Property and Contract in Their Relations to the Distribution of Wealth Richard Theodore Ely, 1914

Shifts in the Social Contract Beth A. Rubin, 1996 Examining the changes in society in the United States, Beth Rubin explains how the current era differs fundamentally from the post-World War Two period; how and why that change has occurred; and what its meaning is to everyday life. She traces the changes from a domestic to a global economy, the transformation of the workplace, and the impact that these changes have had on how other people are experiencing social aspects of their lives: their families and interpersonal relations, their communities and their experience of the culture of mass society.

Readings in the Economics of Contract Law Victor P. Goldberg, 1989 This collection brings together some of the main contributions to an important area of this work, the economics of contract law.

Problems in Contract Law Charles L. Knapp, Nathan M. Crystal, Harry G. Prince, 2019-02-01 In *Problems in Contract Law: Cases and Materials*, Ninth Edition, by Charles L. Knapp, Nathan M. Crystal, and Harry G. Prince, a balance of traditional and contemporary cases reflect the development and complexity of contract law. Explanatory notes and text place classic and contemporary cases in their larger legal context, while questions and problem exercises bridge theory and practice. Adaptable for instructors with different teaching techniques, this successful book includes various perspectives and contractual settings, and offers a highly intelligent, contemporary treatment of contract law. It can easily be used in teaching by traditional case analysis, through problem-based instruction, or using theoretical inquiry. New to the Ninth Edition: Seven new cases that reflect advances in or improved statements of contract law Two restored cases (Kirksey v. Kirksey and Hill v. Jones) that provide valuable perspectives on fundamental areas of contract law Eight new problems (including seven net additions and one replacement) to provide more review options for teachers and students and to add contemporary fact patterns A new, two-color design featuring interesting photographs illustrating people and places discussed in some of the cases Editing of note and text material to reduce length without affecting coverage Reorganization of text and comment material to focus comments primarily on historical developments, allowing professors flexibility in assigning or deleting comments Student accessibility to deleted cases from prior editions through Connected Casebook, allowing professors the further flexibility of continuing to easily assign cases for which they have a particular preference Professors and students will benefit from: Flexible application for professors with various teaching methodologies: traditional, problem, theoretical, and practical A mixture of classic and contemporary cases The authors' emphasis on accessibility of the material—rejecting a hide-the-ball approach Review questions at the end of each chapter that are primarily designed for students to perform self-assessments of their grasp of the material. Answers with explanations are included in an appendix within the book.

Design & Construction of the Contract Package Concept Robert E. Bartz, 2013-03-25 The overview of this book is to assist A/E Firms, Contractors and Utility owners to obtain the knowledge of how the Contract Package Concept can be developed and implemented for any type or size of project. The primary motivation for the use of the Contract

Package Concept is to break the job into proper and efficient size packages which can be bid and awarded on a lump sum basis. In building a project of any size magnitude, it does not require a unique method of management. In managing these activities, construction management must be concerned with the manner and method of how to construct this facility in the most economical and beneficial manner. The theme of the book is to have the owner define his purpose by emphasizing the importance of focus and clarity which in time will assist the Project Organization to zero in on the vision to build a facility on schedule or ahead of schedule and within the budget or under the budget.

Contract Remedies in a Nutshell Jane M. Friedman, 1981 Expert author presents a comprehensive treatment of contract remedies. Subjects include common law and equitable remedies for breach of contract such as expectation and reliance damages, restitution, and specific performance. Discusses contracts for the sale of goods, as well as buyers' and sellers' remedies under Article 2 of the UCC. Also examines contractual control over remedies and remedies for mistake and unconscionability.

Fault in American Contract Law Omri Ben-Shahar, Ariel Porat, 2010-08-16 Representing an unprecedented joint effort from top scholars in the field, this volume collects original contributions to examine the fundamental role of 'fault' in contract law. Is it immoral to breach a contract? Should a breaching party be punished more harshly for willful breach? Does it matter if the victim of breach engaged in contributory fault? Is there room for a calculus of fault within the 'efficient breach' framework? For generations, contract liability has been viewed as a no-fault regime, in sharp contrast to tort liability. Is this dichotomy real? Is it justified? How do the American and European traditions compare? In exploring these and related issues, the essays in this volume bring together a variety of outlooks, including economic, psychological, philosophical, and comparative approaches to law.

Seduction by Contract Oren Bar-Gill, 2012-08-23 Seduction by Contract explains how consumer contracts emerge from market forces and consumer psychology. Consumers' predictable mistakes - they are short-sighted, optimistic, and imperfectly rational - compel sellers to compete by hiding the true costs of products in complex, misleading contracts. Only better law can overcome the market's failure.

The Islamic Marriage Contract Asifa Quraishi, Frank E. Vogel, 2022-10-07 It is often said that marriage in Islamic law is a civil contract, not a sacrament. If this is so, this means that the marriage contract is largely governed by the same rules as other contracts, such as sale or hire. But at the same time marriage is a profound concern of the Islamic scriptures of Qur'an and Sunna, and thus at the very core of the law and morality of Islam and of the individual, familial, and social life of Muslims. This volume collects papers from many disciplines examining the Muslim marriage contract. Articles cover doctrines as to marriage contracts (e.g., may a wife stipulate monogamy?); historical instances (e.g., legal advice from thirteenth-century Spain); comparisons with Jewish and canon law; contemporary legal and social practice; and projects of activists for women worldwide. Demonstrating a

new and powerful focus for comparative and historical inquiries into Islamic law and social practices, this book marks a fresh point of departure for the study of Muslim women.

Children's Rights and Obligations in Canon Law Mary McAleese, 2019-11-04 In the first study of its kind Mary McAleese subjects to comprehensive scrutiny the Roman Catholic Church's 1983 Code of Canon law as it applies to children. The Catholic Church is the world's largest non-governmental organisation involved in the provision of education and care services to children. It has over three hundred million child members world-wide the vast majority of whom became Church members when they were baptised as infants. Canon law sets out their rights and obligations as members. Children also have rights which are set out in the 1989 United Nations Convention on the Rights of the Child to which the Holy See is State Party. The impact of the Convention on Canon Law is examined in detail and the analysis charts a distinct and worrying sea-change in the attitude of the Holy See to its obligations under the Convention since the clerical sex abuse scandals became a subject of discussion at the Committee on the Rights of the Child, which monitors implementation of the Convention. Mary McAleese wins Europe's richest theology prize for her study of canon law. The former President of Ireland Mary McAleese has won one of the Catholic world's most prestigious prizes, the Alfons Auer Ethics Award, from Tübingen University in Germany for her doctoral thesis on Children's Rights and Obligations in Canon Law.

The Contract and Domination Carole Pateman, Charles Mills, 2013-04-23 Contract and Domination offers a bold challenge to contemporary contract theory, arguing that it should either be fundamentally rethought or abandoned altogether. Since the publication of John Rawls's A Theory of Justice, contract theory has once again become central to the Western political tradition. But gender justice is neglected and racial justice almost completely ignored. Carole Pateman and Charles Mills's earlier books, The Sexual Contract (1988) and The Racial Contract (1997), offered devastating critiques of gender and racial domination and the contemporary contract tradition's silence on them. Both books have become classics of revisionist radical democratic political theory. Now Pateman and Mills are collaborating for the first time in an interdisciplinary volume, drawing on their insights from political science and philosophy. They are building on but going beyond their earlier work to bring the sexual and racial contracts together. In Contract and Domination, Pateman and Mills discuss their differences about contract theory and whether it has a useful future, excavate the (white) settler contract that created new civil societies in North America and Australia, argue via a non-ideal contract for reparations to black Americans, confront the evasions of contemporary contract theorists, explore the intersections of gender and race and the global sexual-racial contract, and reply to their critics. This iconoclastic book throws the gauntlet down to mainstream white male contract theory. It is vital reading for anyone with an interest in political theory and political philosophy, and the systems of male and racial domination.

The Organizational Contract Professor Fabrizio Cafaggi, Professor Giuseppe Vettori, Professor Stefan Grundmann, 2013-12-28 This book introduces and develops the paradigm of the organisational contract in European contract law. Suggesting that a more radical distinction should be made between contracts which regulate single or

spot exchanges and contracts that organize complex economic activities without creating a new legal entity, the book argues that this distinction goes beyond that between spot and relational contracts because it focuses on the organizational dimension of contracting and its governance features. Divided into six parts, the volume brings together a group of internationally renowned experts to examine the structure of long-term contractual cooperation; networks of contracts; knowledge exchange in long-term contractual cooperation; remedies and specific governance rules in long-term relationships; and the move towards legislation. The book will be of value to academics and researchers in the areas of private law, economic theory and sociology of law, and organizational theory. It will also be a useful resource for practitioners working in international contract law and international business transaction law.

Principles of the English Law of Contract and of Agency in Its Relation to Contract Sir William Reynell Anson, 1884

Breaching the Colonial Contract Arlo Kempf, 2009-05-30 Almost a decade in, Empire remains the 21st Century's dominant mode of cultural production, and North America remains at the apex of the colonial imperative. The contributors to this volume argue that, far from being a post-colonial world, the struggle for independence of polity and culture is still alive and relevant. The book brings together relevant examples of anti-colonial discourse and struggle from across the US and Canada, providing unique perspectives on resistance, activism, scholarship and pedagogy. Anti-colonialism is an evolving framework to which this book hopes to make a unique contribution, with the range, depth and analytical approach of the chapters it contains. The emphasis on anti-colonial resistance here is significant, as it consistently reveals the personal commitment required for the undoing of domination, as well as the ways in which people can collectively pursue radical politics in their aim of bringing about social justice. The book examines a multitude of actions which could be termed anti-colonial, from student walkouts along the US/Mexico border, to interrogations of the relationship between indigenous and anti-racist struggles in North America, to analyses of the implications of anti-colonialism for community unionism as well as disability rights struggles. Chapters also look at the movement for Africentric schools in Toronto, provide an annotated and comparative look at the myriad struggles for and by the Fourth World and Fourth World nations, and analyze the creation of an anti-colonial classroom in a Montreal university. They also explore the colonial underpinnings of multicultural education in the US. With contributions from leading thinkers such as Henry Giroux, Ward Churchill, and Peter McLaren, as well as fresh perspectives from junior academics, this book provides a diverse and varied survey of anti-colonialism in the US and Canada. It will be a thought-provoking read for those working in a wide variety of disciplines, from Sociology to Politics. In daring and incisive ways, Arlo Kempf's collection further positions anti-colonialism as the necessary educational project for the colonizer and colonized within us all; it reflectively re-sets the radical education agenda, with telling historical and current instances that are used by the book's authors to move constructively forward in critical ways. John Willinsky, Stanford University, USA

The Construction Contracts Book Daniel S. Brennan, 2008 Most construction lawyers are familiar with the American Institute of Architects (AIA), Engineers Joint Contract Documents Committee (EJCDC) forms of agreements, and the newer ConsensusDOCS forms. The ConsensusDocs forms replace many of the forms previously issued by the Associated General Contractors of America (AGC). Now completely revised, this invaluable resource offers a topic-by-topic comparison of these forms by providing: - An easy-reference guide to how the AIA, ConsensusDOCS and EJCDC forms treat the most significant issues in owner/contractor/subcontractor and owner/design professional agreements - Proposed alternative language for situations where the form contract approach may not provide the best solution - List comparing the most significant provisions from each of these forms (on the CD-ROM)

Essential Principles of Contract and Sales Law in the Northern Pacific Daniel P. Ryan, 2005-08-23 Taking an anthropological approach, *Essential Principles of Contract and Sales Law in the Northern Pacific* highlights how regional customary and traditional law interact with Anglo-American concepts of contract and sales law to produce a unique amalgam of substantive law in this Pacific region. Author and law professor Daniel P. Ryan compiles and discusses the current contract and sales law applicable in the Pacific region, including the Republics of Palau and the Marshall Islands, Hawaii, Guam, Northern Mariana Islands, American Samoa, and the Federated States of Micronesia. Ryan compares and contrasts this regional law to international standards, including the UN Sale of Goods Convention, the UNIDROIT Principles of Contract Law, UNCITRAL Model Law for E-Commerce, the Uniform Commercial Code, the Revised Uniform Commercial Code, and the Restatement (Second) of Contracts. *Essential Principles of Contract and Sales Law in the Northern Pacific* is essential reading for members of the judiciary, academics, practitioners, students, and businesses within the region and their major trade partners.

Handbook of Contract Management in Construction Ali D. Haidar, 2021-06-10 This book addresses the process and principles of contract management in construction from an international perspective. It presents a well-structured, in-depth analysis of construction law doctrines necessary to understand the fundamentals of contract management. The book begins with an introduction to contract management and contract law and formation. It then discusses the various parties to a contract and their relevant obligations, whether they are engineers, contractors or subcontractors. It also addresses standard practices when drafting and revising contracts, as well as what can be expected in standard contracts general clauses. Two chapters are dedicated to contract clauses, with one focused on contract administration such as schedules, payment certificates and defects liability, and the other focused on contract management, such as terminations, dispute resolutions and claims. This book provides a useful reference to engineers, project managers and students within the field of engineering and construction management.

Citizen Participation in the Age of Contracting Anna A. Amirkhanyan, Kristina T. Lambright, 2017-11-28 *Citizen Participation in the Age of Contracting* is based on a simple premise: in democracies, power originates with citizens. While citizen participation in government remains a central tenet of democracy, public service delivery structures are considerably more complex today than they were fifty years ago. Today, governments contract with

private organizations to deliver a wide array of services. Yet, we know very little about how citizens influence government decisions and policies in the hollow state. Based on nearly 100 interviews with public and private managers, our findings about the state of citizen participation in contract governance are somewhat disheartening. Public and private organizations engaged citizens in a number of ways. However, most of their efforts failed to shift the power structure in communities and did not give citizens a chance to fundamentally shape local priorities and programs. Instead, elected officials and professional staff largely maintained control over significant policy and administrative decisions. Widespread, but narrow in their forms and impact, the participation practices we uncovered did not live up to the ideals of democracy and self-governance. Citizen Participation in the Age of Contracting is suitable for those who study public administration, as well as in other closely related fields such as nonprofit management and organizational behavior.

Quo vadis Commercial Contract? Mads Andenas, Maren Heidemann, 2023-03-15 This proceedings volume combines chapters derived from papers presented at the 4th and 5th Annual Conferences on the Future of the Commercial Contract in Scholarship and Law Reform. This ongoing research project brings together scholars from all over the world at an annual international conference in London. The book focusses on technology in commercial contract law as well as on sustainability in commercial contracts. The latter theme was inspired by the United Nations' climate conference that was to take place in Glasgow in the United Kingdom that same year. The book combines topical current issues in commercial contract law and practice organized in three parts. The first part contains contributions to the area of law and technology. The second part of the book expands on aspects of sustainability understood as environmental reasonableness in the context of commercial contracts. The third part includes several chapters on the topics of supervening events and contractual ethics. This book is therefore part of a coherent line of contributions to the furthering of modern contract theory. The choice of topics is closely following current issues of legal policy and contract practice.
