Investigating Adolescent Health Communication Kevin Harvey,2014-02-24 A comprehensive corpus analysis of adolescent health communication is long overdue - and this book provides it. We know comparatively little about the language adolescents use to articulate their health concerns, and discourse analysis of their choices can shed light on their attitudes towards and beliefs about health and illness. This book interrogates a two million word corpus of messages posted by adolescents to an online health forum. It adopts a mixed method corpus approach to health communication, combining both quantitative and qualitative techniques. Analysis in this way gives voice to an age group whose subjective experiences of illness have often been marginalized or simply overlooked in favour of the concerns of older populations.

A Concordance to the Greek New Testament William Fiddian Moulton,Alfred Sherington Geden,Harold Keeling Moulton,2004-07-27 This book is a completely revised and reset edition of the best-selling A Concordance to the Greek Testament edited by W. F. Moulton and A. S. Geden. Originally published in 1897, it has remained in print ever since. It is beyond any doubt the most useful basic tool available for the student of the New Testament. The original edition was primarily based on the Greek text of Westcott and Hort, but gave all the variants in the edition of Tischendorf and in the Greek text underlying the Revised Version of the English Bible; quotations are given with grammatical completeness as far as possible; a significant feature is the inclusion of the Hebrew text of direct quotations from the Old Testament; asterisks and daggers indicate whether the vocabulary items in the New Testament are found in Classical Greek and in the Septuagint.This new edition retains all the features of the earlier editions, but it is primarily based on the Greek text in The Greek New Testament (4th edition), which is identical with that in Novum Testamentum Graece (27th edition), currently the two most widely used editions of the Greek New Testament; it incorporates the main marginal readings in the former of these texts; references to the variants in the older editions are preserved, so that the student has to hand every reading which by even a remote probability might be regarded as forming part of the true text of the New Testament. The Supplement incorporating the prepositions has been included in the main text of the Concordance. Where the same word occurs twice in the same verse, these occurrences are now printed on separate lines and individually verse-numbered so that it is easier to count the number of occurrences of any given word. Special new Greek fonts have been created to enable great clarity in the printing.

Night-time and Sleep in Asia and the West Lodewijk Brunt,Brigitte Steger,2004-06-01 Ideas and practices concerning sleep and night-time are constantly changing and widely varied in different cultures and societies. What we do during the day and night is the result of much political struggle. Trade unions, political parties, entrepreneurs, leaders and schools boards, all have an interest in questions of timing for the opening and closing of shops, the starting hours of schools and factories, and the number of hours people have to work and sleep. By drawing together comparative case studies from countries in both Asia and Europe, Night-time and Sleep in Asia and the West allows the reader to track the differences in the cultural importance given to the night, and to compare the ways in which the challenges and opportunities of modernity have been played out in the East and the West.
