Frank Luther Mott,1958 In 1939 Frank Luther Mott received a Pulitzer Prize for Volumes II and III of his History of American Magazines. In 1958 he was awarded the Bancroft Prize for Volume IV. He was at work on Volume V of the projected six-volume history when he died in October 1964. He had, at that time, written the sketches of the twenty-one magazines that appear in this volume. These magazines flourished during the period 1905-1930, but their biographies are continued throughout their entire lifespan--in the case of the ten still published, to recent years. Mott's daughter, Mildred Mott Wedel, has prepared this volume for publication and provided notes on changes since her father's death. No one has attempted to write the general historical chapters the author provided in the earlier volumes but which were not yet written for this last volume. A delightful autobiographical essay by the author has been included, and there is a detailed cumulative index to the entire set of this monumental work. The period 1905-1930 witnessed the most flamboyant and fruitful literary activity that had yet occurred in America. In his sketches, Mott traces the editorial partnership of H. L. Mencken and George Jean Nathan, first on The Smart Set and then in the pages of The American Mercury. He treats The New Republic, the liberal magazine founded in 1914 by Herbert Croly and Willard Straight; the conservative Freeman; and Better Homes and Gardens, the first magazine to achieve a circulation of one million without the aid of fiction or fashions. Other giants of magazine history are here: we see serious, shaggy...solid, pragmatic, self-contained Henry Luce propel a national magazine called Time toward its remarkable prosperity. In addition to those already mentioned, the reader will find accounts of The Midland, The South Atlantic Quarterly, The Little Review, Poetry, The Fugitive, Everybody's, Appleton's Booklovers Magazine, Current History, Editor & Publisher, The Golden Book Magazine, Good Housekeeping, Hampton's Broadway Magazine, House Beautiful, Success, and The Yale Review.
