- 📖 ***False Start*** Paul Hoblin,2017-09-01 Things were looking good for Jeff. He was ready to rule the school his senior year as the starting running back on the football team. That is, until Scooter came to town. From the moment the tiny kid stepped onto the field, Jeff's life has been turned upside down. First Jeff loses his starting spot, and then even the chance at a football scholarship. Tensions rise as Jeff tries to take back what is rightfully his—his friends, his school, his team—from the quiet kid who became a walk-on star. But is Scooter really out to ruin Jeff's life, or could it all be a huge misunderstanding?
- 📖 ***The First 20 Hours*** Josh Kaufman,2013-06-13 Forget the 10,000 hour rule— what if it's possible to learn the basics of any new skill in 20 hours or less? Take a moment to consider how many things you want to learn to do. What's on your list? What's holding you back from getting started? Are you worried about the time and effort it takes to acquire new skills—time you don't have and effort you can't spare? Research suggests it takes 10,000 hours to develop a new skill. In this nonstop world when will you ever find that much time and energy? To make matters worse, the early hours of practicing something new are always the most frustrating. That's why it's difficult to learn how to speak a new language, play an instrument, hit a golf ball, or shoot great photos. It's so much easier to watch TV or surf the web . . . In The First 20 Hours, Josh Kaufman offers a systematic approach to rapid skill acquisition— how to learn any new skill as quickly as possible. His method shows you how to deconstruct complex skills, maximize productive practice, and remove common learning barriers. By completing just 20 hours of focused, deliberate practice you'll go from knowing absolutely nothing to performing noticeably well. Kaufman personally field-tested the methods in this book. You'll have a front row seat as he develops a personal yoga practice, writes his own web-based computer programs, teaches himself to touch type on a nonstandard keyboard, explores the oldest and most complex board game in history, picks up the ukulele, and learns how to windsurf. Here are a few of the simple techniques he teaches: Define your target performance level: Figure out what your desired level of skill looks like, what you're trying to achieve, and what you'll be able to do when you're done. The more specific, the better. Deconstruct the skill: Most of the things we think of as skills are actually bundles of smaller subskills. If you break down the subcomponents, it's easier to figure out which ones are most important and practice those first. Eliminate barriers to practice: Removing common distractions and unnecessary effort makes it much easier to sit down and focus on deliberate practice. Create fast feedback loops: Getting accurate, real-time information about how well you're performing during practice makes it much easier to improve. Whether you want to paint a portrait, launch a start-up, fly an airplane, or juggle flaming chainsaws, The First 20 Hours will help you pick up the basics of any skill in record time . . . and have more fun along the way.

- 📖 ***Boring Meetings Suck*** Jon Petz,2011-04-19 The guide that proves your meetings don't have to suck! There's a big dull elephant in the boardroom: this meeting! Most of the millions of meetings held in the world today are a monumental waste of time and talent. Worse still, most of the so-called solutions and books for boring meetings are twice as boring. Boring Meetings Suck provides tips and tactics to deliver Get-In, Get-It-Done, or Get-Out style meetings, while also tackling what most prefer to avoid; that you don't have to be in charge of a meeting to take charge of a meeting. This entertaining and take-no-prisoners guide is full of easily deployed SRDs?Suckification Reduction Devices?that will help you make your next meeting both efficient and effective. Empowers attendees to politely speak up and get a meeting back on track, or graciously get out, without being fired Shows how hosts can capitalize on technology, learning to crowd-source problems and increase participation Defines surefire methods to get meetings to start and end on time and not have the speaker read the slides Stops over-invitation syndrome The author has appeared before many major corporate clients, and was named a Top Business Professional Under 40 by American City Business Journals Your meetings do not have to bore, nor must they suck. Instead, get the winning techniques in Boring Meetings Suck, and make your meetings awesome in their engagement and productivity, or stop having them!
