Beds and Blessings in Italy Paulist Press,2010 Helps readers to reflect on the role of gratitude in their lives and to cultivate this virtue for their own benefit. The first author to offer a critique of gratitude through an explanation of various types of gratitude, Charles Shelton uses his skills as a clinical psychologist to present insights into the human experience of gratitude based on his own research. The exercises, strategies, and reflection questions threaded throughout the book give it a practical dimension that facilitates the reader's growth. Shelton's highly original reflection on Jesus as a grateful person lends a spiritual dimension to his work. This book will benefit individual readers as well as serve as a resource for spiritual direction workshops, spiritual formation courses, or ministry formation programs.--From publisher description.

Seafood Processing By-Products Se-Kwon Kim,2014-04-08 The seafood processing industry produces a large amount of by-products that usually consist of bioactive materials such as proteins, enzymes, fatty acids, and biopolymers. These by-products are often underutilized or wasted, even though they have been shown to have biotechnological, nutritional, pharmaceutical, and biomedical applications. For example, by-products derived from crustaceans and algae have been successfully applied in place of collagen and gelatin in food, cosmetics, drug delivery, and tissue engineering. Divided into four parts and consisting of twenty-seven chapters, this book discusses seafood by-product development, isolation, and characterization, and demonstrates the importance of seafood by-products for the pharmaceutical, nutraceutical, and biomedical industries.
